# Design for Ergonomics

# Contents

## Part I Ergonomics and Design—Design for Ergonomics

<b>1</b>	<b>Ergonomics and Design</b> . . . . .	3
1.1	Introduction . . . . .	3
1.1.1	The Ergonomics-Design Relationship . . . . .	5
1.2	The Evolution of the Ergonomic Approach . . . . .	7
1.2.1	The Adapting of Work—And Its Activities—To People . . . . .	10
1.3	Ergonomics Today: Intervention Sectors . . . . .	17
1.4	Disciplinary Matrices . . . . .	18
1.5	Ergonomics in the Design Process . . . . .	21
1.6	From Design for End Users to Design for People: The Ergonomic Quality . . . . .	23
1.7	User/Human-Centred Design—People-Centric Design . . . . .	24
	References . . . . .	28
<b>2</b>	<b>Design for Ergonomics</b> . . . . .	31
2.1	Introduction . . . . .	31
2.1.1	The Role of Design . . . . .	32
2.2	The Ergonomics-Design Relationship, from Dialogue from Afar to Progressive Integration . . . . .	36
2.3	Design for Ergonomics . . . . .	37
	References . . . . .	44
<b>3</b>	<b>From User-Centred Design to Human-Centred Design and the User Experience</b> . . . . .	47
3.1	The Evolution of User-Centred Design . . . . .	47
3.2	The User Experience . . . . .	51
	References . . . . .	59

<b>4</b>	<b>Designing for People: Design References</b> . . . . .	61
4.1	Introduction: Global Quality . . . . .	61
4.2	Who Enters into a Relationship with the Product—People. . . . .	63
4.2.1	The Characteristics and Capabilities of People . . . . .	64
4.2.2	The Usage Skill of Individuals . . . . .	67
4.2.3	The Needs of People . . . . .	68
4.3	What Is the Product? . . . . .	71
4.3.1	The Usage Skill Required by the Product . . . . .	76
4.4	Why We Use or Relate to the Product—Activities . . . . .	77
4.5	<i>How, Where and When We Come into Contact</i> with the Product . . . . .	79
	References . . . . .	82
<b>5</b>	<b>The Design of Ergonomic Requirements</b> . . . . .	85
5.1	Introduction . . . . .	85
5.2	Functionality, Security, Accessibility . . . . .	85
5.3	Usability . . . . .	91
5.3.1	The Components of Usability . . . . .	93
5.4	Making the Relationship with Products and Systems Understandable . . . . .	96
5.5	The Perceptual and Emotional Quality of the Product . . . . .	107
	References . . . . .	110
<b>6</b>	<b>Human-Centred Design—User Experience: Tools and Intervention Methods</b> . . . . .	111
6.1	Introduction . . . . .	111
6.2	Human-Centred Design Methods . . . . .	112
6.2.1	Understanding and Specifying the Usage Context; Defining the Design Requirements; Producing the Design Solutions . . . . .	114
6.2.2	Verification and Validation Phases . . . . .	116
6.3	Usability Tests . . . . .	117
6.4	Summary of the Main Methods of Investigation for Human-Centred Design . . . . .	117
6.4.1	Task Analysis—TA . . . . .	118
6.4.2	Link Analysis . . . . .	120
6.4.3	Layout Analysis . . . . .	121
6.4.4	Heuristics . . . . .	122
6.4.5	Checklists . . . . .	123
6.4.6	Questionnaires . . . . .	123
6.4.7	Interviews . . . . .	124
6.4.8	Observation . . . . .	124
6.4.9	Thinking Aloud . . . . .	125
6.4.10	Scenario . . . . .	126
	References . . . . .	128

<b>7</b>	<b>Co-design and Innovation: Tools, Methods and Opportunities for the Generation of Innovation Through User Involvement . . . . .</b>	<b>129</b>
7.1	Introduction . . . . .	129
7.2	Design for Innovation: From Participatory Design to Co-design . . . . .	131
7.3	Co-design Tools for the Conception and Development of a Design . . . . .	137
7.3.1	Cultural Probes . . . . .	138
7.3.2	The Co-design Workshop: From Conception to Prototyping . . . . .	139
	References . . . . .	140
<b>8</b>	<b>Design Thinking and Creativity: Processes and Tools for New Opportunities in People-Centred Innovation . . . . .</b>	<b>143</b>
8.1	Introduction . . . . .	143
8.2	From Human-Centred to People-Centred: The Role of Design in the Evolution of Design Processes . . . . .	144
8.3	The Evolution of Creativity and Design as Key Elements of Innovation . . . . .	145
8.4	Design Thinking: Process or Mindset? . . . . .	147
8.4.1	The “3 I” Model . . . . .	150
8.4.2	The d.School Model . . . . .	152
8.5	The IDEActivity Method: Design Thinking in the Italian Context (or European Context) . . . . .	153
8.5.1	Explore . . . . .	155
8.5.2	Generate . . . . .	155
8.5.3	How Design Thinking Affects Real Projects . . . . .	156
8.6	Conclusion . . . . .	158
	References . . . . .	158
<b>9</b>	<b>Ergonomics and Design for All: Design for Inclusion . . . . .</b>	<b>161</b>
9.1	Introduction . . . . .	161
9.2	Ergonomics, Design for All, Design for Social Inclusion: The Birth of a Common Language . . . . .	163
9.3	The Reference Framework . . . . .	166
9.4	The Knowledge of the <i>Context of Use</i> as the Basis of the Design . . . . .	171
9.5	The Development of a New Market . . . . .	174
9.6	Design for Inclusion . . . . .	176
	References . . . . .	180

15.3	Work Stations for Office Work . . . . .	303
15.3.1	Tables for Office Work . . . . .	304
15.3.2	Chairs for Office Work . . . . .	306
15.4	Work Stations for Manual and/or Precision Activities . . . . .	310
15.5	Shelves and Containers . . . . .	312
15.6	Handles . . . . .	317
15.7	Buttons, Switches, Manual Controls and Touchscreens . . . . .	319
15.8	Manual Tools . . . . .	324
	References . . . . .	327
<b>16</b>	<b>Interface Design: Intervention Criteria and Good Practices . . . . .</b>	<b>329</b>
16.1	Introduction . . . . .	329
16.2	Interface Design: Design Intervention Strategy . . . . .	330
16.3	The Standards on Accessibility of Interactive Systems . . . . .	331
16.3.1	Evaluating Interaction Quality: The Seven ISO 9241 Dialogue Principles . . . . .	333
16.4	Design Tools: Wireframes . . . . .	336
16.5	The Basics of Interface Design . . . . .	338
16.6	Assistive Technologies . . . . .	343
	References . . . . .	347
	<b>Appendix A: Ergonomics and Design—Design for Ergonomics: The Design Process . . . . .</b>	<b>349</b>
	<b>Intervention Cases . . . . .</b>	<b>357</b>
	<b>Suggested Readings . . . . .</b>	<b>369</b>
