UNIT I. THE FOUNDATIONS OF CHILD HEALTH ASSESSMENT

1. Child Health Assessment: An Overview	3
Overview of Pediatric Health Variations	3
Communication Skills Required to Work with Children	19
Obtaining the Pediatric Health History	19
The Pediatric Physical Examination	19
Understanding the Caregiver–Child Relationship	19
Role of the Pediatric Healthcare Provider	19
2. Assessment of Child Development and Behavior	21
Introduction	21
Influences On Child Development	21
Evaluating Child Development and Behavior	25
Laboratory and Imaging Assessment	45
Summary	45
Documentation of Findings	45
3. Communicating with Children and Families	51
Introduction	51
Understanding Family Dynamics and Parent–Child Relationships	52
Age and Developmental Considerations	60
Summary	63
4. Assessment of the Family	65
Importance of Family Assessment	65
Purpose of Family Assessment	66
Strength-Based Family Assessment	66
Characteristics of Healthy Families	66
Family Demographics	67

Family Structure	67
Stages in Family Development	69
Divorce and the Postdivorce Family Life	70
Family Assessment	72
Summary	76

5. Cultural Assessment of Children and Families	79
Introduction	79
Culture	79
Cultural Competence	82
Cross-Cultural Communication	83
Cross-Cultural Differences	85
Health Beliefs and Practices	87
Assessing Immigrant and Refugee Children	93
Summary	95

UNIT II. THE PEDIATRIC HISTORY AND PHYSICAL EXAMINATION

Gathering Subjective Data 101

6. Obtaining the Pediatric Health History	101
How to Conduct a Pediatric History Interview	101
Types of Pediatric Health Histories	103
7. Assessing Safety and Injury Risk in Children	123
Introduction: Unintentional Injuries to Children	123
Pediatric Morbidity and Mortality Statistics	124
Identifying Risk Factors for Child Injury	127
Injury Prevention Through Health Assessment	130
Summary	148

Gathering Objective Data	153		
8. The Pediatric Physical Examination	153		
Preparation of the Environment	154		
Preparation of the Child	155		
General Survey	156		
Examination Techniques	157		
General Approach to the Pediatric Physical Examination	160		
Sequencing of the Physical Examination	161		
Challenging Pediatric Patients	161		
Physiologic and Anthropometric Measurements	164		
Physiologic Measurements	164		
Summary	174		
9. The Health Supervision Visit: Wellness Examinations in Children	177		
Introduction	177		
Wellness Care for Children	177		
The Pediatric Health Supervision Visit	178		
The Preparticipation Sports Examination (PPSE)	186		
Summary	190		
10. Assessment of Nutritional Status	193		
Introduction	193		
Assessment of Pediatric Nutritional Status History	193		
Evaluation and Interpretation of Dietary Intake Information	198		
Physical Examination	199		
Laboratory and Diagnostic Examination	201		
Summary	204		
11. Assessment of the Neonate	207		
Introduction	207		
History	207		
Physical Examination	211		
Newborn Screening	230		
Assessment of the Preterm Infant After Hospital Discharge	231		
Summary	233		
12. Assessment of the Integumentary System	239		
Introduction	239		
Anatomy and Physiology	239		
Developmental Considerations	241		
Assessment of the Skin, Hair, and Nails	242		
Cultural, Racial, and Ethnic Considerations	260		
Common Diagnostic Studies	262		
Documentation of Findings	264		
13. Assessment of the Head, Neck, and Regional Lymphatics	267		
Introduction	267		
Anatomy and Physiology	267		
Developmental Considerations	270		
Assessment of the Head, Neck, and Regional Lymphatics	271		
Common Diagnostic Studies	283		
Documentation of Findings	283		
14. Assessment of the Ears	289		
Introduction	289		
Anatomy and Physiology	289		
Developmental Considerations	291		
Cultural, Ethnic, and Racial Considerations	292		
Assessment of the Ear	292		
Assessment of Hearing Acuity	303		
Common Diagnostic Studies	308		
Documentation of Findings	308		
15. Assessment of the Eyes	315		
Introduction	315		
Anatomy and Physiology	315		
Developmental Considerations	318		
Cultural, Racial, and Ethnic Considerations	319		
Assessment of the Eye	319		
Common Diagnostic Studies	335		
Documentation of Findings	335		
16. Assessment of the Face, Nose, and Oral Cavity	339		
Introduction	339		
Anatomy and Physiology	339		
Developmental Considerations	342		
Cultural, Ethnic, and Racial Considerations	343		
Assessment of the Face, Nose, and Mouth	344		
Evaluation of Speech	359		
Common Diagnostic Studies	359		
Documentation of Findings	359		
17. Assessment of the Thorax, Lungs, and Regional Lymphatics	363		
Introduction	363		
Anatomy and Physiology	363		
Developmental Considerations	365		
Cultural, Racial, and Ethnic Considerations	368		
Assessment of the Thorax, Lungs, and Regional Lymphatics	368		
Common Diagnostic Studies	380		
Documentation of Findings	380		
18. Assessment of the Cardiovascular System	385		
Introduction	385		
Anatomy and Physiology	385		
Developmental Considerations	387		
Assessment of the Cardiovascular System	388		
Helpful Maneuvers: Assessment of Peripheral Pulses, Lungs, and Liver	404		
Common Diagnostic Studies	405		
Documentation of Findings	406		

- 19. Assessment of the Abdomen and Regional Lymphatics 409**
 Introduction 409
 Anatomy and Physiology 409
 Developmental Considerations 412
 Cultural, Ethnic, and Racial Considerations 414
 Assessment of the Abdomen 414
 Common Diagnostic Studies 423
 Documentation of Findings 423
- 20. Assessment of the Reproductive and Genitourinary Systems 433**
 Introduction 433
 Anatomy and Physiology 433
 Developmental Considerations 436
 Physiologic Changes At Puberty 437
 Cultural, Racial, and Religious Considerations 438
 Assessment of the Genitourinary System 439
 Common Diagnostic Studies 453
 Documentation of Findings 453
- 21. Assessment of the Musculoskeletal System 457**
 Introduction 457
 Anatomy and Physiology 457
 Developmental Considerations 462
 Cultural, Ethnic, and Racial Considerations 463
 Assessment 463
 Common Diagnostic Studies 476
 Documentation of Findings 476
- 22. Assessment of the Neurologic System 481**
 Introduction 481
 Anatomy and Physiology 481
 Developmental Considerations 487
 Assessment of the Neurologic System 489
 Common Diagnostic Studies 514
 Documentation of Findings 514
- UNIT III. ASSESSMENT OF CHILD MENTAL HEALTH AND WELFARE**
- 23. Assessment of Mental Disorders in Children and Adolescents 521**
 Introduction 521
 Risk Factors for Mental Disorders in Children and Adolescents 521
 Assessment of Children and Adolescents with Known Or Suspected Mental Disorders 522
 Assessment of Selected Mental Health Disorders in Children and Adolescents 524
 Common Diagnostic Studies 533
 Summary 534
- 24. Assessment of Child Abuse and Neglect 537**
 Introduction 537
 Types of Child Maltreatment 537
 Epidemiology of Child Abuse and Neglect 539
 Assessment of Child Maltreatment and Neglect 541
 Common Diagnostic Studies 554
 Documentation and Reporting of Abuse and Neglect 554
- UNIT IV. SYNTHESIZING THE COMPONENTS OF THE PEDIATRIC HEALTH ASSESSMENT**
- 25. The Complete History and Physical Examination: From Start to Finish 563**
 Introduction 563
 The Neonate and Infant 563
 The Toddler 566
 The Preschool, School-Aged Child, and Adolescent 569
- 26. Formulating a Differential Diagnosis 573**
 Introduction 573
 The Diagnostic Process 573
 Steps in Formulating a Differential Diagnosis 574
 Making the Diagnosis 575
 Improving Diagnostic Reasoning 575
 Summary 576
- Appendix A Normal Vital Signs in Infants, Children, and Adolescents 577*
Appendix B Centers for Disease Control and Prevention Growth Charts 579
 Index 591

Advanced Pediatric Assessment

Third Edition

Ellen M. Chiocca, PhD, CPNP, RNC-NIC

Underscores the unique health needs of children at different ages and developmental stages

This is the only text/reference book to deliver the specialized knowledge and skills needed to accurately assess children during health and illness. Comprehensive and detailed, it emphasizes the unique anatomic and physiologic differences among infants, children, and adolescents. The third edition features updated clinical practice guidelines, clinical decision-making, formulating differential diagnoses, and evidence-based practice. It newly addresses toxic stress and trauma-informed care and child witnesses to violent acts. Additionally, this book provides several new features, facilitating quick access to key information along with new instructor and student resources.

Using a body system that highlights developmental and cultural considerations, the text examines the physical and psychosocial principles of growth and development with a focus on health promotion and wellness. Especially useful features include a detailed chapter on helpful communication techniques when assessing children of various ages and developmental levels, a chapter on the assessment of child abuse and neglect, over 280 photos and charts depicting a variety of commonly encountered pediatric findings, and sample medical record documentation in each chapter.

New to the Third Edition:

- Now in full color!
- Now includes NEW instructor resources (PowerPoints, Test Bank, full-color Image Bank)
- Updated clinical practice guidelines
- Clinical decision making, formulating differential diagnoses, and evidence-based practice
- Immigrant and refugee health
- Toxic stress and trauma-informed care
- Child witnesses to violent acts
- Content outline at the beginning of each chapter
- Call-out boxes summarizing key information
- Summary boxes on essential areas of physical exams

Key Features:

- Focuses exclusively on the health history and assessment of infants, children, and adolescents
- Describes the unique anatomic and physiologic differences among infants, children, and adolescents
- Provides comprehensive and in-depth information for APRN students and new practitioners
- Addresses family, developmental, nutritional, and child mistreatment assessment
- Includes clinical practice guidelines for common medical conditions
- Incorporates up-to-date screening and health promotion guidelines
