Contents

Preface.....	xvii
Acknowledgements.....	xix
About the Author.....	xxi
International Treaties and International Documents.....	xxiii

SECTION I

Chapter 1 Introduction to International Law.....	3
1.1 International Law.....	3
1.2 The Resources of the Deep Seabed.....	5
1.3 Petroleum Deposits on the Continental Shelf.....	6
1.4 Energy Activities Under International Law.....	8
1.4.1 The Impact of Privatisation.....	9
1.5 The Influence of Science on Environmental Regulation in the Energy Sector.....	9
1.5.1 Definition of Pollution.....	10
1.5.2 Setting Environmental Standards.....	10
1.5.3 Scientific Assessment.....	11
1.5.4 The Technical Options.....	11
1.5.5 Best Available Techniques Not Entailing Excessive Cost (BATNEEC).....	12
1.5.6 Best Practicable Environmental Option (BPEO).....	13
1.5.7 Best Available Techniques (BAT) and Life Cycle Assessment.....	13
1.6 International Policy and Regulatory Bodies.....	14
1.7 Energy Activities Within the United Nations.....	14
1.7.1 The International Atomic Energy Agency (IAEA) ...	15
1.7.2 The Organisation for Economic Cooperation and Development (OECD).....	15
1.7.3 The International Energy Authority (IEA).....	16
1.7.4 The International Renewable Energy Agency (IRENA).....	16
1.8 The International Scope of Standard Setting.....	17
1.9 ISO, European Eco-Management and Audit Scheme (EMAS), and Sector Standards.....	17
1.9.1 The European Eco-Management and Audit Scheme (EMAS).....	19
1.10 Corporate Social Responsibility and Multinationals.....	20
1.11 Environmental Regulation of International Corporations.....	21
1.11.1 National and Regional Regulations.....	21

1.12	Carbon Capture and Storage (CCS)	22
1.12.1	Measuring Stability	24
1.13	Developments on the International CCS Scene	25
1.13.1	The 2009 London Protocol Amendment	25
1.13.2	The OSPAR Convention	25
1.14	How Do You Develop a CCS Regulatory Framework?	26
1.15	Policy Incentives Essential to Deploy CCS	27
	Notes	27
Chapter 2	Regulation, Energy Resources, and the Environment	31
2.1	Regulatory Design and Economics	32
2.2	Regulatory Development	32
2.3	Market Mechanisms	34
2.3.1	Types of Economic Instruments	34
2.4	The Economic Argument	36
2.5	An Overview of Two Market Mechanisms That Have Particular Relevance to the Energy Sector	37
2.5.1	Taxes/Charges	37
2.5.2	National Taxes	38
2.5.3	International Carbon Taxes	38
2.6	Emission Inventories	38
	Notes	40
Chapter 3	International Law and State Sovereignty	43
3.1	Energy, International, and Environmental Laws	43
3.2	State Sovereignty Over Its Natural Resources	43
3.3	State Rights Over Mineral Resources and Common Space ...	44
3.4	The 1958 Convention on the Continental Shelf	45
3.5	The UN Convention on the Law of the Sea, 1982	49
3.6	Protection of the Marine Environment	49
3.6.1	Article 208	50
3.7	Oil Pollution	51
3.7.1	State Jurisdiction Over Coastal State Adjacent Seas	53
3.8	Standard Setting Within International Treaties and Their Protocols	53
3.9	The Depletion of the Ozone Layer	54
3.10	The 1987 Montreal Protocol on Substances That Deplete the Ozone Layer	54
3.11	Climate Change	55
3.11.1	Framework Convention on Climate Change, 1992 ...	56
3.11.2	The Kyoto Protocol 1997	56
3.11.2.1	Use of the Flexible Mechanisms Under the Kyoto Protocol	57

3.11.3	The Paris Agreement 2015	58
3.11.4	The Glasgow Climate Pact	59
Notes	60
Chapter 4	Trade, Competition, and the Environment	63
4.1	International Competition Law and the General Agreement on Tariffs and Trade	63
4.2	Intellectual Property Rights and Environmental Technology..	64
4.2.1	Transfer of Environmental Technology and Corporate Social Responsibility	64
4.2.2	Theory, Intellectual Property Rights, and Technology Transfer	64
4.3	The Management of Risk in Energy Infrastructure	68
4.3.1	Bilateral and Multilateral Investment Agreements...	68
4.3.2	Bilateral Investment Treaties.....	69
4.4	The Energy Charter Treaty	69
4.4.1	Investment Protection Under the Energy Charter Treaty	70
4.4.2	Transit Under the Energy Charter Treaty	71
4.4.3	Dispute Resolution	72
4.5	Case Studies.....	72
4.6	Model Agreements.....	73
4.6.1	Structuring Investment Protection.....	73
4.6.2	Agreement Reached at COP26.....	73
Notes	74
Chapter 5	Climate Change and the Energy Sector.....	77
5.1	Climate Change and COP26.....	77
5.1.1	Why Are NDCs Important and How Are They Enforced?	77
5.2	COP26 Outcomes	78
5.2.1	The Glasgow Climate Pact.....	79
5.2.2	The Paris Rulebook Finalised	79
5.2.2.1	Article 6 Carbon Markets	79
5.2.2.2	Article 13 Transparency	80
5.3	COP26 and the Energy Sector	81
5.3.1	What Net Zero Means for the Energy Transition	81
5.4	Is There a Role for Coal?.....	82
5.4.1	Carbon Capture	82
5.4.2	The Global Coal to Clean Power Transition Statement.....	83
5.5	The New Emission Pledges and Technology Innovation	83
5.5.1	Innovation and Intellectual Property	84
5.5.2	Innovation and Investment	84

5.5.3	The Glasgow Financial Alliance (GFANZ)	84
5.5.3.1	Governments and Climate Finance	85
5.6	Legal Risk and Climate Change	86
5.6.1	Policy Pressure	87
5.7	The Rise of Litigation Risk	87
5.8	Shareholder Involvement	88
5.9	Legal Issues in Climate Change Litigation.....	88
5.9.1	Justiciability	89
5.9.2	Sources of Climate Obligations	90
5.10	Attribution Science.....	91
5.11	Climate Change and Human Rights	91
5.11.1	Climate Change as a Human Rights Issue	91
	Notes.....	92

SECTION II

Chapter 6	International Law on Oil and Gas	97
6.1	Licensing for Onshore Oil and Gas Exploration and Exploitation.....	97
6.2	The Licence Regime	98
6.3	The Concession Regime	99
6.4	Case Study of the Concession Regime in Brazil	100
6.5	Production-Sharing Agreements.....	100
6.6	Case Study of Production Sharing in Russia.....	103
6.7	Service Contracts.....	103
6.8	Case Study of a Service Contract in Iran.....	104
6.9	The Regulation of Offshore Installations Under International Law.....	104
6.10	Ships and Oil Rigs in International Law	105
6.11	Oil Rigs Under the Law of the Sea Convention, 1982	105
6.12	Jurisdiction of States in Relation to Offshore Installations ...	106
6.12.1	A State's Right to Construct Offshore Installations	106
6.12.1.1	Internal Waters.....	106
6.12.1.2	In the Territorial Sea.....	107
6.12.1.3	The Exclusive Economic Zone.....	108
6.12.1.4	The Continental Shelf.....	109
6.12.1.5	On the High Seas.....	110
6.12.1.6	The International Deep Seabed Area.....	111
6.13	State Control and Jurisdiction Over Oil Rigs	112
6.14	Criminal Jurisdiction	112
6.15	Civil Jurisdiction.....	115
6.16	Pollution Control and Environmental Issues	115
6.17	Definition of Marine Pollution	115

6.18 Civil Liability for Environmental Harm Caused by Oil
Pollution 118

6.19 Three Cases Brought Under the CLC..... 119

6.19.1 The *Amoco Cadiz* Case 119

6.19.2 The *Sea Empress* Case 120

6.19.3 The *Braer* Case 120

6.20 Decommissioning 121

6.20.1 The IMO Guidelines 122

6.20.2 The OSPAR Decision 98/3..... 123

6.20.3 The 1972 London Dumping Convention..... 123

6.21 Update..... 125

6.21.1 Gaps in the Regulatory Framework for the
Environmental Safety of Offshore Drilling
Activities 125

Notes..... 126

Chapter 7 International Regulation of the Nuclear Industry 129

7.1 Nuclear Energy and the Environment..... 129

7.2 The Emergence of Environmental Concerns 130

7.3 The International Regulation of Nuclear Energy..... 130

7.4 The IAEA and the Regulation of Nuclear Power 131

7.5 OECD Nuclear Energy Agency 132

7.6 Control of Nuclear Risk..... 133

7.6.1 International Obligations..... 133

7.7 Radiation Protection Standards 134

7.8 State Responsibility for Nuclear Damage and
Environmental Harm 134

7.9 The Transportation of Radioactive Materials 135

7.10 The IAEA Regulations 135

7.11 The Civil Liability Conventions 135

7.11.1 The Paris Convention on Third-Party Liability in
the Field of Nuclear Energy, 1960 135

7.11.2 The Vienna IAEA Convention on Civil Liability
for Nuclear Damage, 1963 136

7.11.3 The Brussels Convention Relating to Civil
Liability in the Field of Maritime Carriage of
Nuclear Material, 1971..... 136

7.11.4 The General Scheme 136

7.11.5 Claims Under the Convention 137

7.12 Assessment of the Nuclear Conventions 138

7.13 Developments Since Chernobyl 138

7.14 Nuclear Waste 140

7.15 EURATOM and the European Dimension 140

7.16 Nuclear Installations in the United Kingdom 142

7.16.1 Radioactive Waste 143

7.16.2 Transport of Radioactive Substances 144

7.17	Decommissioning of Nuclear Installations in the European Union.....	144
7.18	Decommissioning in the United Kingdom.....	145
7.19	COP26 a Pivotal Point for Nuclear Energy.....	146
	Notes.....	146
Chapter 8	International Regulation of Renewable Energy Sources.....	151
8.1	Introduction.....	151
8.2	Development Goals.....	151
8.3	Challenges for International Renewable Energy Law.....	152
8.4	IRENA and Its Power to Influence.....	153
8.5	IRENA and IEA in the Institutional Landscape of Renewable Energy.....	154
8.5.1	IRENA and IEA—Competition or Collaboration?.....	155
8.5.2	Membership.....	155
8.5.3	IRENA and IEA: A Case of Overlapping Scope.....	156
8.5.4	Managing the Overlap.....	156
8.5.5	IRENA, IEA, and the SE4All Initiative.....	157
8.6	Financing Renewable Energy.....	158
8.6.1	Sources of Capital.....	158
8.6.2	The IRENA Report.....	159
8.6.2.1	Public Investment.....	159
8.6.2.2	Institutional Capital for Renewables.....	159
8.6.2.3	Green Bonds.....	159
8.7	Legal Aspects of Technology Transfer.....	160
8.7.1	The Role of Intellectual Property Law and Policy..	160
8.8	Renewable Energy and Human Rights.....	162
8.8.1	Clean Energy Supply Chain.....	162
	Notes.....	163

SECTION III

Chapter 9	Energy Law in the United States.....	169
9.1	Federal Regulatory Bodies.....	169
9.2	Energy Regulation by the States.....	171
9.2.1	Interrelationship Between Federal and State Policy and Regulations.....	172
9.3	Constitutional Principles and Regulatory Jurisdiction.....	172
9.4	Regulation for the Different Energy Sectors.....	173
9.5	State Regulation of Oil and Gas.....	174
9.5.1	Federal Regulation.....	175
9.5.2	Federal Public Land.....	175
9.6	Offshore Oil and Gas.....	176

9.7	Environmental Concerns	177
9.7.1	Areas for Concern	177
9.8	Case Studies.....	178
9.9	Case Study of the BP Oil Spill	179
9.10	Coal.....	180
9.10.1	A Regulatory Overview.....	181
9.10.2	Health and Safety in Mines	181
9.10.3	Land Reclamation	182
9.10.4	Issues of Clean Air	184
9.10.5	Clean Coal Initiatives	184
9.11	Regulation of the Electricity Sector.....	184
9.11.1	The Current Situation	185
9.12	Nuclear Power in the United States	186
9.12.1	Case Study of Three Mile Island Disaster.....	186
9.12.2	Reforms	187
9.13	Hydropower and Renewable Sources.....	189
9.14	Update.....	190
9.14.1	Developments in Legislation and Regulation	190
9.14.2	Judicial Decisions Court Judgements and Public Enquiries	190
	Notes.....	191
Chapter 10	Energy Law in the European Union.....	195
10.1	An Energy Policy for Europe	195
10.2	The Historical Development of European Energy Law.....	195
10.3	Scope of the ECSC Treaty	196
10.4	Inconsistencies Between the Treaties	196
10.5	The Objectives of the ECSC Treaty	197
10.6	The European Atomic Energy Community Treaty.....	197
10.7	The European Energy Policy.....	198
10.7.1	European Energy Policy and the Internal Energy Market	198
10.8	Investment Planning	199
10.9	Non-Discrimination and the Licensing of Hydrocarbons	200
10.10	The Liberalising of the Electricity and Gas Markets.....	201
10.11	The European Energy Charter Treaty.....	201
10.12	An Energy Union.....	202
10.13	Environmental Aspects	202
10.14	The Constitutional Basis of European Environmental Legislation	202
10.15	Types of European Environmental Legislation	203
10.16	Directives With Particular Relevance to the Energy Sector ..	204
10.16.1	The Environmental Assessment Directive.....	204
10.16.2	The Environmental Impact Assessment Directive and Direct Effect	205

10.16.3	Procedures for an Environmental Impact Assessment.....	207
10.16.4	Strategic Developments.....	208
10.16.5	The Integrated Pollution Prevention and Control Directive (IPPC).....	208
10.17	The Protection of Habitats and Species.....	209
10.17.1	The Habitats Directive	209
10.17.2	European Marine Sites	210
10.18	European Legislation Covering Industrial Activity in the Energy Sector	210
10.18.1	Hydrocarbon-Based Motor Fuels.....	210
10.18.2	The Storage and Distribution of Petrol	211
10.18.3	Emissions From Large Combustion Plants	212
10.19	Community Action: Energy Tax and Industry.....	212
10.20	Enforcing European Environmental Law	214
10.21	The Interrelationship Between the Third Energy Package and the Climate Change Package	214
10.21.1	The Policy Context.....	215
10.22	The Third Energy Package	215
10.23	The EU Climate Change and Renewable Energy Package....	216
10.23.1	The New EU ETS.....	217
10.23.2	The Greenhouse Gas Reduction Decision.....	218
10.23.3	The Renewable Energy Directive.....	218
10.23.4	The Carbon Capture and Storage Directive (CCS).	220
10.23.5	The Biofuels Directive	222
10.23.6	The Emissions Standards Regulation.....	222
10.24	Looking Forward Under the European Climate Change Regime.....	223
	Notes.....	223

Chapter 11 Energy Law in the United Kingdom

11.1	Energy Policy	227
11.1.1	Carbon Capture and Storage (CCS).....	227
11.1.2	Introducing Mandatory Social Price Support.....	227
11.1.3	Fairness of Energy Markets.....	227
11.2	The Primary Energy Supply	228
11.3	Infrastructure	228
11.4	Energy Users.....	229
11.5	The Interrelationship Between Environmental and Energy Policies	229
11.5.1	Carbon Dioxide Emissions.....	229
11.5.2	Other Greenhouse Gas Emissions	230
11.5.3	Sulphur Emissions.....	230
11.5.4	Renewables.....	230
11.5.5	Combined Heat and Power.....	231
11.5.6	Localised Impacts.....	231

- 11.6 UK Regulatory Bodies..... 232
 - 11.6.1 Department for Environment, Food, and Rural Affairs (DEFRA)..... 232
 - 11.6.2 Department for Business 232
 - 11.6.3 The Department for Business Innovation and Skills..... 233
 - 11.6.4 The Department of Energy and Climate Change 233
 - 11.6.5 Parliamentary Select Committees 233
 - 11.6.6 The Environment Agency..... 234
 - 11.6.6.1 Background 234
 - 11.6.6.2 Environmental Surveillance by the Agency..... 235
 - 11.6.7 Local Authorities..... 235
 - 11.6.7.1 Town and Country Planning 236
 - 11.6.7.2 Air Pollution 236
 - 11.6.7.3 Contaminated Land 236
 - 11.6.7.4 Noise Control 236
 - 11.6.8 The United Kingdom Atomic Energy Authority (UKAEA)..... 236
 - 11.6.9 The Office of the Gas and Electricity Markets (OFGEM)..... 237
- 11.7 Regulations for the Different Energy Sectors..... 237
 - 11.7.1 Oil and Gas..... 237
 - 11.7.1.1 General Regulatory Framework 237
 - 11.7.1.2 Ownership of Petroleum..... 239
 - 11.7.1.3 The Legal Basis of Licensing 240
 - 11.7.1.4 Application of Criminal Law to the UK Continental Shelf 240
 - 11.7.1.5 Application of the Civil Law to the UK Continental Shelf 241
 - 11.7.2 The EC Hydrocarbons Directive 241
 - 11.7.3 Government Policy on Minerals 243
 - 11.7.4 Pollution Control..... 244
 - 11.7.4.1 The IPPC Directive and Offshore Installations 244
 - 11.7.4.2 The Environmental Assessment Directive 244
 - 11.7.4.3 Decommissioning 245
- 11.8 Decommissioning and Disposal 247
 - 11.8.1 The OSPAR Commission 247
 - 11.8.2 Disposal on Land..... 248
 - 11.8.3 Post-Decommissioning Surveys and Monitoring.... 249
 - 11.8.4 Residual Liability 249
- 11.9 Onshore Oil and Gas 249
 - 11.9.1 The Licensing System 250
 - 11.9.1.1 Coal-Bed Methane Gas (CBM)..... 250
 - 11.9.2 Planning Controls..... 251
 - 11.9.2.1 The Planning System..... 251

11.9.2.2	Planning Conditions	252
11.9.2.3	Planning Agreements and Obligations ...	253
11.9.2.4	Appeals	254
11.9.2.5	The Scope of Public Involvement	254
11.9.2.6	Access to Environmental Information ...	255
11.9.2.7	The European Directive.....	256
11.9.2.8	The Environmental Information Regulations, 1992.....	257
11.9.2.9	Environmental Protest	258
11.9.3	Vulnerable Sites	259
11.9.3.1	Protection for Designated Sites	260
11.9.3.2	The Coastal Zone.....	261
11.9.3.3	Landward-Marine Areas.....	261
11.10	Environmental Management Systems	262
11.11	The Gas Supply Industry	263
11.11.1	Regulation of the Gas Supply Industry	263
11.11.1.1	Duties	263
11.11.1.2	The Duty to Secure Competition.....	264
11.11.2	The Licensing Regime for the Gas Supply Industry	265
11.11.2.1	Types of Licence	265
11.11.2.2	The Network Code	266
11.11.3	The Competitive Market for Gas.....	267
11.11.3.1	Competition Policy.....	267
11.12	Electricity Supply Industry.....	268
11.12.1	The Structure of the Industry	268
11.12.1.1	The Participants.....	268
11.12.2	The Market Structure	269
11.12.2.1	England and Wales	269
11.12.2.2	Scotland.....	270
11.12.2.3	Northern Ireland	271
11.12.2.4	The Interconnectors.....	271
11.12.2.5	Generation	271
11.12.2.6	Transmission.....	271
11.12.2.7	Distribution.....	272
11.12.3	Regulation of the Industry	272
11.12.3.1	The Statutory Structure	272
11.12.4	Regulatory Bodies for the Electricity Supply Industry	274
11.12.4.1	The Secretary of State	274
11.12.4.2	The Secretary of State and the Director .	274
11.12.4.3	General Duties of the Secretary of State and the Director	274
11.12.5	The Licensing Regime	276
11.12.5.1	The Grant of Licences.....	277
11.12.5.2	The Licence	277

11.12.5.3	The Generation Licence	277
11.12.5.4	The Transmission Licence.....	278
11.12.5.5	Public Electricity Supply Licences	278
11.12.5.6	Second-Tier Supply Licences.....	279
11.12.5.7	Exemptions From Licensing	279
11.12.5.8	Modification and Enforcement.....	280
11.12.5.9	Revocation of a Licence	281
11.12.6	The Powers and Duties of PESs.....	281
11.12.7	Possible Distortions of the Market.....	284
11.12.7.1	The Sale of Electricity to Consumers..	284
11.12.7.2	The Protection of Consumers.....	284
11.12.8	Implementing the European Union's Third Energy Package	285
11.12.9	Consumer Protection.....	285
11.12.10	OFGEM's Role as the NRA for Great Britain	286
11.12.11	Transmission and Distribution Networks.....	286
11.12.12	Gas Infrastructure.....	286
11.12.13	Licence-Exempt Undertakings and Access to Private Networks	287
11.12.13.1	UK Energy Policy for the Future	287
11.12.13.2	Update	287
Notes.....		287

Chapter 12 Energy Law in India 293

12.1	Legislative Framework	293
12.2	Regulation of Electricity.....	294
12.3	The Policy Framework	295
12.4	Market Organisation	295
12.4.1	Generation.....	296
12.4.2	Transmission	296
12.4.3	Distribution	296
12.4.4	Sale of Electricity.....	297
12.5	Renewable Energy Policy.....	297
12.6	The National Action Plan on Climate Change (NAPCC).....	297
12.7	Wind Energy	299
12.8	Solar Energy	299
12.9	Hydropower, Geothermal, and Wave Energies.....	300
12.10	Waste to Energy.....	301
12.11	Biofuels.....	301
12.12	Carbon Capture and Storage.....	302
12.13	Policy and the Climate Change Agenda.....	302
12.14	Nuclear Energy	302
12.15	Update.....	302
Notes.....		303

Chapter 13	Energy Law in Australia	305
13.1	Introduction	305
13.1.1	Energy Resources	305
13.1.2	Energy Production	305
13.1.3	Energy Policy	306
13.2	Industry Structure of the Electricity Market	306
13.2.1	The Regulators	307
13.2.2	Commonwealth and State Relations	308
13.2.2.1	The Tasmanian Dam Case	308
13.3	Energy Sectors	310
13.3.1	Uranium Mining	310
13.3.1.1	New South Wales	311
13.3.1.2	Northern Territory	311
13.3.1.3	South Australia	311
13.3.1.4	Victoria	311
13.3.1.5	Western Australia	312
13.4	Carbon Capture and Storage	312
13.5	Future Developments	313
13.5.1	Long-Term Liability Issues	313
13.6	Managing the Transition to Renewable Energy	313
	Notes	314
Chapter 14	Energy Law in China	317
14.1	Evolution of Chinese Government Policy in Respect of the Energy Sector	317
14.2	Framework of Energy Law in China	317
14.3	Renewable Energy	318
14.3.1	Recent Developments in the Renewables Sector	320
	Notes	320
