|------------------------------|--------------|
| Foreword | <i>xiii</i> |
| Preface | <i>xv</i> |
| Acknowledgements | <i>xvii</i> |
| About the Authors | <i>xviii</i> |
| List of Abbreviations | <i>xix</i> |

| | | |
|----------|--|-----------|
| 1 | Introducing Logistics | <i>1</i> |
| 1.1 | Definition of Logistics | <i>1</i> |
| 1.2 | Logistics Systems | <i>3</i> |
| 1.3 | Supply Chains | <i>5</i> |
| 1.3.1 | Logistics Versus Supply Chain Management | <i>5</i> |
| 1.3.2 | A Taxonomy of Supply Chains | <i>5</i> |
| 1.3.3 | The Bullwhip Effect | <i>6</i> |
| 1.4 | Logistics Service Providers | <i>8</i> |
| 1.5 | Logistics in Service Organizations | <i>9</i> |
| 1.5.1 | Logistics in Solid Waste Management | <i>9</i> |
| 1.5.2 | Humanitarian Logistics | <i>10</i> |
| 1.6 | Case Studies | <i>11</i> |
| 1.6.1 | Apple | <i>11</i> |
| 1.6.2 | Adidas AG | <i>13</i> |
| 1.6.3 | Galbani | <i>14</i> |
| 1.6.4 | Pfizer | <i>15</i> |
| 1.6.5 | Amazon | <i>18</i> |
| 1.6.6 | FedEx | <i>20</i> |
| 1.6.7 | A.P. Moller-Maersk | <i>21</i> |
| 1.6.8 | Canadian Pacific Railway | <i>23</i> |
| 1.7 | Trends in Logistics | <i>24</i> |
| 1.7.1 | Reverse and Sustainable Logistics | <i>24</i> |
| 1.7.2 | E-commerce Logistics | <i>26</i> |
| 1.7.3 | City Logistics | <i>28</i> |
| 1.8 | Logistics Objectives and KPIs | <i>30</i> |
| 1.8.1 | Capital-related KPIs | <i>30</i> |
| 1.8.2 | Cost-related KPIs | <i>31</i> |
| 1.8.3 | Service Level-related KPIs | <i>32</i> |

| | | |
|----------|--|-----------|
| 1.9 | Logistics Management | 36 |
| 1.9.1 | Logistics Planning | 37 |
| 1.9.2 | Logistics Organizational Structures | 37 |
| 1.9.3 | Controlling | 41 |
| 1.10 | Data Analytics in Logistics | 48 |
| 1.10.1 | Descriptive Analytics | 48 |
| 1.10.2 | Predictive Analytics | 49 |
| 1.10.3 | Prescriptive Analytics | 49 |
| 1.11 | Segmentation Analysis | 69 |
| 1.11.1 | Customer Segmentation | 69 |
| 1.11.2 | Product Segmentation | 70 |
| 1.12 | Information Systems | 73 |
| 1.13 | Questions and Problems | 75 |
| 2 | Forecasting Logistics Data | 83 |
| 2.1 | Introduction | 83 |
| 2.2 | Qualitative Methods | 84 |
| 2.3 | Quantitative Methods | 85 |
| 2.3.1 | Explanatory Versus Extrapolation Methods | 87 |
| 2.3.2 | The Forecasting Process | 87 |
| 2.4 | Exploratory Data Analysis | 88 |
| 2.4.1 | The Univariate Case | 88 |
| 2.4.2 | Histograms | 89 |
| 2.4.3 | Boxplots | 90 |
| 2.4.4 | Time Series Plots | 92 |
| 2.4.5 | The Bivariate Case | 92 |
| 2.4.6 | Scatterplots | 93 |
| 2.5 | Data Preprocessing | 93 |
| 2.5.1 | Insertion of Missing Data | 93 |
| 2.5.2 | Detection of Outliers | 95 |
| 2.5.3 | Data Aggregation | 96 |
| 2.5.4 | Removing Calendar Variations | 98 |
| 2.5.5 | Deflating Monetary Time Series | 99 |
| 2.5.6 | Adjusting for Population Variations | 101 |
| 2.5.7 | Data Normalization | 101 |
| 2.6 | Classification of Time Series | 102 |
| 2.7 | Explanatory Methods | 105 |
| 2.7.1 | Forecasting with Regression | 105 |
| 2.7.2 | Multicollinearity | 107 |
| 2.7.3 | Categorical Predictors | 107 |
| 2.7.4 | Coefficient of Determination | 108 |
| 2.7.5 | Polynomial Regression | 109 |
| 2.7.6 | Linear-log, Log-linear and Log-log Regression Models | 111 |
| 2.7.7 | Underfitting and Overfitting | 111 |
| 2.7.8 | Forecasting with Machine Learning | 113 |
| 2.8 | Extrapolation Methods | 118 |
| 2.8.1 | Notation | 118 |

| | | |
|----------|---|------------|
| 2.8.2 | Decomposition Method | 119 |
| 2.8.3 | Further Extrapolation Methods: the Constant-trend Case | 127 |
| 2.8.4 | Further Extrapolation Methods: the Linear-trend Case | 132 |
| 2.8.5 | Further Extrapolation Methods: the Seasonality Case | 137 |
| 2.8.6 | Further Extrapolation Methods: the Irregular Time Series Case | 146 |
| 2.8.7 | Further Extrapolation Methods: the Intermittent Time Series Case | 148 |
| 2.9 | Accuracy Measures | 154 |
| 2.9.1 | Calibration of the Parametrized Forecasting Methods | 155 |
| 2.9.2 | Selection of the Most Accurate Forecasting Method | 157 |
| 2.10 | Forecasting Control | 158 |
| 2.10.1 | Tracking Signal | 158 |
| 2.10.2 | Control Charts | 159 |
| 2.11 | Interval Forecasts | 162 |
| 2.12 | Case Study: Sales Forecasting at Shivoham | 163 |
| 2.13 | Case Study: Sales Forecasting at Orlea | 164 |
| 2.14 | Questions and Problems | 165 |
| 3 | Designing the Logistics Network | 177 |
| 3.1 | Introduction | 177 |
| 3.2 | Classification of Logistics Network Design Problems | 178 |
| 3.3 | The Number of Facilities in a Logistics System | 181 |
| 3.4 | Qualitative Versus Quantitative Location Methods | 183 |
| 3.5 | The Weighted Scoring Method | 183 |
| 3.6 | The Analytical Hierarchy Process | 185 |
| 3.7 | Single-commodity One-echelon Continuous Location Problems | 190 |
| 3.8 | Single-commodity Two-echelon Continuous Location Problems | 197 |
| 3.9 | Single-commodity One-echelon Discrete Location Problems | 200 |
| 3.10 | Single-commodity Two-echelon Discrete Location Problems | 222 |
| 3.11 | The Multi-commodity Case | 226 |
| 3.12 | Location-covering Problems | 230 |
| 3.13 | p -centre Problems | 234 |
| 3.14 | Data Aggregation | 241 |
| 3.15 | Location Models Under Uncertainty | 244 |
| 3.15.1 | A Stochastic Location-allocation Model | 244 |
| 3.15.2 | A Location-routing Model with Uncertain Demand | 247 |
| 3.16 | Case Study: Intermodal Container Depot Location at Hardcastle | 251 |
| 3.17 | Case Study: Location-Allocation Decisions at the Italian National Transplant Centre | 254 |
| 3.18 | Questions and Problems | 256 |
| 4 | Selecting the Suppliers | 267 |
| 4.1 | Introduction | 267 |
| 4.2 | Definition of the Set of Potential Suppliers | 269 |
| 4.3 | Definition of the Selection Criteria | 270 |
| 4.4 | Supplier Selection | 274 |
| 4.5 | Supplier Relationship Management Software | 278 |
| 4.6 | Case Study: the System for the Selection of Suppliers at Baxter | 279 |

| | | |
|----------|---|------------|
| 4.7 | Case Study: the Supplier Selection at Onokar | 282 |
| 4.8 | Questions and Problems | 284 |
| 5 | Managing a Warehouse | 290 |
| 5.1 | Introduction | 290 |
| 5.1.1 | Warehouse Operations | 290 |
| 5.1.2 | Warehouse Functional Zones | 292 |
| 5.1.3 | Advantages of Warehousing | 294 |
| 5.2 | Types of Warehouses | 294 |
| 5.2.1 | Classification with Respect to the Position in the Logistics System | 294 |
| 5.2.2 | Classification with Respect to Ownership | 296 |
| 5.2.3 | Classification with Respect to Climate-control | 297 |
| 5.2.4 | Classification with Respect to the Level of Automation | 297 |
| 5.3 | Warehousing Costs | 298 |
| 5.4 | Unit Loads | 300 |
| 5.4.1 | Freight Classification | 300 |
| 5.4.2 | Unit Loads and Stock Keeping Units | 301 |
| 5.4.3 | Packaging | 301 |
| 5.4.4 | Palletized Unit Loads | 302 |
| 5.4.5 | Containerized Unit Loads | 305 |
| 5.5 | Storage Systems | 307 |
| 5.5.1 | Block Stacking | 307 |
| 5.5.2 | Pallet Racks | 307 |
| 5.5.3 | Shelves | 311 |
| 5.5.4 | Cabinet and Carousel Systems | 313 |
| 5.6 | Internal Transportation Systems | 314 |
| 5.6.1 | Manual Handling and Non-autonomous Vehicles | 315 |
| 5.6.2 | Automated Guided Vehicles | 318 |
| 5.6.3 | Stacker Cranes | 320 |
| 5.6.4 | Conveyors | 321 |
| 5.7 | Product Identification Systems | 322 |
| 5.7.1 | SKU Codes | 322 |
| 5.7.2 | Global Trade Item Numbers | 323 |
| 5.7.3 | Barcodes | 323 |
| 5.7.4 | QR Codes | 325 |
| 5.7.5 | Logistic Labels | 325 |
| 5.7.6 | Radio-frequency Identification | 325 |
| 5.8 | Warehouse Performance Measures | 327 |
| 5.9 | Warehouse Management Systems | 333 |
| 5.10 | Warehouse Design | 335 |
| 5.10.1 | Internal Transportation Technology Selection | 336 |
| 5.10.2 | Layout Design | 337 |
| 5.10.3 | Sizing of the Storage Zone | 341 |
| 5.10.4 | Sizing of the Receiving and Shipping Zones | 348 |
| 5.10.5 | Sizing of an AS/RS | 349 |
| 5.10.6 | Sizing a Vehicle-based Internal Transportation System | 354 |
| 5.11 | Storage Space Allocation | 355 |

| | | |
|----------|--|------------|
| 5.12 | Inventory Management | 360 |
| 5.12.1 | Deterministic models | 361 |
| 5.12.2 | Stochastic Models | 373 |
| 5.12.3 | Selecting an Inventory Policy | 380 |
| 5.12.4 | Multiproduct Inventory Models | 382 |
| 5.13 | Crossdock Door Assignment Problem | 387 |
| 5.14 | Put-away and Order Picking Optimization | 390 |
| 5.14.1 | Parts-to-picker Systems | 390 |
| 5.14.2 | Picker-to-parts and AGV-based Systems | 390 |
| 5.15 | Load Consolidation | 397 |
| 5.15.1 | One-dimensional Bin Packing Problems | 400 |
| 5.15.2 | Two-dimensional Bin Packing Problems | 403 |
| 5.15.3 | Three-dimensional Bin Packing Problems | 406 |
| 5.16 | Case Study: Inventory Management at Wolferine | 415 |
| 5.17 | Case Study: Airplane Loading at FedEx | 416 |
| 5.18 | Questions and problems | 418 |
| 6 | Managing Freight Transportation | 431 |
| 6.1 | Introduction | 431 |
| 6.2 | Transportation Modes | 431 |
| 6.2.1 | Road Transportation | 432 |
| 6.2.2 | Water Transportation | 434 |
| 6.2.3 | Rail Transportation | 437 |
| 6.2.4 | Air Transportation | 438 |
| 6.2.5 | Pipeline Transportation | 439 |
| 6.2.6 | Intermodal Transportation | 439 |
| 6.2.7 | Comparison Among Transportation Modes | 440 |
| 6.3 | Freight Transportation Terminals | 443 |
| 6.3.1 | Port Terminals | 444 |
| 6.3.2 | Air Cargo Terminals | 446 |
| 6.3.3 | Rail Freight Terminals | 448 |
| 6.3.4 | Road Freight Terminals | 449 |
| 6.4 | Classification of Freight Transportation Management Problems | 450 |
| 6.4.1 | Long-haul Freight Transportation Management | 450 |
| 6.4.2 | Freight Transportation Terminal Management | 451 |
| 6.4.3 | Short-haul Freight Transportation Management | 452 |
| 6.5 | Transportation Management Systems | 454 |
| 6.6 | Freight Traffic Assignment Problems | 455 |
| 6.6.1 | Minimum-cost Flow Formulation | 456 |
| 6.6.2 | Linear Single-commodity Minimum-cost Flow Problems | 458 |
| 6.6.3 | Linear Multi-commodity Minimum-cost Flow Problems | 465 |
| 6.7 | Service Network Design Problems | 471 |
| 6.8 | Vehicle Allocation Problems | 478 |
| 6.9 | A Dynamic Driver Assignment Problem | 481 |
| 6.10 | Vehicle Fleet Composition | 483 |
| 6.11 | Shipment Consolidation | 485 |
| 6.12 | Vehicle Routing Problems | 488 |

- 6.12.1 The Travelling Salesman Problem 491
- 6.12.2 The Node Routing Problem with Operational Constraints 506
- 6.12.3 The Node Routing and Scheduling Problem with Time Windows 519
- 6.12.4 Arc Routing Problems 530
- 6.12.5 Route Sequencing 540
- 6.13 Real-time Vehicle Routing Problems 541
- 6.14 Integrated Location and Routing Problems 543
- 6.15 Inventory Routing Problems 545
- 6.16 Case Study: Air Network Design at Intexpress 555
- 6.17 Case Study: Dynamic Vehicle-dispatching Problem with Pickups and Deliveries at eCourier 559
- 6.18 Questions and Problems 561
