Contents

<i>List of illustrations</i>	viii
Introduction	1
1 Causes and consequences of economic change	4
1.1 <i>Causes of economic change</i> 5	
1.1.1 <i>Shocks: industrial revolutions (and the pandemic)</i> 5	
1.1.2 <i>Policies</i> 9	
1.1.3 <i>Globalization</i> 14	
1.2 <i>Consequences for the labor market</i> 18	
1.2.1 <i>Temporary employment, labor income share, efficiency, and collective bargaining</i> 18	
1.2.2 <i>Job and wage polarization</i> 22	
1.2.3 <i>Increasing skill and educational mismatches</i> 23	
1.3 <i>Other consequences</i> 24	
1.3.1 <i>Rising inequality and diverging trends in social mobility</i> 25	
1.3.2 <i>The rise of populism and protectionism</i> 31	
2 Traditional (optimistic) theories: growth without regret	38
2.1 <i>The traditional (maximizing) approach</i> 39	
2.2 <i>The theoretical foundations of globalization and deregulation</i> 42	
2.2.1 <i>“Downturns are temporary and neutral”</i> 42	
2.2.2 <i>“Growth is good for the poor”</i> 45	
2.3 <i>The labor market</i> 46	
2.3.1 <i>“If product demand increases enough there is no unemployment effect of technological progress”</i> 46	
2.4 <i>Inequality and populism</i> 50	

- 2.4.1 *Inequality boosts growth* 51
- 2.4.2 *“Counteracting inequality reduces growth”* 52
- 2.4.3 *The POUM hypothesis* 53

3 The true costs of economic change

56

- 3.1 *The main weaknesses of the traditional (maximizing) approach* 57
- 3.2 *Creative destruction revisited* 59
 - 3.2.1 *The social reward of innovation when cannibalization is pervasive: a more formal treatment* 62
- 3.3 *The impact of change on individuals: a sociopsychological perspective (by Albertina Oliverio)* 64
- 3.4 *Labor market: the costs of flexibility* 69
 - 3.4.1 *Pecuniary and nonpecuniary costs of flexibility* 70
 - 3.4.2 *Hedonic adaptation to unemployment status?* 73
 - 3.4.3 *The cultural determinants of loss aversion and hedonic adaptation* 75
 - 3.4.4 *Economic change and the cost of geographical mobility: a neglected issue* 76
- 3.5 *The disproportionate impact of creative destruction on those who have less* 76

4 Some recipes to increase the social return of creative destruction

81

- 4.1 *The labor market: different policies for different countries and social groups* 83
- 4.2 *The basis of our recipes* 87
- 4.3 *Changing incentives: microregulation revisited* 87
 - 4.3.1 *Enhancing people's flexibility: education, training, and labor market policy revisited* 88
 - 4.3.2 *Industrial policy revisited: lessons from the Asian Miracle* 91
 - 4.3.3 *Antitrust and consumer protection policy* 96
- 4.4 *Back to the future: macroregulation policy revisited* 97
 - 4.4.1 *Back to fiscal policy for full employment?* 97
 - 4.4.2 *Chicago plan, helicopter money, e-money: the new role(s) of monetary policy* 100
 - 4.4.3 *Fighting tax havens and fiscal dumping* 106

5	Conclusions: looking for sustainable economic change	110
