Contents

<i>Preface</i>	vii
1. Lab Safety Rules	1
2. Specimen Collection and Processing	17
3. Quality Management in the Laboratory	25
4. Urine Analysis	31
5. Carbohydrates	61
6. Blood Glucose	75
7. Proteins	91
8. Lipid Analysis	113
9. Lipid Profile	121
10. Liver Function Test	131
11. Renal Function Tests	149
12. Pancreatic Function Test	163
13. Acids and Bases	169
14. Colorimetry	175
15. Chromatography	181
16. Electrophoresis	197
17. Enzyme-Linked Immunosorbent Assay	205
18. Radioimmunoassay	215

19. Polymerase Chain Reaction	219
20. Biosensors/Glucometer	225
21. Glycated Hemoglobin	235
22. Enzymes	239
23. DNA Isolation from Blood and Tissue	247
24. Mass Spectrometry	251
25. Flow Cytometry	259
26. Centrifugation	269
27. Automation	275
28. Cerebrospinal Fluid Examination	283
29. Oxalic Acid	287
<i>Index</i>	291
