

PROBABILITY AND STOCHASTIC PROCESSES

Work Examples

Odile Pons

 World Scientific

Contents

| | |
|--|----|
| <i>Preface</i> | v |
| 1. Probability measures and spaces | 1 |
| 1.1 Measure theory | 1 |
| 1.2 Integrability | 3 |
| 1.3 Convergences of random variables | 5 |
| 1.4 Independence and conditional expectation | 7 |
| 1.5 L^p spaces | 12 |
| 1.6 Inequalities | 15 |
| 1.7 Hellinger distance, Kullback–Leibler information | 20 |
| 2. Probability distributions | 27 |
| 2.1 Distribution functions and densities | 27 |
| 2.2 Conditional densities | 34 |
| 2.3 Convolutions | 41 |
| 2.4 Inequalities | 45 |
| 3. Generating function and discrete distributions | 49 |
| 3.1 Generating functions | 49 |
| 3.2 Multinomial variables | 52 |
| 3.3 Poisson variables | 56 |
| 4. Laplace transform and characteristic function | 67 |
| 4.1 Laplace transform | 67 |
| 4.2 Characteristic function | 73 |
| 4.3 Asymptotic expansions | 85 |

| | | |
|------|--|-----|
| 5. | Continuous distributions | 91 |
| 5.1 | Exponential variables | 91 |
| 5.2 | Gamma and Beta variables | 98 |
| 5.3 | Gaussian variables | 106 |
| 5.4 | χ^2 variables | 113 |
| 5.5 | Ordered variables | 118 |
| 6. | Empirical processes and weak convergence | 123 |
| 6.1 | Weak convergence | 124 |
| 6.2 | Weak convergence of processes | 129 |
| 6.3 | Inequalities | 139 |
| 6.4 | Contiguity | 141 |
| 7. | Discrete martingales and stopping times | 143 |
| 7.1 | Martingales and supermartingales | 143 |
| 7.2 | Discrete processes | 152 |
| 7.3 | Quadratic variations and predictable compensator | 155 |
| 7.4 | Exponential martingales, sub and supermartingales | 161 |
| 7.5 | Random series | 162 |
| 7.6 | Markov chains | 168 |
| 8. | Time-continuous martingales | 173 |
| 8.1 | Martingales and predictable compensator | 173 |
| 8.2 | Stochastic integral | 180 |
| 8.3 | Exponential submartingales | 185 |
| 8.4 | Inequalities for martingales indexed by \mathbb{R}_+ | 186 |
| 9. | Jump processes | 189 |
| 9.1 | Renewal processes | 189 |
| 9.2 | Poisson process | 193 |
| 9.3 | Markov process | 200 |
| 9.4 | Survival process | 204 |
| 9.5 | Distribution of a right-censored variable | 209 |
| 9.6 | Spatial jump processes | 215 |
| 10. | Continuous processes | 219 |
| 10.1 | Brownian motion | 219 |
| 10.2 | Diffusion processes | 228 |

| | | |
|------|---|-----|
| 10.3 | Brownian bridge | 233 |
| 10.4 | Markov process | 234 |
| 10.5 | Stationary Gaussian processes | 237 |
| 10.6 | Spatial processes | 239 |
| | <i>Bibliography</i> | 245 |
| | <i>Index</i> | 247 |
