# Exam Review *PLUS* Practice Questions

## ADULT-GERONTOLOGY ACUTE CARE NURSE PRACTITIONER

Evidence-based questions with answers and detailed rationales

High-yield content review with assessment, analysis, and knowledge-based questions

Test-taking strategies and tips for certification exam success

FREE, 1-year access to Davis Edge online quizzing for AGACNP exam-prep

# TABLE OF CONTENTS

<b>CHAPTER 1</b>	<b>Test-Taking Strategies</b>	<b>1</b>
<hr/>		
	<i>Anthony M. Angelow</i>	
	<b>Introduction</b>	<b>1</b>
	<b>Types of Questions and Levels of Difficulty</b>	<b>1</b>
	<i>Knowledge-Based Questions</i>	<b>2</b>
	<i>Comprehension Questions</i>	<b>2</b>
	<i>Application and Evaluation Questions</i>	<b>3</b>
	<i>Analysis and Synthesis Questions</i>	<b>3</b>
	<b>Question Format</b>	<b>6</b>
	<i>Multiple-Choice Questions</i>	<b>6</b>
	<i>Multiple-Answer Selection</i>	<b>7</b>
	<i>Matching Questions</i>	<b>8</b>
	<i>Prioritizing Questions</i>	<b>8</b>
	<i>Picture Questions</i>	<b>9</b>
	<b>Key Words</b>	<b>10</b>
	<b>The Nursing Process</b>	<b>12</b>
	<i>Example of an Assessment Question</i>	<b>12</b>
	<i>Example of a Diagnosis Question</i>	<b>13</b>
	<i>Example of a Plan Question</i>	<b>13</b>
	<i>Example of an Implementation Question</i>	<b>13</b>
	<i>Example of an Evaluation Question</i>	<b>14</b>
	<b>Knowledge Base of the Nurse Practitioner</b>	<b>14</b>
	<i>Risk Factors</i>	<b>15</b>
	<i>Advanced Pathophysiology of the Disease Process</i>	<b>15</b>
	<i>Advanced Health Assessment</i>	<b>15</b>
	<i>Evidence-Based Interventions and Advanced Pharmacology</i>	<b>16</b>
	<i>Clinical Outcome</i>	<b>16</b>
	<b>Study Tips for Advanced Pathophysiology, Pharmacology, and Health Assessment</b>	<b>16</b>
	<i>Introduction</i>	<b>16</b>
	<i>Study Tips for Advanced Pathophysiology</i>	<b>16</b>
	<i>Advanced Health Assessment</i>	<b>17</b>
	<i>Advanced Pharmacology</i>	<b>18</b>
	<i>Suggested Study Guide</i>	<b>19</b>
<b>CHAPTER 2</b>	<b>Professional Role of the Adult-Gerontology Acute Care Nurse Practitioner</b>	<b>21</b>
<hr/>		
	<i>Anthony M. Angelow</i>	
	<b>Introduction</b>	<b>21</b>
	<i>Role of the Adult-Gerontology Acute Care Nurse Practitioner</i>	<b>21</b>
	<i>Standards of Clinical Practice for the Nurse Practitioner</i>	<b>23</b>
	<i>Standards of Professional Performance</i>	<b>25</b>
	<i>Ethical and Legal Aspects of Care</i>	<b>25</b>
	<i>Other Professional Concepts</i>	<b>26</b>
	<i>Health Insurance Portability and Accountability Act</i>	<b>27</b>
	<i>Legal Terminology and Concepts</i>	<b>28</b>
	<i>Malpractice</i>	<b>29</b>

	<i>Clinical Inquiry</i>	30
	<i>Levels of Evidence</i>	30
	<i>Quantitative Research</i>	30
	<i>Qualitative Research</i>	32
	<i>Reimbursement</i>	34
<b>CHAPTER 3</b>	<b>Health Promotion and Disease Prevention</b>	<b>43</b>
	<i>Anthony M. Angelow and Barbara R. Osborne</i>	
	<b>Introduction</b>	43
	<b>Therapeutic Communication</b>	43
	<b>Primary Prevention</b>	43
	<b>Secondary Prevention</b>	45
	<b>Tertiary Prevention</b>	51
<b>CHAPTER 4</b>	<b>Integumentary Disorders</b>	<b>53</b>
	<i>Anthony M. Angelow</i>	
	<b>Infectious Skin Disorders (Cellulitis)</b>	53
	<i>Background and Pathophysiology</i>	53
	<i>Epidemiology and Risk Factors</i>	54
	<i>Advanced Health Assessment</i>	54
	<i>Making the Diagnosis</i>	54
	<i>Evidence-Based Management</i>	55
	<b>Pressure Injuries</b>	57
	<i>Background and Pathophysiology</i>	57
	<i>Epidemiology and Risk Factors</i>	57
	<i>Advanced Health Assessment and Diagnosis</i>	57
	<i>Evidence-Based Management</i>	57
	<b>Herpes Zoster (Shingles)</b>	60
	<i>Background and Pathophysiology</i>	60
	<i>Epidemiology and Risk Factors</i>	60
	<i>Advanced Health Assessment</i>	60
	<i>Making the Diagnosis</i>	60
	<i>Evidence-Based Management</i>	60
	<b>Skin Cancer Overview</b>	61
<b>CHAPTER 5</b>	<b>Neurological Disorders</b>	<b>65</b>
	<i>Dawn M. Specht and Anthony M. Angelow</i>	
	<b>Introduction</b>	65
	<b>Stroke or Cerebrovascular Accident</b>	66
	<i>Background and Pathophysiology</i>	66
	<i>Advanced Health Assessment</i>	66
	<i>Making the Diagnosis</i>	66
	<i>Evidence-Based Management</i>	67
	<b>Ischemic Stroke</b>	67
	<b>Hemorrhagic Stroke</b>	68
	<b>Transient Ischemic Attack</b>	69
	<b>Primary Prevention</b>	69
	<b>Secondary Prevention</b>	69
	<b>Tertiary Prevention</b>	69
	<b>Traumatic Brain Injury and Intracranial Hypertension</b>	70
	<i>Background and Pathophysiology</i>	70
	<i>Advanced Health Assessment</i>	71

<i>Making the Diagnosis</i>	72
<i>Evidence-Based Management</i>	72
<b>Meningitis</b>	75
<i>Background and Pathophysiology</i>	75
<i>Advanced Health Assessment</i>	75
<i>Making the Diagnosis</i>	75
<i>Evidence-Based Management</i>	75
<b>Seizures</b>	77
<i>Background and Pathophysiology</i>	77
<i>Advanced Health Assessment</i>	77
<i>Making the Diagnosis</i>	77
<i>Evidence-Based Management</i>	78
<b>Spinal Cord Injury</b>	79
<i>Background and Pathophysiology</i>	79
<i>Advanced Health Assessment</i>	79
<i>Making the Diagnosis</i>	81
<i>Evidence-Based Management</i>	81
<b>Neuromuscular Disorders</b>	84
<i>Background and Pathophysiology</i>	84
<i>Advanced Health Assessment</i>	84
Multiple Sclerosis	84
Guillain-Barré Syndrome	84
Myasthenia Gravis	85
<i>Making the Diagnosis</i>	85
<i>Evidence-Based Management</i>	85
Multiple Sclerosis	85
Guillain-Barré Syndrome	86
Myasthenia Gravis	87
<b>Headaches</b>	88
<i>Background and Pathophysiology</i>	88
<i>Advanced Health Assessment</i>	89
<i>Making the Diagnosis</i>	89
<i>Evidence-Based Management</i>	89

---

## CHAPTER 6 **Head, Ears, Eyes, Nose, and Throat Disorders** 95

<i>Anthony M. Angelow</i>	
<b>Sinusitis</b>	95
<i>Background and Pathophysiology</i>	95
<i>Epidemiology and Risk Factors</i>	95
<i>Advanced Health Assessment</i>	96
Subjective Findings	96
Objective Findings	97
<i>Making the Diagnosis</i>	97
<i>Evidence-Based Management</i>	97
<b>Conjunctivitis</b>	99
<i>Background and Pathophysiology</i>	99
<i>Advanced Health Assessment</i>	99
<i>Evidence-Based Management</i>	99
Viral	99
Allergic	100
Bacterial	100
<b>Corneal Abrasion</b>	101
<i>Background and Pathophysiology</i>	101
<i>Advanced Health Assessment</i>	101
<i>Making the Diagnosis</i>	102

<i>Evidence-Based Management</i>	102
<b>Glaucoma</b>	103
<i>Background and Pathophysiology</i>	103
<i>Epidemiology and Risk Factors</i>	104
<i>Advanced Health Assessment</i>	104
<i>Making the Diagnosis</i>	104
<i>Evidence-Based Management</i>	104
<b>CHAPTER 7 Pulmonary Disorders</b>	109
<hr/>	
<i>Anthony M. Angelow and Andrew C. Storer</i>	
<b>Acute Pulmonary Embolism</b>	109
<i>Background and Pathophysiology</i>	109
<i>Epidemiology and Risk Factors</i>	109
<i>Advanced Health Assessment</i>	110
<i>Making the Diagnosis</i>	110
<i>Evidence-Based Management</i>	110
<b>Acute Respiratory Distress Syndrome</b>	113
<i>Background and Pathophysiology</i>	113
<i>Advanced Health Assessment</i>	113
<i>Making the Diagnosis</i>	114
<i>Evidence-Based Management</i>	114
<b>Pneumothorax</b>	116
<i>Background and Pathophysiology</i>	116
<i>Advanced Health Assessment</i>	116
<i>Making the Diagnosis</i>	116
<i>Evidence-Based Management</i>	117
<b>Hemothorax</b>	117
<i>Background and Pathophysiology</i>	117
<i>Advanced Health Assessment</i>	118
<i>Making the Diagnosis</i>	118
<i>Evidence-Based Management</i>	118
<b>Asthma</b>	120
<i>Background and Pathophysiology</i>	120
<i>Epidemiology and Risk Factors</i>	120
<i>Advanced Health Assessment</i>	121
<b>Pulmonary Function Tests</b>	121
<i>Making the Diagnosis</i>	121
<i>Evidence-Based Management</i>	123
<b>Chronic Obstructive Pulmonary Disease</b>	126
<i>Background and Pathophysiology</i>	126
<i>Epidemiology and Risk Factors</i>	127
<i>Advanced Health Assessment</i>	127
<i>Making the Diagnosis</i>	127
<i>Evidence-Based Management</i>	129
<b>COPD Exacerbation Treatment</b>	130
<b>Pneumonia</b>	133
<i>Background and Pathophysiology</i>	133
<i>Advanced Health Assessment</i>	133
<i>Making the Diagnosis</i>	134
<i>Evidence-Based Management</i>	138
<b>Community-Acquired Pneumonia Treatment</b>	138
<b>Hospital-Acquired Pneumonia Treatment</b>	139
<b>Ventilator-Associated Pneumonia Treatment</b>	140
<b>Acute Respiratory Failure Review and Overview of Mechanical Ventilation</b>	142

<i>Advanced Health Assessment</i>	143
<i>Making the Diagnosis</i>	143
Mechanical Ventilation Settings	143
Mechanical Ventilator Modes	145

## CHAPTER 8 **Cardiovascular Disorders** 149

*Anthony M. Angelow*

<b>Introduction</b>	149
<b>Primary and Secondary Hypertension</b>	149
<i>Background and Pathophysiology</i>	149
<i>Epidemiology and Risk Factors</i>	151
<i>Advanced Health Assessment</i>	151
<i>Making the Diagnosis</i>	153
<i>Evidence-Based Management</i>	154
<b>Hypertensive Crisis</b>	158
<i>Background and Pathophysiology</i>	158
<i>Epidemiology and Risk Factors</i>	158
<i>Advanced Health Assessment</i>	158
<i>Making the Diagnosis</i>	159
<i>Evidence-Based Management</i>	160
<b>Dyslipidemia</b>	162
<i>Background and Pathophysiology</i>	162
<i>Epidemiology and Risk Factors</i>	163
<i>Advanced Health Assessment</i>	163
<i>Making the Diagnosis</i>	163
<i>Evidence-Based Management</i>	164
<b>Acute Coronary Syndrome</b>	168
<i>Background and Pathophysiology</i>	168
<i>Epidemiology and Risk Factors</i>	168
<i>Advanced Health Assessment</i>	168
<i>Making the Diagnosis</i>	169
<i>Evidence-Based Management</i>	169
<b>Heart Failure</b>	174
<i>Background and Pathophysiology</i>	174
<i>Epidemiology and Risk Factors</i>	175
<i>Advanced Health Assessment</i>	175
<i>Making the Diagnosis</i>	176
<i>Evidence-Based Management</i>	178
<b>Acute Infectious and Inflammatory</b>	
<b>Cardiovascular Disease</b>	182
<i>Background and Pathophysiology</i>	182
<i>Epidemiology and Risk Factors</i>	182
<i>Advanced Health Assessment</i>	183
<i>Making the Diagnosis</i>	183
<i>Evidence-Based Management</i>	184
<b>Peripheral Vascular Disease</b>	186
<i>Background and Pathophysiology</i>	186
<i>Epidemiology and Risk Factors</i>	186
<i>Advanced Health Assessment</i>	187
<i>Making the Diagnosis</i>	187
<i>Evidence-Based Management</i>	187
<b>Deep Vein Thrombosis</b>	190
<i>Background and Pathophysiology</i>	190
<i>Advanced Health Assessment</i>	191
<i>Making the Diagnosis</i>	191

<i>Evidence-Based Management</i>	192
<b>Review of Cardiac Dysrhythmia Emergency Treatment and Postcardiac Arrest Treatment</b>	197
<b>CHAPTER 9 Gastrointestinal Disorders</b>	203
<i>Anthony M. Angelow</i>	
<b>Introduction</b>	203
<b>Gastroesophageal Reflux Disease</b>	203
<i>Background and Pathophysiology</i>	203
<i>Epidemiology and Risk Factors</i>	205
<i>Advanced Health Assessment</i>	205
<i>Making the Diagnosis</i>	205
<i>Evidence-Based Management</i>	205
<b>Peptic Ulcer Disease</b>	206
<i>Background and Pathophysiology</i>	206
<i>Epidemiology and Risk Factors</i>	206
<i>Advanced Health Assessment</i>	207
<i>Making the Diagnosis</i>	207
<i>Evidence-Based Management</i>	207
<b>Bowel Obstruction</b>	210
<i>Background and Pathophysiology</i>	210
<i>Epidemiology and Risk Factors</i>	210
<i>Advanced Health Assessment</i>	210
<i>Making the Diagnosis</i>	210
<i>Evidence-Based Management</i>	211
<b>Inflammatory and Infectious Diseases of the Abdomen (Cholecystitis, Pancreatitis, Appendicitis, and Diverticulitis)</b>	212
<i>Background and Pathophysiology</i>	212
<i>Advanced Health Assessment</i>	212
<i>Making the Diagnosis</i>	213
<i>Evidence-Based Management</i>	213
<b>Inflammatory Bowel Disease</b>	215
<i>Background and Pathophysiology</i>	215
<i>Advanced Health Assessment</i>	216
<i>Making the Diagnosis</i>	216
<i>Evidence-Based Management</i>	216
<b>CHAPTER 10 Renal and Genitourinary Disorders</b>	219
<i>Anthony M. Angelow and Barbara R. Osborne</i>	
<b>Acute Renal Failure</b>	219
<i>Background and Pathophysiology</i>	219
<i>Advanced Health Assessment and Making the Diagnosis</i>	220
<i>Evidence-Based Management</i>	220
<b>Chronic Renal Failure</b>	221
<i>Background and Pathophysiology</i>	221
<i>Advanced Health Assessment</i>	221
<i>Making the Diagnosis</i>	222
<i>Evidence-Based Management</i>	222
<b>Urinary Tract Infection</b>	223
<i>Background and Pathophysiology</i>	223
<i>Advanced Health Assessment</i>	223
<i>Making the Diagnosis</i>	224
<i>Evidence-Based Management</i>	224

<b>Sexually Transmitted Infections</b>	225
<b>Nephrolithiasis</b>	227
<i>Background and Pathophysiology</i>	227
<i>Advanced Health Assessment</i>	228
<i>Making the Diagnosis</i>	229
<i>Evidence-Based Management</i>	229
<b>Benign Prostatic Hyperplasia and Prostate Cancer</b>	231
<i>Background and Pathophysiology</i>	231
<i>Advanced Health Assessment</i>	231
<i>Making the Diagnosis</i>	232
<i>Evidence-Based Management</i>	233

---

## CHAPTER 11 **Musculoskeletal Disorders** 237

*Anthony M. Angelow*

<b>Introduction</b>	237
<b>Osteomyelitis</b>	237
<i>Background and Pathophysiology</i>	237
<i>Epidemiology and Risk Factors</i>	238
<i>Advanced Health Assessment</i>	238
<i>Making the Diagnosis</i>	238
<i>Evidence-Based Management</i>	238
<b>Gout Exacerbation and Septic Arthritis</b>	240
<i>Background and Pathophysiology</i>	240
<i>Epidemiology and Risk Factors</i>	240
<i>Advanced Health Assessment</i>	241
<i>Making the Diagnosis</i>	241
<i>Evidence-Based Management</i>	242
<b>Fractures</b>	244
<i>Types of Fracture</i>	244
<i>General Points Regarding Bone Fractures</i>	244

---

## CHAPTER 12 **Endocrine Disorders** 249

*Anthony M. Angelow and Sally K. Miller*

<b>Introduction</b>	249
<b>Diabetes Mellitus</b>	249
<i>Background and Pathophysiology</i>	249
<i>Epidemiology and Risk Factors</i>	250
<i>Advanced Health Assessment</i>	250
<i>Making the Diagnosis</i>	251
<i>Evidence-Based Management</i>	251
<i>Diabetes Crisis States</i>	252
<b>Thyroid Disorders</b>	255
<i>Background and Pathophysiology</i>	255
<i>Advanced Health Assessment</i>	255
<i>Making the Diagnosis</i>	257
<i>Evidence-Based Management</i>	257
<b>Disorders of the Adrenal Gland</b>	259
<i>Background and Pathophysiology</i>	259
Adrenal Cortex Disorders	259
Adrenal Medulla Disorders	260
<i>Advanced Health Assessment</i>	260
Adrenal Cortex Disorders	260
Adrenal Medulla Disorders	260
<i>Making the Diagnosis</i>	261

Adrenal Cortex Disorders	261
Adrenal Medulla Disorders	262
<i>Evidence-Based Management</i>	262
<b>Disorders of Antidiuretic Hormone</b>	264
<i>Background and Pathophysiology</i>	264
<i>Advanced Health Assessment</i>	265
<i>Making the Diagnosis</i>	265
<i>Evidence-Based Management</i>	265
<b>CHAPTER 13 Hematological Disorders</b>	269
<hr/>	
Anthony M. Angelow	
<b>Introduction</b>	269
<b>Anemia</b>	269
<i>Background and Pathophysiology</i>	269
<i>Epidemiology and Risk Factors</i>	270
<i>Advanced Health Assessment</i>	271
<i>Making the Diagnosis</i>	271
<i>Evidence-Based Management</i>	271
<b>Coagulopathies</b>	275
<i>Background and Pathophysiology</i>	275
<i>Advanced Health Assessment</i>	276
<i>Making the Diagnosis</i>	276
<i>Evidence-Based Management</i>	277
<b>CHAPTER 14 Immunological and Oncological Disorders</b>	279
<hr/>	
Anthony M. Angelow	
<b>HIV and AIDS</b>	279
<i>Background and Pathophysiology</i>	279
<i>Epidemiology and Risk Factors</i>	279
<i>Advanced Health Assessment</i>	279
<i>Making the Diagnosis</i>	280
<i>Evidence-Based Management</i>	280
<b>Leukemia</b>	281
<i>Background and Pathophysiology</i>	281
<i>Epidemiology and Risk Factors</i>	282
<i>Advanced Health Assessment</i>	282
<i>Making the Diagnosis</i>	282
<i>Evidence-Based Management</i>	283
<b>Lymphoma</b>	284
<i>Background and Pathophysiology</i>	284
<i>Epidemiology and Risk Factors</i>	284
<i>Advanced Health Assessment</i>	285
<i>Making the Diagnosis</i>	285
<i>Evidence-Based Management</i>	285
<b>CHAPTER 15 Psychosocial, Behavioral, and Cognitive Disorders</b>	289
<hr/>	
Kimberly K. Garcia	
<b>Anxiety Disorders</b>	289
<i>Background and Pathophysiology</i>	289
<i>Epidemiology and Risk Factors</i>	289
<i>Advanced Health Assessment</i>	290
<i>Making the Diagnosis</i>	290
<i>Evidence-Based Management</i>	290

<b>Delirium</b>	291
<i>Background and Pathophysiology</i>	291
<i>Epidemiology and Risk Factors</i>	292
<i>Advanced Health Assessment</i>	293
<i>Making the Diagnosis</i>	293
<i>Evidence-Based Management</i>	293
<b>Dementia and Cognitive Disorders</b>	294
<i>Background and Pathophysiology</i>	294
<i>Epidemiology and Risk Factors</i>	295
<i>Advanced Health Assessment</i>	295
<i>Making the Diagnosis</i>	295
<i>Evidence-Based Management</i>	296
<b>Depressive Disorders</b>	297
<i>Background and Pathophysiology</i>	297
<i>Epidemiology and Risk Factors</i>	297
<i>Advanced Health Assessment</i>	297
<i>Making the Diagnosis</i>	298
<i>Evidence-Based Management</i>	299
<b>Suicide and Safety Assessment</b>	300
<i>Background and Pathophysiology</i>	300
<i>Epidemiology and Risk Factors</i>	300
<i>Advanced Health Assessment</i>	301
<i>Making the Diagnosis</i>	301
<i>Evidence-Based Management</i>	301
<b>Schizophrenia</b>	302
<i>Background and Pathophysiology</i>	302
<i>Epidemiology and Risk Factors</i>	303
<i>Advanced Health Assessment</i>	303
<i>Making the Diagnosis</i>	304
<i>Evidence-Based Management</i>	304
<b>Bipolar Disorder</b>	305
<i>Background and Pathophysiology</i>	305
<i>Epidemiology and Risk Factors</i>	305
<i>Advanced Health Assessment</i>	306
<i>Making the Diagnosis</i>	306
<i>Evidence-Based Management</i>	306
 <b>CHAPTER 16 Complex and Multisystem Disorders</b>	 309
Anthony M. Angelow	
<b>Shock States</b>	309
<i>Background and Pathophysiology</i>	309
<i>Advanced Health Assessment</i>	312
<i>Making the Diagnosis</i>	313
<i>Evidence-Based Management</i>	313
<b>Common Principles of Infectious Disease</b>	316
<i>Introduction and the White Blood Cell Count</i>	316
<i>Fever</i>	316
<b>Electrolyte Disturbances</b>	320
<i>Sodium Disturbances</i>	320
<i>Potassium Disturbances</i>	322
<i>Calcium Disturbances</i>	324
<b>Burns</b>	325
<i>Types of Burns</i>	326
<i>Complications of Burns</i>	326
<i>Treatment of Burns</i>	327

<b>Nutritional Support</b>	329
<i>Basic Nutritional Principles</i>	329
<i>Nutritional Support Decision Making in Acute Care</i>	330
<b>Pain</b>	331
<i>Introduction to Pain Management</i>	331
<i>Type of Pain</i>	333
<i>Goals of Pain Management</i>	334
 <b>CHAPTER 17 The Geriatric Population</b>	 337
<hr/>	
<i>Anthony M. Angelow</i>	
<b>Introduction</b>	337
<b>Key Points to Remember About the Geriatric Population</b>	337
<i>Assessment Findings in Older Adults</i>	338
<i>Common Assessment Tools in Older Adults</i>	340
<i>Wellness Examination and Symptom Evaluation in Older Adults</i>	349
<i>Index</i>	357
