PART I INTRODUCTION

| Ι | Motivation | | 3 |
|---|---|---------------|----|
| | 1.1 Data Processing and the Research C | Cycle | 4 |
| | 1.2 What We Do (and Don't Do) in this | s Book | 5 |
| | 1.3 Why Focus on Data Processing? | | 7 |
| | 1.4 Data in Files vs. Data in Databases | | 9 |
| | 1.5 Target Audience, Requirements and | Software | II |
| | 1.6 Plan of the Book | | Ι2 |
| 2 | Gearing Up | | 14 |
| | 2.1 R and RStudio | | 14 |
| | 2.2 Setting Up the Project Environment | for Your Work | 16 |
| | 2.3 The PostgreSQL Database System | | 20 |
| | 2.4 Summary and Outlook | | 22 |
| 3 | Data = Content + Structure | | 23 |
| | 3.1 What Is Data? | | 23 |
| | 3.2 Data Content and Structure | | 24 |
| | 3.3 Tables, Tables, Tables | | 26 |
| | 3.4 The Structure of Tables Matters | | 30 |
| | 3.5 Summary and Outlook | | 35 |
| | | | |
| | PART II DATA IN FIL | ES | |

| Storing Data in Files | 39 |
|-----------------------------------|----|
| 4.1 Text and Binary Files | 40 |
| 4.2 File Formats for Tabular Data | 43 |

| Contents |
|----------|
| |

| | 4.3 | Transparent and Efficient Use of Files | 54 |
|---|--------------|--|------------|
| | 4.4 | Summary and Outlook | 57 |
| 5 | Mai | naging Data in Spreadsheets | 59 |
| | 5.1 | Application: Spatial Inequality | 60 |
| | 5.2 | Spreadsheet Tables and (the Lack of) Structure | 63 |
| | 5.3 | Retrieving Data from a Table | 64 |
| | 5.4 | Changing Table Structure and Content | 66 |
| | | Aggregating Data from a Table | 67 |
| | | Exporting Spreadsheet Data | 70 |
| | | Results: Spatial Inequality | 70 |
| | 5.8 | Summary and Outlook | 71 |
| 6 | | c Data Management in R | 74 |
| | | Application: Inequality and Economic Performance in the US | 75 |
| | | Loading the Data | 76 |
| | | Merging Tables | 79 |
| | | Aggregating Data from a Table | 82 |
| | - | Results: Inequality and Economic Performance in the US | 84 |
| | 6.6 | Summary and Outlook | 85 |
| 7 | R ai | nd the tidyverse | 87 |
| | 7.I | Application: Global Patterns of Inequality across Regime | |
| | | Types | 88 |
| | 7.2 | A New Operator: The Pipe | 89 |
| | 7-3 | Loading the Data | 90 |
| | | Merging the WID and Polity IV Datasets | 92 |
| | | Grouping and Aggregation | 93 |
| | | Results: Global Patterns of Inequality across Regime Types | 96 |
| | | Other Useful Functions in the tidyverse | 97 |
| | 7.8 | Summary and Outlook | 99 |
| | | PART III DATA IN DATABASES | |
| 0 | Later | dustion to Politional Database | |
| 8 | 1ntro 8.1 | oduction to Relational Databases Database Servers and Clients | 103 |
| | | SQL Basics | 105 |
| | | Application: Electoral Disproportionality by Country | 108 |
| | | Creating a Table with National Elections | 109 110 |
| | | Computing Electoral Disproportionality | 115 |
| | - | Results: Electoral Disproportionality by Country | 117 |
| | | Summary and Outlook | 11/ |
| 0 | | ational Databases and Multiple Tables | 121 |
| 9 | | Application: The Rise of Populism in Europe | 121 |
| | - | Adding the Tables | 122 |
| | 9.3 | Joining the Tables | 125 |
| | / / | 5 0 |) |

viii

| | 9.4 | Merging Data from the PopuList | 127 |
|----|------|---|-------|
| | 9.5 | Maintaining Referential Integrity | 129 |
| | 9.6 | Results: The Rise of Populism in Europe | 131 |
| | 9.7 | Summary and Outlook | I 3 2 |
| 10 | Data | abase Fine-Tuning | 135 |
| | 10.1 | Speeding Up Data Access with Indexes | 136 |
| | 10.2 | Collaborative Data Management with Multiple Users | 140 |
| | 10.3 | Summary and Outlook | I43 |
| | | | |

PART IV SPECIAL TYPES OF DATA

| 11 | Spatial Data | 147 |
|----|---|-----|
| | 11.1 What Is Spatial Data? | 147 |
| | 11.2 Application: Patterns of Violence in the Bosnian Civil War | 150 |
| | 11.3 Reading and Visualizing Spatial Data in R | 151 |
| | 11.4 Spatial Data in a Relational Database | 158 |
| | 11.5 Results: Patterns of Violence in the Bosnian Civil War | 163 |
| | 11.6 Summary and Outlook | 164 |
| 12 | Text Data | 166 |
| | 12.1 What Is Textual Data? | 167 |
| | 12.2 Application: References to (In)equality in UN Speeches | 169 |
| | 12.3 Working with Strings in (Base) R | 170 |
| | 12.4 Natural Language Processing with quanteda | 175 |
| | 12.5 Using PostgreSQL to Manage Documents | 179 |
| | 12.6 Results: References to (In)equality in UN Speeches | 183 |
| | 12.7 Summary and Outlook | 184 |
| 13 | Network Data | 187 |
| | 13.1 What Is Network Data? | 187 |
| | 13.2 Application: Trade and Democracy | 190 |
| | 13.3 Exploring Network Data in R with igraph | 191 |
| | 13.4 Network Data in a Relational Database | 197 |
| | 13.5 Results: Trade and Democracy | 204 |
| | 13.6 Summary and Outlook | 205 |
| | | |

PART V CONCLUSION

| 14 | Best Practices in Data Management | 209 |
|-----|---|-----|
| | 14.1 Two General Recommendations | 209 |
| | 14.2 Collaborative Data Management | 212 |
| | 14.3 Disseminating Research Data and Code | 214 |
| | 14.4 Summary and Outlook | 216 |
| | | |
