Contents

Part One: Nutrition: A Key to Health

Chapter 1 Nutrition, Food Choices, and Health 2

Fact Check: Is nutrition a science? 3

1.1 Why Do You Choose the Food You Eat? 4

Sustainable Solutions: Introducing the Feature 7

1.2 How Is Nutrition Connected to Good Health? 8

1.3 What Are the Classes and Sources of Nutrients? 10

Farm to Fork: Tomatoes 12

1.4 What Math Concepts Will Aid Your Study of Nutrition? 13

Case Study: Choosing a Quick but Healthy Breakfast 16

1.5 How Do We Know What We Know About Nutrition? 16

Newsworthy Nutrition: Introducing the Feature 18

1.6 What Is the Current State of Dietary Patterns and Health? 19

Newsworthy Nutrition: Obesity-Related Cancers on the Rise in Young Adults 20

Roots: Global Dietary Patterns 21

1.7 Adopting a Healthy Lifestyle 22

Ask the RDN: Who's the Expert? 23

1.8 Nutrition and Your Health: Nutrition Implications of Alcohol Consumption 24

Magnificent Microbiome: Definitions 28

Chapter 2 Designing a Healthy Eating Pattern 32

Fact Check: In MyPlate, do beans, peas, and lentils count as a part of the Protein Food Group or the Vegetable Group? 33

2.1 A Food Philosophy That Works 34

Farm to Fork: Citrus Fruit 36

2.2 Dietary and Physical Activity Guidelines 38

Roots: Celebrating our Differences! 40

Newsworthy Nutrition: Impact of Diet Quality on Health Outcomes 43

Magnificent Microbiome: Diet and Microbiome 43

2.3 MyPlate—A Menu-Planning Tool 44

2.4 Nutritional Health 51

2.5 Measuring Nutritional Status 53

2.6 Nutrient Standards and Recommendations 54

2.7 Evaluating Nutrition Information 58

Ask the RDN: Transgender Issues 59

2.8 Food Labels and Dietary Pattern Planning 60

2.9 Nutrition and Your Health: Eating Well as a Student 66

Case Study: College Student Eating Habits 67

Sustainable Solutions: Plant-Focused Dietary Pattern 68

Chapter 3 The Human Body: A Nutrition Perspective 74

Fact Check: Does eating spicy foods cause ulcers? 75

3.1 Cells, Tissues, and Organs 76

3.2 Metabolism Is the Chemistry of Life 81

3.3 Cardiovascular System and Lymphatic System 81

3.4 Urinary System 84

3.5 Nervous System 85

Farm to Fork: Cranberries 85

3.6 Endocrine System 87

3.7 Immune System 89

3.8 Digestive System 90

3.9 The Human Microbiota 100

Roots: Fermented Foods 103

Newsworthy Nutrition: Fecal Microbiota Transplant is an Effective Treatment for Irritable Bowel Syndrome 104

3.10 Nutrient Storage Capabilities 105

3.11 Nutrition and Your Health: Common Problems with Digestion 106

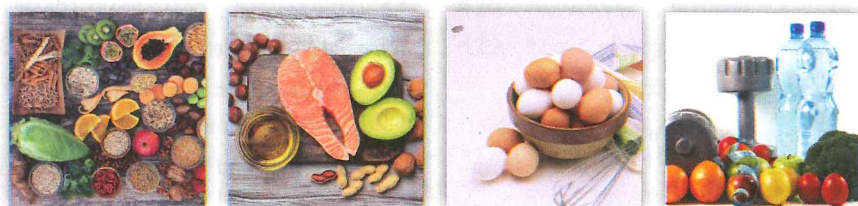

Case Study: Gastroesophageal Reflux Disease 108

Medicine Cabinet: Controlling Stomach Acid 109

Magnificent Microbiome: Irritable Bowel Syndrome 111

Ask the RDN: Gluten-Free Diet 113

Part Two: Energy Nutrients and Energy Balance

Chapter 4 Carbohydrates 118

Fact Check: Are artificial sweeteners safe? 119

4.1 Carbohydrates—Our Most Important Energy Source 120

Sustainable Solutions: Food Systems 120

4.2 Forms of Carbohydrates 121

4.3 Carbohydrates in Foods 126

Farm to Fork: Potatoes 131

4.4 Making Carbohydrates Available for Body Use 135

Case Study: Problems with Milk Intake 137

Magnificent Microbiome: Microbiota-accessible Carbohydrates 139

4.5 Putting Carbohydrates to Work in the Body 140

Roots: African Heritage Diet Pyramid 140

4.6 Carbohydrate Needs 143

Newsworthy Nutrition: Decreasing Trends in Heavy Sugar-Sweetened Beverage Consumption 148

4.7 Nutrition and Your Health: Diabetes—When Blood Glucose Regulation Fails 149

Ask the RDN: Nutrition and Health Disparities 153

Chapter 5 Lipids 158

Fact Check: Are eggs bad for your heart? 159

5.1 Lipids: What Are They? 160

5.2 Fats and Oils in Foods 165

Farm to Fork: Avocados 167

Ask the RDN: Coconut Oil 173

5.3 Making Lipids Available for Body Use 174

5.4 Carrying Lipids in the Bloodstream 177

Newsworthy Nutrition: Effects of Almond versus Cracker Snacks among College Students 180

5.5 Roles of Lipids in the Body 181

5.6 Recommendations for Fat Intake 183

Sustainable Solutions: Aquaculture 185

Roots: Nordic Diet 186

Case Study: Planning a Heart-Healthy Dietary Pattern 188

Ask the RDN: Ketogenic Diet 188

5.7 Nutrition and Your Health: Lipids and Cardiovascular Disease 190

Farm to Fork: Olive Oil 194

Medicine Cabinet: Lipid-Lowering Medications 195

Magnificent Microbiome: Heart Health 196

Chapter 6 Proteins 200

Fact Check: Should I take collagen for healthy skin? 201

6.1 Amino Acids—Building Blocks of Proteins 202

6.2 Protein Synthesis and Organization 203

6.3 Protein in Foods 207

Sustainable Solutions: Alternative Protein Sources 208

Farm to Fork: Legumes 211

6.4 Plant-Based Dietary Patterns 213

Roots: Vegetarian Dietary Patterns Among Seventh-Day Adventists 215

Newsworthy Nutrition: Plant-Based Dietary Patterns Linked to Lower Risk for Cardiovascular Disease 216

Ask the RDN: Plant-Based Eating 219

6.5 Protein Digestion and Absorption 220

Magnificent Microbiome: Protein Feeds Microbes 220

6.6 Putting Proteins to Work in the Body 221

6.7 Protein Needs 226

Case Study: Planning a Vegetarian Dietary Pattern 230

6.8 Special Health Concerns Related to Protein Intake 230

6.9 Nutrition and Your Health: Nutritional Genomics 235

Chapter 7 Energy Balance 242

Fact Check: To lose weight, do you need to significantly cut calories from of your dietary pattern? 243

7.1 Energy Balance 244

Sustainable Solutions: Dietary Patterns 244

7.2 Determination of Energy Use by the Body 249

- 7.3 Assessing Body Weight 251
- 7.4 Nature versus Nurture 255
- Magnificent Microbiome: Appetite 257**
- 7.5 Energy Balance Is Essential for Weight Management 258
- Farm to Fork: Stone Fruits 259**
- Newsworthy Nutrition: Plant-Based Dietary Patterns are Associated with Less Weight Gain 259**
- Roots: Asian Diet Pyramid 261**
- 7.6 Physical Activity Promotes Weight Loss and Maintenance of a Healthy Weight 262
- Magnificent Microbiome: Physical Activity 264**
- 7.7 Behavioral Strategies for Weight Management 264
- 7.8 Management of Overweight and Obesity 269
- 7.9 Professional Help for Weight Loss 271
- Ask the RDN: Intermittent Fasting 275**
- 7.10 Treatment of Underweight 278
- 7.11 Nutrition and Your Health: Popular Fad Diets—Cause for Concern 281**
- Case Study: Choosing a Weight-Management Program 284**

Part Three: Vitamins, Minerals, and Water

Chapter 8 Overview of Micronutrients and Phytochemicals 288

Fact Check: Why does my cooking water have a green tint to it after I boil fresh green beans for dinner? 289

- 8.1 Vitamins: Vital Dietary Components 290
- Magnificent Microbiome: Vitamin Production 291**
- Sustainable Solutions: Food Preservation 293**
- 8.2 Minerals: Essential Elements for Health 294
- 8.3 The Functional Roles of Micronutrients 298
- 8.4 Phytochemicals 299
- Roots: Supertasters 301**
- Farm to Fork: Crucifers 301**
- 8.5 Nutrition and Your Health: Dietary Supplements 303**
- Newsworthy Nutrition: Increased Emergency Department Visits for Dietary Supplement Users 304**
- Ask the RDN: Supplements in Perspective 304**
- Case Study: Getting the Most Nutrition from Your Food 308**

Chapter 9 Fluid and Electrolyte Balance 312

Fact Check: Is it healthy to drink a gallon of water per day? 313

- 9.1 Water: Essential to Human Life 314
- 9.2 The Water Balancing Act 316
- Sustainable Solutions: Bottled versus Tap Water 321**

- 9.3 Electrolytes Regulate Fluid Balance 322
- 9.4 Electrolytes Are Essential for Nerve Impulse Transmission 324
- 9.5 Electrolytes Maintain Acid–Base Balance 325
- 9.6 Sodium 326
- Magnificent Microbiome: Sodium, Microbiota, and Blood Pressure 327**
- Ask the RDN: Pass the Salt? 329**
- 9.7 Potassium 330
- Farm to Fork: Bananas 332**
- 9.8 Chloride 332
- 9.9 Nutrition and Your Health: Minerals and Hypertension 334**
- Newsworthy Nutrition: DASH Diet is Associated with Lower Blood Pressure among College Students 336**
- Medicine Cabinet: Diuretics 336**
- Case Study: Focus on the Positive 337**
- Roots: Savor the Flavor 338**

Chapter 10 Nutrients Involved in Body Defenses 342

Fact Check: Can I boost my immune system by taking supplements? 343

- 10.1 Defending the Body Against Pathogens 344
- 10.2 Protecting the Body from Oxidative Damage 347
- Ask the RDN: Detox Diets 350**
- 10.3 Vitamin A (Retinoids) and Carotenoids 351

Sustainable Solutions: Biofortification 354**Medicine Cabinet: Vitamin A Derivatives 356**

10.4 Vitamin C (Ascorbic Acid) 356

10.5 Vitamin E (Tocopherols) 359

10.6 Selenium 362

Newsworthy Nutrition: Selenium and Vitamin E Supplements Offer no Benefit for Cancer Prevention 363**Roots: Selenium 364**

10.7 Zinc 364

10.8 Antioxidant Phytochemicals 366

10.9 Probiotics and the Immune System 367

Farm to Fork: Onions and Garlic 369**Magnificent Microbiome: Hygiene Hypothesis 370****10.10 Nutrition and Your Health: Nutrition and Cancer 372****Case Study: Choosing Cancer Prevention Dietary and Physical Activity Patterns 375****Chapter 11 Nutrients Involved in Bone Health 378****Fact Check: What type of milk is the best source of vitamin D? 379**

11.1 Bone Physiology 380

11.2 Factors That Influence Bone Health 382

11.3 Calcium 383

Sustainable Solutions: Sustainability of Dairy 388**Newsworthy Nutrition: Calcium Supplements and Cardiovascular Disease Risk 389**

11.4 Phosphorus 390

11.5 Vitamin D (Calciferol or Calcitriol) 392

Roots: Religious Customs Affect Vitamin D Status 394**Farm to Fork: Mushrooms 397**

11.6 Magnesium 398

Farm to Fork: Cashews 400

11.7 Fluoride 401

11.8 Other Nutrients Involved in Bone Health 403

Ask the RDN: Bone Health Without Dairy 405**11.9 Nutrition and Your Health: Osteoporosis 406****Magnificent Microbiome: Gut-Bone Axis 410****Medicine Cabinet: Types of Osteoporosis Medications 410****Case Study: Worried About Bone Health 411****Chapter 12 Micronutrient Function in Energy Metabolism 416****Fact Check: Should I eliminate refined grains from my dietary pattern? 417**

12.1 The Roles of B Vitamins in Energy Metabolism 418

Sustainable Solutions: Whole Grains 419

12.2 Thiamin (Vitamin B-1) 420

12.3 Riboflavin (Vitamin B-2) 422

Case Study: Deficiency from a Vegan and Gluten-Free Diet? 423

12.4 Niacin (Vitamin B-3) 424

Roots: Nixtamalization 424**Farm to Fork: Corn on the Cob 426**

12.5 Pantothenic Acid (Vitamin B-5) 426

12.6 Vitamin B-6 (Pyridoxine) 428

12.7 Biotin (Vitamin B-7) 430

12.8 Iodine 431

Newsworthy Nutrition: Goitrogens and Iodine Deficiency 434

12.9 Chromium 434

12.10 Other Trace Minerals Involved in Energy Metabolism 435

Magnificent Microbiome: Getting Energy from Microbes 435**Ask the RDN: Boosting your Metabolism 436****12.11 Nutrition and Your Health: Choline: The Newest Vitamin? 439****Chapter 13 Nutrients That Support Blood and Brain Health 446****Fact Check: Red Meat 447**

13.1 Blood Cell Synthesis 448

Roots: Sickle Cell Disease 451

13.2 Hemostasis 452

13.3 Vitamin K (Quinone) 453

Farm to Fork: Pomegranates 453**Medicine Cabinet: Anticoagulants 454**

13.4 Folate (Vitamin B-9) 455

13.5 Vitamin B-12 (Cobalamin or Cyanocobalamin) 458

Medicine Cabinet: Vitamin B-12 460**Sustainable Solutions: Offal 461**

13.6 Iron 462

Magnificent Microbiome: Iron Bioavailability 463**Case Study: Anemia 466**

13.7 Copper 467

13.8 Nutrition and Your Health: Brain Health: Food for Thought 469**Magnificent Microbiome: Gut-Brain Axis 471****Newsworthy Nutrition: Mediterranean-Style Diet Linked to Reduced Alzheimer's Disease 472****Ask the RDN: Nutrition and Academic Performance 473**

Part Four: Nutrition: Beyond the Nutrients

Chapter 14 Nutrition: Fitness and Sports 478

Fact Check: If I eat more protein, will I gain more muscle? **479**

14.1 Introduction to Physical Fitness 480

Roots: Health of Hunter-Gatherers **481**

14.2 Achieving and Maintaining Physical Fitness 482

14.3 Energy Sources for Active Muscles 486

Magnificent Microbiome: Exercise **486**

Newsworthy Nutrition: Branched-Chain Amino Acids Impact Health and Lifespan in Mice **490**

14.4 Nutrient Recommendations for Active Adults and Athletes 491

Farm to Fork: Carrots and Beets **494**

Ask the RDN: The No-Meat Athlete **496**

Sustainable Solutions: Landfill Waste **499**

14.5 Recommendations for Endurance, Strength, and Power Athletes 502

Case Study: Planning a Training Diet **508**

14.6 Nutrition and Your Health: Ergogenic Aids and Athletic Performance 509

Chapter 15 Eating Disorders 514

Fact Check: Do eating disorders only affect privileged white women? **515**

15.1 From Ordered to Disordered Eating Habits 516

Roots: Genetics and Eating Disorders **518**

Newsworthy Nutrition: Social Media Use and Body Dissatisfaction among College-Age Females **520**

15.2 Anorexia Nervosa 520

Ask the RDN: Not Having a Period is NOT Normal **524**

Magnificent Microbiome: Refeeding the Microbiota **526**

15.3 Bulimia Nervosa 527

15.4 Binge Eating Disorder 532

Case Study: Eating Disorders—Steps to Recovery **535**

15.5 Other Eating Disorders 536

15.6 Additional Disordered Eating Patterns 538

15.7 Prevention of Eating Disorders 540

Farm to Fork: Apples **541**

15.8 Nutrition and Your Health: Eating Disorder Reflections 542

Chapter 16 Protecting Our Food Supply 548

Fact Check: Are organic products worth the extra cost? **549**

16.1 Food Production Choices 550

Newsworthy Nutrition: Increase in Foodborne Illnesses Associated with Organic Foods **552**

Ask the RDN: Food Waste **556**

Sustainable Solutions: Hydroponic **558**

16.2 Environmental Contaminants in Food 558

Farm to Fork: Melons **564**

16.3 Food Preservation and Safety 565

Magnificent Microbiome: Fermented Foods **568**

16.4 Foodborne Illness Caused by Microorganisms 570

Magnificent Microbiome: Norovirus **573**

16.5 Food Additives 576

Roots: Variety is the SPICE of life **584**

16.6 Nutrition and Your Health: Preventing Foodborne Illness 585

Case Study: Preventing Foodborne Illness at Gatherings **588**

Chapter 17 Global Nutrition 592

Fact Check: Is there a difference between *malnutrition* and *hunger*? **593**

17.1 World Hunger 594

17.2 Malnutrition in the United States 598

Ask the RDN: College Food Insecurity **603**

17.3 Malnutrition in the Developing World 604

Roots: Insect Farming **605**

17.4 Reducing Malnutrition in the Developing World 609

Newsworthy Nutrition: Maternal Depression and Child Severe Acute Malnutrition: A Case-Control Study **612**

Farm to Fork: Pineapples **613**

Sustainable Solutions: Hydroponics **614**

Magnificent Microbiome: Soil Microbiome **615**

17.5 Nutrition and Your Health: Malnutrition at Critical Life Stages 616

Case Study: Undernutrition During Childhood **617**

Part Five: Nutrition: A Focus on Life Stages

Chapter 18 Nutrition During Pregnancy and Breastfeeding 622

Fact Check: Is it necessary to avoid potential food allergens during pregnancy and breastfeeding to reduce the risk for food allergies in the infant? **623**

18.1 Nutrition and Fertility 624

Ask the RDN: Male Fertility **627**

18.2 Prenatal Growth and Development 628

18.3 Success in Pregnancy 630

18.4 Increased Nutrient Needs to Support Pregnancy 635

Newsworthy Nutrition: Prenatal Folic Acid Supplementation Improves Cognitive Outcomes in Offspring **640**

18.5 Eating Patterns for Females During Pregnancy 643

Farm to Fork: Greens **643**

Roots: Cultural Pica **645**

Case Study: Eating for Two **646**

18.6 Nutrition-Related Concerns During Pregnancy 647

18.7 Breastfeeding 650

Magnificent Microbiome: Colonizing the Infant's GI Tract **653**

Sustainable Solutions: Breastfeeding **657**

18.8 Nutrition and Your Health: Reducing the Risk of Birth Defects 660

Chapter 19 Nutrition from Infancy Through Adolescence 670

Fact Check: Do toddlers need special toddler drinks to meet nutrient needs? **671**

19.1 Assessing Growth 672

19.2 Infant Nutritional Needs 676

19.3 Guidelines for Infant Feeding 680

Roots: Milk from Another Mother **682**

Case Study: Undernutrition During Infancy **692**

19.4 Toddlers and Preschool Children: Nutrition Concerns 692

Ask the RDN: Picky Eating **696**

Farm to Fork: Blueberries **698**

Magnificent Microbiome: Autism Spectrum Disorder **701**

19.5 School-Age Children: Nutrition Concerns 702

Sustainable Solutions: Farm to School **708**

Newsworthy Nutrition: School-Based Obesity Prevention Program Reduces Added Sugar and Sodium Intakes of Children **708**

19.6 Teenage Years: Nutrition Concerns 709

Newsworthy Nutrition: Glycemic Load of Food Choices May Influence Acne **711**

19.7 Nutrition and Your Health: Food Allergies and Intolerances 713

Newsworthy Nutrition: Early Introduction of Peanut Protein Reduces Peanut Allergy **716**

Chapter 20 Nutrition During Adulthood 724

Fact Check: Is longevity mainly determined by your genes? **725**

20.1 Healthy Aging 726

Magnificent Microbiome: Aging and Microbiome Diversity **729**

Sustainable Solutions: Essential Oil and Aromatherapy **731**

Newsworthy Nutrition: Impact of Dietary Patterns on Biomarkers of Aging **731**

20.2 Nutrient Needs During Adulthood 732

Farm to Fork: Grapes and Raisins **736**

20.3 Factors Related to Nutritional Status of Adults 737

Ask the RDN: CBD **744**

20.4 Healthful Dietary Patterns for the Adult Years 746

Case Study: Dietary Assistance for an Older Adult **749**

20.5 Nutrition and Your Health: Lifestyles Linked with Living Longer: Adopt a Blue Zone Philosophy 750

Roots: Bread Intake Across the Blue Zones **753**

Appendix A Daily Values Used on Food Labels A-1

Appendix B Diabetes Menu-Planning Tools A-2

Appendix C Dietary Assessment A-14

Appendix D Chemical Structures Important in Nutrition A-21

Appendix E English-Metric Conversions and Metric Units A-26
