Dedication	v
Preface	vii
Commonly Used Abbreviations	ix
1 A Brief History of Veterinary Vaccines	1
2 The Science Behind Vaccine Use	13
3 Nonliving Vaccines	27
4 Living Vaccines	41
5 Recombinant Vected Vaccines	51
6 Nucleic Acid Vaccines and Reverse Vaccinology	61
7 Adjuvants and Adjuvanticity	75
8 The Administration of Vaccines	87
9 Failures in Vaccination	105
10 Adverse Consequences of Vaccination	115
11 Production, Assessment, and Regulation of Vaccines	131
12 Passive Immunization	141
13 Canine Vaccines	153
14 Feline Vaccines	167
15 Equine Vaccines	179
16 Bovine Vaccines	193
17 Sheep and Goat Vaccines	215
18 Porcine Vaccines	225
19 Poultry Vaccines	243
20 Vaccination of Exotic and Wild Species	267
21 Fish Vaccines	281
22 Vaccines Against Parasites	293
23 Anticancer Vaccines	301
Index	309
