Preface xiii

Acknowledgments xv

Dramatis Personae xix

Introduction 1

My Research Questions 2

The Deep Penetration of Experimental Psychology into Daily Life 7

Invidious Practices 9

Road Map 11

1 Doing This Ethnography 14

Stymied 15

Sociality 19

Terms 23

The Kitchen Table of Science 24

2 Sensing the World 26

Early Fieldwork 26

Wundt's Introspective Methods 30

James Cattell and the Lip Key 32

James Cattell and William James 34

Torres Straits Islands—The "Generalized Mind" 35

Bringing Back Context 38

Music 41
Away from the Social 44
Titchener and Introspection 44
J.B. Watson and His Ultimatum 48
World War I and Watson 50

3 Experimenting Scientifically 52
What Are the Ingredients of an Experiment? 57
What It Is Like to Experience an Experiment? 72
Interpretations 80

4 Normalizing Data 84
Selection 86
Amazon Mechanical Turk 89
Normalizing Data 92
Reaction Time 102

5 Delimiting Technologies 109
Understanding the Limits of Tools 110
EEG 112
fMRI 120
Behavioral Technologies 125
Conversation as a Technology 129
Publication as a Technology 134

6 Stabilizing Subjects 138
Stabilizing the Subject in Space 139
Stabilizing the Subject in Time 146
Stabilizing the Subject with Tables 155

7 Gazing Technologically 161
"The Eyes Don't Lie" 162
In the Lab with the Eye Tracker 163

Manipulation or Induction in an Eye Tracking Session 169
Leftovers Redux 171
Wrap-Up 172

8 Practicing Experimental Tasks 174
Discovering Practice 175
Objectivity versus Subjectivity 176
Demand Characteristics 179

9 Envisaging "Productive Thinking" 184
Historical Fork in the Road 186
Gestalt Theory 101 189
Structure and Process 198
The Ether of the Field 201
Why Gestalt Psychology Was Rejected 201
The Vigor of the Experimental Method 203

10 Moving beyond the Lab 206
Ergonomics 210
User Friendly Design 211
The Playbook 212

11 Entering Social and Digital Media 234
Uncovering Subjectivity 236
The Gaps 238
Data and Individuals 239
Commodification 240
Looking Ahead 242
