

Metacognitive Knowledge

Development, Application, and Improvement

Joke Van Velzen

Contents

Preface	xi
1 Metacognitive Knowledge.....	1
2 The Research Project	21
3 Worthwhileness and Materials.....	53
4 Metacognitive Knowledge.....	87
5 Applying Metacognitive Knowledge: Effective Planning.....	115
6 Developing Metacognitive Knowledge: Self-Induced Self- Reflective Thinking	151
7 Improvement Techniques: Deliberate Practice and Hypothesis Testing	177
8 Synthesis.....	203
9 Instructional Implications in Constructing Metacognitive Knowledge: Can Inquiry-Based Learning Provide for a Solution?	233
Appendices.....	249
A General Method of the Research Project.....	251
B Research Report on the Mathematics Teachers Study	261

C	Research Report on the Mathematics TPT-I Study	269
D	Research Report on the First-Language Teachers Study.....	273
E	Research Report on the First-Language TPT-I Study	279
F	Research Report on the Pilot I and Pilot II Studies Regarding Learning	283
G	Research Report on the First-Language TPT-II Study	289
H	Research Report on the KMPP-II Study	293
I	Research Report on the KLPP-I Study	301
J	Research Report on the GKLP-II Study	305
K	Research Report on the Learning Plan and Learning Improvement Techniques Studies	309
L	Research Report on the Mathematics Effective Planning Study Regarding the Mathematics TPT-I Study	317
M	Research Report on the First-Language Effective Planning Study.....	323
N	The Scoring of SISRT for the U2-Students and the U3-Students	331
	References.....	335
	About the Author.....	367
