Supply Chain Security

How to Support Safety and Reduce
Risk in Your Supply Chain Process

Andrzej Szymonik and Robert Stanisławski

Routledge
Taylor & Francis Group

A PRODUCTIVITY PRESS BOOK

2025 JUN 06

Contents

Authors.....xi

Introductionxiii

1 Safety Determinants for the Needs of the Delivery Chain1

1.1 Genesis and Essence of Supply Chain Security1

1.2 Threats to Processes Carried Out within the Supply Chain5

1.3 Security of Supply Chains in International Requirements and Standards10

1.3.1 Specification for Security Management Systems for the Supply Chain – ISO 28000:200711

1.3.2 Business Continuity Management System – ISO 22301:2012.....12

1.3.3 Safety and Quality Assessment System – SQAS12

1.3.4 Container Security Initiative – CSI13

1.3.5 International Ship and Port Facility Security Code – ISPS14

1.3.6 Advanced Cargo Information – ACI.....15

1.3.7 Authorized Economic Operator – AEO16

1.3.8 Risk Management – ISO 3100017

1.3.9 Corporate Risk Management – COSO18

1.3.10 Information Security Management Systems – ISO/IEC 2700120

1.3.11 Occupational Health and Safety Management System – ISO 45000:201822

Notes23

2 Contemporary Conditions of Supply Chains25

2.1 Logistics 4.0 in Modern Supply Chains25

2.1.1 The First Area – The Internet of Things26

2.1.2 The Second Area – Big Data28

2.1.3	The Third Area – Cloud Computing	31
2.1.4	The Fourth Area – Smart Factory.....	34
2.1.5	The Fifth Area – 5G Technology	35
2.1.6	The Sixth Area – Automation and Robotization.....	36
2.1.7	The Seventh Area – Blockchain.....	38
2.2	Supply Chain Management Strategies.....	40
2.3	Factors Integrating Activities in the Field of Supply.....	49
2.3.1	Trust	49
2.3.2	Partnership	52
2.3.3	Information	59
Note		65
3	Supply Chain Security Management.....	67
3.1	The Essence of Supply Chain Security Management.....	67
3.2	Crisis Management Phases.....	72
3.3	Progressive Management.....	78
3.4	Conservative Management.....	81
3.4.1	First Conclusion	82
3.4.2	Second Conclusion.....	83
3.4.3	Third Conclusion	83
3.4.4	Fourth Conclusion.....	83
3.4.5	Fifth Conclusion.....	84
3.4.6	Sixth Conclusion	84
3.5	Risk Management	85
3.6	Management Using Reference Models in the Supply Chain.....	97
3.6.1	Customer Relationship Management – CRM.....	98
3.6.2	Customer Service Management – CSM	99
3.6.3	Demand Management – DM	100
3.6.4	Order Fulfillment – OF.....	101
3.6.5	Manufacturing Flow Management – MFM	102
3.6.6	Supplier Relationship Management – SRM	102
3.6.7	Product Development and Commercialization – PDC	103
3.6.8	Returns Management – RM	106
Note		107
4	Safety of Transport, Storage and Food Economy: The Example of Poland and the European Union.....	109
4.1	New Conditions Affecting Transport Safety	109
4.1.1	Firstly	109
4.1.2	Secondly	110

4.1.3	Thirdly.....	110
4.1.4	Fourthly.....	111
4.1.5	Fifthly	112
4.1.6	Sixthly	113
4.1.7	Seventhly.....	114
4.1.8	Eighthly	115
4.1.9	Ninthly.....	115
4.2	Safety Determinants of Transport Processes in Poland	118
4.2.1	General Introduction	118
4.2.2	Road Transport.....	121
4.2.3	Railway Transport.....	128
4.3	Telematics in Transport Safety	131
4.3.1	Monitoring of Automotive Means of Transport	133
4.3.2	Intelligent Road Transport Systems	138
4.3.3	Intelligent Transport Systems in Rail Transport.....	140
4.3.4	Railway Transport Monitoring Systems.....	141
4.4	Warehouse Management Security.....	143
4.5	Ensuring Food Security	151
4.5.1	Food Security in Legal and Organizational Requirements	152
4.5.2	Food Security in Practice.....	155
4.5.2.1	First	156
4.5.2.2	Second	156
4.5.2.3	Third	157
4.5.2.4	Fourth	157
4.5.2.5	Fifth.....	157
4.5.2.6	Sixth.....	157
	Notes	158

5 Technologies Supporting Supply Chain Safety Management 159

5.1	IT Support.....	159
5.1.1	Efficient Consumer Response (ECR)	161
5.1.2	Customer Relationship Management (CRM)	162
5.1.3	Supply Chain Management (SCM).....	163
5.1.4	Warehouse Management System (WMS).....	164
5.1.5	Transport Management System (TMS)	166
5.1.6	Logistics Resources Planning (LRP).....	166
5.1.7	Enterprise Asset Management (EAM)	167
5.1.8	Returnable Packaging Management (RPM).....	168
5.2	Automatic Identification	168

5.2.1	Barcodes.....	170
5.2.2	Electronic Product Code (EPC)	171
5.2.3	Optical Character Recognition	175
5.2.4	Voice Communication.....	176
5.2.5	Biometric Methods.....	176
5.3	Electronic Data Interchange.....	179
5.4	Traceability in Logistics.....	181
5.5	Innovative Technologies for Supply Chain Security.....	184
5.5.1	Artificial Intelligence in Supply Chains.....	186
5.5.2	Machine Vision in Supply Chains	188
6	Reverse Logistics in Supply Chains: Environmental Protection	193
6.1	The Essence of Reverse Logistics in Supply Chains	193
6.2	Circular Economy	197
6.3	Cleaner Production and Minimal Waste.....	201
6.3.1	Waste Minimization	203
6.3.2	Measures and Indicators in Logistics	206
7	Safety of the Information Flow in the Supply Chain.....	207
7.1	The Essence of Information Security	207
7.1.1	First Fact	208
7.1.2	Second Fact	208
7.1.3	Third Fact.....	209
7.1.4	Fourth Fact.....	209
7.1.5	Fifth Fact	209
7.2	Threats.....	209
7.3	Information Security Management System.....	218
7.4	Physical Security.....	221
8	Supply Chain Safety Management Model	225
8.1	System Modeling in Supply Chain Management.....	225
8.1.1	Principles for Describing Operating Systems.....	226
8.1.2	Modeling of Supply Chains	234
8.2	Analysis of Research Results	239
8.2.1	Conclusions	262
8.3	Proposed Model for Supply Chain Security Management	262
	Conclusions	271
	Firstly	271
	Secondly.....	271

Thirdly272

Fourthly272

Fifthly273

Sixthly273
