

MY WORLD OF

SCIENCE

Secondary 3

Contents

1.	Ecology.....	1
	The Environment	
	Interactions of Organisms with Abiotic Components	
	Interactions among Organisms	
	Movement of Energy and Nutrients	
	Ecosystems	
	Biodiversity	
	The Need for Conservation	
2.	Genetics.....	18
	Heredity and Genes	
	Characteristics and Alleles	
	Genotype and Phenotype	
	Mitosis and Meiosis	
	Mutations and Hereditary Diseases	
	The Importance of a Pre-wedding Check-up	
	Genetic Engineering	
3.	Chemical Substances.....	30
	Chemical Reactions	
	Chemical Equations and Conservation of Mass	
	Endothermic and Exothermic Reactions	
	Acids and Bases	
	Some Important Chemical Reactions	
	Solving Everyday Problems with Chemical Reactions	
	Ceramics, Polymers and Composite Materials	
4.	Electromagnetism.....	47
	Electric Current	
	Potential Difference, Resistance and Current	
	Measuring Instruments	
	Electric Power	
	Conversion of Electricity to Other Forms of Energy	
	Using Appliances Efficiently	
	What is Electronics?	
	Electromagnetic Waves and Electromagnetic Induction	
5.	Light.....	62
	How We See Things	
	Lenses and Optical Instruments	
	The Brightness of Light and Eye Damage	
6.	Astronomy.....	74
	Why Planets Orbit the Sun	
	How Seasons are Caused	
	Phases of the Moon	
	Moonrise, Moonset and Tides	
	Space Technology	
	Glossary.....	86
