Part I The Microbial World

- Scope of Microbiology and Infection Control, 2
 - Role of Microorganisms in Infection Control, 2
 - Discovery of Microorganisms and Infection Control Procedures, 2
 - Important Activities of Microorganisms, 3
- 2 Characteristics of Microorganisms, 6**
 - Bacteria, 6
 - Bacterial Names and Differentiation, 6*
 - Cell Morphology and Structure, 7*
 - Growth and Control, 10*
 - Viruses, 14
 - Structure, 14*
 - Life Cycle, 14*
 - Lytic Cycle, 14*
 - Persistent Infection, 15*
 - Host Cell Transformation, 15*
 - Controlling Virus Replication, 15*
 - Fungi, 15
- 3 Development of Infectious Diseases, 17**
 - Steps in Disease Development, 17
 - Source of the Microorganism, 17*
 - Escape From the Source, 19*
 - Spread of Microorganisms to Another Person, 19*
 - Entry Into a New Person, 19*
 - Infection, 19*
 - Damage to the Body, 20*
 - Chain of Infection and Prevention, 20*
 - Host–Microorganism Interactions, 20
 - Pathogenic Properties of Microorganisms, 21*
 - Host Defense Mechanisms, 22*
- 4 Emerging Diseases, 26**
 - Ecological Changes, 26
 - Changes in Human Demographics or Behaviors, 28
 - International Travel and Commerce, 28
 - Technology, 29
 - Microbial Changes, 30
 - Breakdown in Public Health Measures, 30
 - Unexplained Emergence, 31
- 5 Oral Microbiology and Plaque-Associated Diseases, 33**
 - Normal Oral Microbiota, 33
 - Microbiology of Caries, 33
 - Susceptible Host, 34*
 - Microorganisms, 34*
 - Substrate, 36*
 - Time, 36*
 - Microbiology of Periodontal Diseases, 36
 - Types of Periodontal Diseases, 36*
 - Microorganisms in Periodontal Diseases, 37*
 - Prevention of Plaque-Associated Diseases, 37
 - Acute Dental Infections, 38
 - Other Infections, 38

Part II Infection Control

- 6 Bloodborne Pathogens, 41**
 - Viral Hepatitis, 41
 - Hepatitis B, 41*
 - Hepatitis C, 45*
 - Hepatitis D, 45*
 - Hepatitides A and E, 45*
 - Human Immunodeficiency Virus Disease, 46
 - Human Immunodeficiency Virus, 46*
 - Disease States and Symptoms, 46*
 - Oral Manifestations of Acquired Immunodeficiency Syndrome, 47*
 - Transmission, 47*
 - Risk for the Dental Team, 48*
 - Risk for Dental Patients, 48*
 - Prevention, 48*
- 7 Oral and Respiratory Diseases, 51**
 - Oral Diseases, 51
 - Human Herpesviruses Types 1 and 2 Diseases, 51*
 - Oral Candidiasis, 51*
 - Oral Syphilis and Gonorrhoea, 53*
 - Herpangina and Hand-Foot-and-Mouth Disease, 53*
 - Systemic Diseases With Oral Lesions, 54
 - Secondary Syphilis, 54*
 - Chickenpox, 54*
 - Infectious Mononucleosis, 54*
 - Respiratory Diseases, 55
 - Streptococcal Pharyngitis, 55*
 - Tuberculosis, 55*
 - Streptococcus pneumoniae Pneumonia, 57*
 - Human Herpesvirus Type 5 Diseases, 58*
 - Human Herpesviruses Types 6, 7, and 8 Diseases, 58*
 - Influenza, 58*
 - Other Respiratory Diseases, 58*
 - Waterborne Disease Agents, 58
 - Legionnaires Disease, 58*
 - Pseudomonas Infection, 59*
 - Other Microbes in Dental Unit Water, 59*
 - Methicillin-Resistant *Staphylococcus aureus*, 59
 - MERS-CoV, 59
- 8 Infection Control Rationale and Regulations, 62**
 - Rationale for Infection Control, 62
 - Pathways for Cross-Contamination, 62*
 - Goal of Infection Control, 65*
 - Recommendations and Regulations, 65
 - Infection Control Recommendations, 65*
 - Infection Control Regulations, 66*
 - Summary of the OSHA Bloodborne Pathogens Standard, 67
 - Exposure Control Plan, 67*
 - Communication of Biohazards, 68*
 - Hepatitis B Vaccination, 69*

- Postexposure Medical Evaluation and Follow-Up*, 70
- Record Keeping*, 71
- Universal Precautions*, 71
- Engineering and Work Practice Controls*, 71
- Personal Protective Equipment*, 72
- Regulated Waste*, 73
- Contaminated Laundry*, 73
- Instrument Sterilization Not Covered by OSHA*, 73
- Summary of the Centers for Disease Control and Prevention Infection Control Recommendations for Dentistry**, 73
 - Administrative Measures (New in 2016)*, 74
 - Infection Prevention Education and Training (New in 2016)*, 74
 - Personnel Health Elements of an Infection Control Program*, 74
 - Prevention of Transmission of Bloodborne Pathogens*, 74
 - Prevention of Exposures to Blood and Other Potentially Infectious Materials*, 74
 - Hand Hygiene*, 74
 - Personal Protective Equipment*, 74
 - Contact Dermatitis and Latex Hypersensitivity*, 74
 - Respiratory Hygiene/Cough Etiquette (New in 2016)*, 74
 - Sterilization and Disinfection of Patient Care Items*, 75
 - Environmental Infection Control*, 75
 - Dental Unit Water Lines, Biofilms, and Water Quality*, 75
 - Boil-Water Notices*, 75
 - Dental Handpieces and Other Devices Attached to Air and Water Lines*, 76
 - Dental Radiology*, 76
 - Aseptic Technique for Parenteral Medications*, 76
 - Single-Use (Disposable) Devices*, 76
 - Oral Surgical Procedures*, 76
 - Handling of Extracted Teeth*, 76
 - Dental Laboratory*, 76
 - Mycobacterium tuberculosis*, 77
 - Program Evaluation*, 77
- 9 Preparing for Patient Safety and Occupational Health**, 79
 - Safety Culture*, 79
 - Development*, 79
 - Evaluation*, 79
 - Setting the Stage for Safety*, 79
 - How Infection Control Benefits Patients*, 81
 - How Infection Control Benefits Dental Personnel*, 81
 - Regulations and Recommendations*, 81
 - Education and Training*, 81
 - Written Health Program*, 81
- 10 Immunization**, 85
 - Tetanus*, 86
 - Influenza*, 86
 - Hepatitis B*, 90
 - Risk of Missing an Important Opportunity*, 91
- 11 Hand Hygiene**, 94
 - Hands and Disease Spread*, 94
 - Protective Value of Hand Hygiene*, 94
 - Hand Hygiene Agents*, 95
 - Hand Hygiene Procedures*, 96
 - Properties of Hand Hygiene Agents*, 97
 - Other Hand Hygiene Considerations*, 97
- 12 Personal Protective Equipment**, 101
 - Gloves*, 101
 - Protective Value*, 101
 - Uses and Types*, 102
 - Limitations*, 103
 - Harmful Reactions to Gloves*, 103
 - Masks*, 106
 - Protective Value*, 106
 - Uses and Types*, 106
 - Limitations*, 107
 - Protective Eyewear*, 107
 - Protective Value*, 107
 - Uses and Types*, 108
 - Limitations*, 108
 - Protective Clothing*, 109
 - Protective Value*, 109
 - Uses and Types*, 109
 - Placing and Removing Equipment Barriers*, 110
 - Properties of Protective Equipment*, 110
 - PPE for Use With Ebola Patients*, 110
- 13 Instrument Processing**, 113
 - Health Advisory From the Centers for Disease Control and Prevention*, 113
 - Sterilization Versus Disinfection*, 114
 - Sterilization*, 114
 - Disinfection*, 114
 - Categories of Patient Care Items*, 115
 - Sterility Assurance for Patient Protection*, 115
 - Instrument Processing Procedures*, 115
 - Holding (Presoaking)*, 115
 - Precleaning*, 116
 - Corrosion Control, Drying, and Lubrication*, 119
 - Packaging*, 119
 - Sterilization*, 121
 - Sterilization Monitoring*, 126
 - Handling of Processed Instruments*, 132
 - Design of the Instrument Processing Area*, 133
 - General Location and Utilities*, 133
 - Workflow Design*, 134
 - Instrument Sharpening*, 135
 - Instrument Protection*, 135
 - Handpiece Asepsis*, 136
 - Sterilization of Heat-Labile Items*, 136
 - Other Methods of Sterilization*, 137
 - Sterilization of Prion-Contaminated Instruments*, 138
 - Properties of Decontamination and Sterilization Equipment and Products*, 138

- 4 Surface and Equipment Asepsis, 142**
 Types of Environmental Surfaces, 142
 Surface Barriers, 142
 Types of Surface Barriers, 142
 Use of Surface Barriers, 143
 Precleaning and Disinfection, 144
 Approaches to Precleaning and Disinfection, 145
 Characteristics of Disinfectants, 147
 Centers for Disease Control and Prevention
 Recommendations for Surface Asepsis, 150
 Equipment Decontamination, 151
 Management of High-Tech Equipment, 152
 Aseptic Distribution of Dental Supplies, 152
 Aseptic Retrieval, 152
 Unit Dosing, 152
- 15 Dental Unit Water Asepsis and Air Quality, 155**
 Dental Unit Water, 155
 Presence of Microorganisms in Dental Unit Water, 155
 Types and Importance of Microorganisms in Dental Unit Water, 155
 Pseudomonas, 155
 Legionella, 156
 Mycobacterium, 157
 Other Bacteria, 157
 Endotoxins, 157
 Biofilm in Dental Water Lines, 157
 General Nature of Biofilm, 157
 Mechanisms of Biofilm Formation, 158
 Rate of Biofilm Formation, 158
 Need to Improve Dental Unit Water Quality, 159
 Current Infection Control Recommendations, 160
 Centers for Disease Control and Prevention, 160
 American Dental Association, 160
 Dental Unit Water and Infection Control, 160
 Oral Surgical Procedures, 160
 Flushing of the Water Lines, 160
 Minimizing Sprays and Spatter, 160
 Barriers for the Patient and Dental Team, 160
 Approaches to Improve Dental Unit Water Quality, 161
 Independent Water Reservoirs, 161
 Decontaminating and Antimicrobial Agents, 161
 Source Water Treatment Systems, 161
 Filters, 161
 Sterile Water Delivery Systems, 162
 Water Quality Monitoring, 162
 Boil-Water Notices, 162
 Backflow Prevention, 163
 Dental Unit Air, 163
- 16 Aseptic Techniques, 165**
 Touching of As Few Surfaces As Possible, 165
 Minimization of Dental Aerosols and Spatter, 165
 High-Volume Evacuation, 165
 Saliva Ejector, 166
 Use of the Rubber Dam, 166
 Preprocedure Mouth Rinse, 166
 Use of Disposables, 166
- Safe Injection Practices, 167
 Housekeeping and Cleaning, 167
 Cleaning, 167
 Flooring, Carpeting, and Upholstery, 167
 Other Aseptic Techniques, 167
- 17 Laboratory and Radiographic Asepsis, 170**
 Laboratory Asepsis, 170
 Protective Barriers, 170
 Receiving Areas, 170
 Microbially Soiled Prostheses and Impressions, 170
 Grinding, Polishing, and Blasting, 171
 Intermediate Cases, 172
 Return of Completed Cases, 172
 Other Thoughts, 172
 Radiographic Asepsis, 173
 Unit, Film, and Patient Preparation, 173
 Taking of Radiographs, 173
 Digital Radiographic Sensors, 174
 Darkroom Activities, 174
 Daylight Loaders, 174
 Waste Management, 175
- 18 Waste Management, 176**
 Comprehensive Waste Management Plan, 176
 Types of Waste, 176
 Infectious Waste Management, 177
 Blood in a Liquid or Semiliquid Form, 177
 Pathogenic Waste (Teeth and Other Tissues), 178
 Sharps, 178
- 19 Sharps Safety, 181**
 Risks From Sharps Injuries, 181
 When Can Injuries Occur?, 181
 Prevention of Sharps Injuries, 181
 Safety Culture, 181
 Occupational Safety and Health Administration's
 Needlestick Prevention Act, 182
 Specific Prevention Approaches, 183
 Safe Injection Practices, 183
 Parenteral Medications, 183
 Dental Anesthetic Injections, 185
- 20 Asepsis Protocols, SOPs, and Checklists, 187**
 Safety Culture, 187
 Behind the Scenes, 187
 Regulations, Recommendations, Administration,
 Record Keeping, 187
 Education and Training, 188
 Medical Conditions and Work Restrictions, 188
 Immunizations and Testing, 188
 Postexposure Management, 188
 General Preparation, 189
 Reception Area, 189
 Clinical Area, 189
 Before Seating the Patient, 189
 After Seating the Patient, 190
 During Patient Treatment, 190
 After Patient Treatment, 191
 Operatory Cleanup, 191
 Instrument Processing, 192

- Waste Management, 193
 - Removal of Personal Protective Equipment (PPE), 193
- Radiographic Asepsis, 193
 - Unit/Patient Preparation, 193
 - Darkroom Processing, 194
 - Daylight Loader Processing, 194
- Laboratory Asepsis, 194
- 21 General Office Safety and Asepsis, 196**
 - Be Prepared, 196
 - Training, 196
 - Plan Ahead, 196
 - The Reception Area, 196
 - General Cleanliness, 196
 - Cough Etiquette, 197
 - Contamination From Outside, 197
 - People, 197
 - Natural Resources, 198
 - Food, 199
 - Deliverables, 199
 - Walk Throughs, 199
- 22 Greener Infection Control, 201**
 - Going Green, 201
 - Adverse Environmental Impacts, 201
 - Recycling and Biodegradation, 202
 - Green Indicators, 202
 - Evaluating Specific Infection Control Procedures, 203
 - Hand Hygiene, 203
 - Instrument Processing, 203
 - Radiology, 203
 - Personal Protective Barriers, 203
 - Regulated Medical Waste, 203
 - Environmental Asepsis, 203
 - Use of Paper, 204
 - Summary of Procedures for Greener Infection Prevention, 204
 - Final Comments and Futuristic Thinking, 204
- 23 Cross-Contamination Between Work and Home, 206**
 - Routes of Spread From the Office to Home, 206
 - Clothing, 206
 - Personal Items, Hands, and Hair, 206
 - Routes of Spread From Home to the Office, 206
 - Work Restrictions, 206
 - Clothing and Personal Items, 207
 - Food Preparation and Storage, 207
 - Taking Lunches or Other Foods to Work, 208
 - General Home Hygiene, 208
- Standards, 211
- Standards Development, 212
- State Safety and Health Programs, 213
 - Department of Labor 2014 to 2018 Strategic Plan, 213
 - Strategic Challenges, 213
- 25 OSHA Inspections, 215**
 - About OSHA, 215
 - Inspection Priorities, 215
 - What Does the Inspection Process Involve?, 215
 - The Complaint, 215
 - OSHA Responds to the Complaint, 216
 - On-Site Inspection, 216
 - During an Inspection, 216
 - What Are the Possible Outcomes of an Inspection?, 216
 - Proactive Thinking, 218
- 26 Management of the Office Safety Program, 220**
 - Infection Control Coordinator, 220
 - Management Duties, 220
 - Development of Standard Operating Procedures (SOPs), 220
 - Review Regulations and Advances, 220
 - Enhance Communication, 221
 - Maintain Office Safety Documents, 222
 - Develop Responses to Emergencies, 222
 - Procure and Manage Safety Products and Equipment, 222
 - Evaluation of the Infection Control Program, 223
- 27 Managing Chemicals Safely, 227**
 - Hazard Communication Program, 227
 - Statement of the Problem, 227
 - Occupational Safety and Health Administration, 227
