

Natural Products and their Bioactives in Antidiabetic Drug Discovery

Edited by

Kanti Bhooshan Pandey

Maitree Suttajit

Pinar Atukeren

An abstract graphic of a molecular structure, rendered in light blue lines and dots against a dark blue background. The structure consists of interconnected nodes and lines, forming a complex, multi-dimensional shape that resembles a network or a crystalline lattice. The nodes are small circles, and the lines are thin, creating a delicate, web-like appearance.

Contents

List of Contributors *viii*

Preface *xii*

Part I Fundamental Concepts of Diabetes Mellitus and Drug Discovery Process 1

1 **Diabetes Mellitus and Natural Product-based Drug Discovery: Novel Directions** 3

David J. Newman

2 **Marine Natural Products in the Management of Diabetes Mellitus** 18

Murali Krishna Paidi, Kanchan Siddaprasad Udata, and Subir Kumar Mandal

3 **Carbohydrate-based Antidiabetic Agents from Natural Products** 38

Sandeep Singh

4 **Functional Foods in Clinical Trials in the Intervention of Diabetes Complications** 49

Bavani Arumugam and Umah Rani Kuppusamy

5 **Role of Nanotechnology in Refining the Antidiabetic Activities of Plant Derived Bioactives** 74

Sonam Mishra, Ravindra Dhar, Maitree Suttajit, and Bishnu Kumar Pandey

Part II Bioactive Compounds Against Type 1 Diabetes Mellitus 97

6 **Epidemiology and Genetics of Type 1 Diabetes Mellitus: The Effect of the Mediterranean Diet** 99

Bilge Nur Col and Muveddet Emel Alphan

- 7 The Emerging Role of Plant Polyphenols in the Management of Type 1 Diabetes Mellitus 113**
S. Asha Devi, Suparna Mandal, and S. Raja Sekhar
- 8 Bioactives as Modulators of β -cells and Immunity in Therapy of Type 1 Diabetes Mellitus 136**
Shashank Kumar Ojha
- 9 Obesity in Type 1 Diabetes Mellitus: Clinical Impact and Nutritional Therapy 147**
Gülen Ecem Kalkan and Burcu Ateş Özcan
- 10 Protective Effects of Natural Non-insulin Drugs against Type 1 Diabetes Mellitus 164**
Waseem Hassan, Faraza Javaid, Andleeb Shahzadi, and Sahar Bakht

- Part III Bioactive Compounds Against Type 2 Diabetes Mellitus 177**
- 11 Age-induced Biomarkers of Oxidative Stress in Type 2 Diabetes Mellitus: Role of Plant Polyphenols 179**
Brahm Kumar Tiwari and Kanti Bhooshan Pandey
- 12 Bioactives from Clove Oil for Antibacterial Wound Dressings for the Treatment and Management of Wounds in Type 2 Diabetes Mellitus 195**
Andleeb Shahzadi and Haktan Sonmez
- 13 Nutritional Features and Bioactivities of Thymoquinone against Type 2 Diabetes Mellitus 211**
Pinar Atukeren
- 14 Effect of Resveratrol and Catechins in Maintaining Redox Homeostasis during Type 2 Diabetes Mellitus 219**
Prachee Dubey and Geeta Watal
- 15 Cannabis: Action Mechanisms and Potential Roles in the Management of Type 2 Diabetes Mellitus 232**
Karolin Yanar and Zeynep Mine Coşkun Yazıcı

- Part IV Gestational Diabetes: Prevention and Management by Natural Compounds 245**
- 16 Epidemiology of Gestational Diabetes Mellitus: Preventive Significance of Dietary Pattern 247**
Burcu Yeşilkaya
- 17 Biomarkers of Gestational Diabetes Mellitus, Dietary Polyphenols, and Drug Discovery 260**
Mansi Gandhi
- 18 Medicinal and Aromatic Plants in the Prevention of Gestational Diabetes and Associated Consequences: Current Insights 275**
Jigeesha Mishra, Kanti Bhooshan Pandey, and Shailendra Kumar Srivastava
- 19 Enhancement of Insulin Sensitivity and Management of Lipid Disorders during Gestational Diabetes Mellitus: Role of Capsaicin 294**
Banu Orta-Yilmaz, Ahu Korkut, and Yasemin Aydin
- 20 Effects of Natural Products on the Genetics of Gestational Diabetes Mellitus 308**
Onur Baykara
- Index 321**
