Contents

Preface.....	xv
Acknowledgments.....	xvii
Author	xix
Scope of This Book.....	xxi
Chapter 1 Introduction.....	1
History of Medical Devices	1
Stethoscopes	5
Microscopes	7
Surgery	8
Defibrillators	11
Typical Course Outline for an HTM Program.....	13
Characteristics of Human Anatomy and Physiology That Relate to Medical Devices.....	18
Electrical Signals and Conductivity	18
Circulation.....	20
Blood	27
Respiration	28
Chemical Balances.....	29
Densities	30
Tissue Densities.....	31
Temperature.....	31
Hypothermia.....	32
Hyperthermia	33
Summary	34
Questions	34
Chapter 2 Diagnostic Devices: Part One	35
Physiological Monitoring Systems	35
Overview	35
Integration and Connectivity.....	40
Central Stations	41
Telemetry.....	43
The Heart.....	47
Amplifiers.....	51
Interference.....	52
Internally Generated Artifacts	52
Externally Generated Artifacts	53
Filters.....	53
Alarms	54
Lead Arrangements.....	55

Patient Isolation	58
Digital Systems	58
Waveform Analysis and Measurements	59
Waveform/Event Storage	59
Arrhythmia Analysis	60
Types of Arrhythmias	61
Stress Testing	63
Exercise Component	63
Interface	65
Controller	67
ECG Monitor	68
Ambulatory ECG Recorders/Analysis Systems	68
Cardiac Output	70
Summary	71
Questions	71

Chapter 3 Diagnostic Devices: Part Two	73
Circulatory System and Blood	73
Introduction	73
Hypertension	74
Hypotension	75
Blood Pressure Measurement	75
Invasive Blood Pressure Monitors	75
Pressure Transducers	75
Noninvasive Blood Pressure Monitors	76
Pressure Measurement Cycle	78
Further Notes	79
New Developments in NBP Measurements	80
Pulse Oximeters	81
Transcutaneous CO ₂ Analyzers	86
Blood Chemistry Analyzers	86
Glucometers	87
Doppler Blood Flow Detectors	90
Respiratory System	91
Pulmonary Function Analyzers	91
Incentive Spirometer	94
Graphing Spirometer	95
Pulmonary Function Analyzer	95
Respiration Monitors	95
Capnography Monitors	97
Oxygen Analyzers	98
Bronchoscopy Systems	100
Nervous System	102
EEG Monitors and Machines	103
BIS Monitors	106

Muscle/Nerve Stimulators.....	106
Summary.....	107
Questions.....	108
 Chapter 4 Diagnostic Devices: Part Three	109
Digestive System.....	109
Endoscopes.....	109
General.....	109
Types of Endoscopes.....	109
Rigid Endoscopes.....	111
Flexible Endoscopes.....	112
Other System Components.....	113
Light Source.....	113
Camera.....	116
Video Recorder/Storage.....	118
Video Monitor.....	118
Insufflator.....	119
Irrigation and Suction.....	119
Tools.....	120
Sensory Organs.....	121
Oto/Laryngo/Ophthalmoscopes.....	121
Otoscope.....	122
Laryngoscope.....	122
Ophthalmoscope.....	123
Slit Lamps.....	124
Reproduction.....	126
Fetal Heart Detectors.....	126
Fetal Monitors.....	128
Infant Scales.....	132
Apgar Timers.....	134
Skin, Bone, Muscle, and Miscellaneous.....	135
Thermometers.....	135
Electronic Probe Thermometers.....	135
Tympanic Thermometers.....	136
Temporal Artery Thermometers.....	138
Densitometers.....	138
Arthroscopy Systems.....	139
Summary.....	139
Questions.....	140
 Chapter 5 Diagnostic Imaging.....	141
Introduction.....	141
X-Rays.....	141
History.....	141

Physics	141
Definitions of Units	142
Detectors	143
Effects and Dosage Limits	143
X-Ray Safety	144
X-Ray Procedures	144
Dental X-Rays	144
General Purpose X-Ray Rooms	145
Mammography	149
Computerized (Axial) Tomography Scanners.....	149
Magnetic Resonance Imaging Scanners	152
Positron Emission Tomography.....	155
Diagnostic Ultrasound.....	157
Picture Archiving and Communication System.....	157
Summary	160
Questions	160

Chapter 6	Treatment Devices: Part One	161
	Heart.....	161
	Defibrillators	161
	History.....	162
	Theory of Operation.....	162
	Function.....	163
	Energy Source	164
	Voltage Multiplier.....	164
	Charge Storage	164
	Waveforms.....	165
	Discharge Relay.....	165
	Wave Shaping	165
	Paddles and Electrodes.....	165
	Defibrillator Types.....	170
	Internal (Implantable) Defibrillators	170
	External Manual Defibrillators	171
	ECG Measurement and Analysis	172
	Recorders.....	172
	Additional Components.....	172
	Displays	173
	Audio	173
	Ergonomics.....	174
	Testing and Maintenance	174
	Automatic External Defibrillators.....	175
	Pacemakers.....	176
	History.....	176
	Theory of Operation.....	177
	Construction	178

Application	179
External Pacemakers	179
Circulatory System and Blood	180
Artificial Hearts	180
Ventricular Assist Devices	181
Intra-Aortic Balloon Pumps	181
Heart–Lung Machines	181
Sequential Compression Devices	183
Automatic Tourniquets	184
Blood Warmers	184
Intravenous Fluid Administration Pumps	187
Pressure Infusers	187
Fluid Controllers	187
Syringe Pumps	188
Piston Pumps	190
Peristaltic Pumps	190
Patient-Controlled Analgesia Pumps	193
Safety Features of IV Pumps	197
Respiratory System	198
Ventilators	198
CPAP/BiPAP Units	207
Oxygen Concentrators	208
Humidifiers	209
Summary	209
Questions	210

Chapter 7 Treatment Devices: Part Two	211
Nervous System	211
Anesthesia	211
Anesthetic Agents	211
Anesthetic Machines	213
Anesthesia Vaporizers	219
Anesthetic Gas Monitors	221
Electroconvulsive Therapy Machines	222
Digestive System	223
Feeding Pumps	224
Renal System	226
Hemodialysis	226
Water Purification System	228
Access Point	228
Monitoring Components	230
Dialyzer	230
Peritoneal Dialysis	232
Lithotriptors	233
Sensory Organs	237

Phacoemulsifiers.....	237
Ophthalmic Lasers	239
Summary	243
Questions	243
Chapter 8 Treatment Devices: Part Three.....	245
Reproduction	245
Bilirubin Therapy Systems.....	245
Infant Incubators	246
Infant Resuscitators	251
N ₂ O Units	255
Skin, Bone, Muscle, and Miscellaneous	256
Electrosurgery Machines.....	256
Monopolar Electrosurgery	258
Bipolar Electrosurgery	263
Surgical Lasers	264
Carbon Dioxide Lasers.....	264
Neodymium-Doped Yttrium Aluminum Garnet Lasers.....	265
Argon Lasers	266
Excimer Lasers.....	266
Laser Safety.....	266
Surgical Ultrasound.....	266
Cryosurgery Units	267
Microscopes	268
Sterilizers.....	272
Gas Sterilizers	272
Heat Sterilizers	272
Liquid Sterilizers.....	272
Physiotherapy Equipment.....	274
Continuous Passive Motion	274
Pain Relief	274
Direct Heat	274
Induced Heat	276
Interferential Therapy.....	277
Laser Therapy	278
Transcutaneous Electrical Nerve Stimulators.....	278
Promotion of Healing.....	279
Ultraviolet Light Therapy.....	279
Sequential Compression Devices	279
Percussors.....	281
Summary	281
Questions	282

Chapter 9	HTMT Work.....	283
	Overview	283
	Electrical Safety	283
	Rationale.....	284
	Testing Methods	285
	Other Safety Considerations.....	291
	Fire Safety	291
	Chemical Safety	291
	Mechanical Safety	292
	Infection Control	293
	Sharps Safety.....	295
	Performance Assurance	295
	Troubleshooting Techniques.....	300
	Electrostatic Discharge.....	305
	Summary	306
	Questions	306
Chapter 10	Testers and Tools	307
	Introduction	307
	General Test Equipment.....	307
	Digital Multimeters	307
	Oscilloscopes.....	308
	Other Test Equipment.....	312
	Specialized Biomedical Test Equipment.....	312
	ESU Analyzers	314
	Infusion Device Analyzers.....	317
	Physiological Simulators	319
	NIBP Analyzers	321
	Ventilator Analyzers.....	323
	Incubator Analyzers	325
	SpO ₂ Analyzers	327
	Pacemaker Analyzers	330
	Specialized Calibration and Testing Devices.....	331
	Tools	332
	General	332
	Specialized Tools and Components	335
	Power Tools	335
	Soldering	337
	Other.....	339
	Summary	341
	Questions	342

Chapter 11	Radiation and IT	343
	Electromagnetic Radiation	343
	Digital Electronics	344
	Introduction	344
	Digital Signals	344
	Binary Numbers	345
	Analog-to-Digital Conversion	345
	Microprocessors	346
	Computers and Networks	346
	Summary	347
	Questions	347
 Chapter 12	 Health Technology Management	 349
	Introduction	349
	General Considerations	349
	Planning	349
	Technology Management Software	350
	Equipment Management Systems	351
	Test Automation	352
	Ansur by Fluke Biomedical	352
	Summary	352
 Chapter 13	 Regulations and Standards	 353
	Introduction	353
	Standards and Regulations Organizations	354
	International Electrotechnical Commission	354
	IEC 60601	354
	IEC 62353	355
	National Fire Protection Association	355
	International Organization for Standardization	356
	About ISO	356
	What Are Standards?	356
	ISO 9000—Quality Management	356
	ISO 31000—Risk Management	357
	CSA	357
	About CSA Group	357
	Electro-Medical Equipment	358
	Testing and Certification	358
	CSA Standards	358
	UL and ULC	359
	About UL	359
	About Underwriters Laboratories of Canada	359
	Standards Council of Canada	359

About the SCC..... 359

About Standardization..... 360

Food and Drug Administration 360

Products and Medical Procedures..... 360

Medical Device Safety 360

Health Canada..... 360

Medical Devices..... 360

Health Canada’s Role 361

Association for the Advancement of Medical Instrumentation 361

American National Standards Institute..... 361

Institute of Electrical and Electronics Engineers..... 361

IEEE Quick Facts..... 361

Therapeutic Goods Administration..... 362

BSI Group..... 362

Summary 363

Chapter 14 A Gallery of Real-Life Problems 365

Chapter 15 Anatomy Color Insert..... 379

Appendix A: Normal Values 391

Appendix B: Image Credits 397

Index..... 401
