Contributors xi
Preface xvii

1 **Isolation and characterization of endophytes: Biochemical and molecular approach** 1
Dimitrios Manias, Akanksha Verma and Dharmendra Kumar Soni
1.1 Introduction 1
1.2 Sample collection and preparation 2
1.3 Characterization of endophytes 6
1.4 Conclusions 10
References 11

2 **Endophytic bacteria from the medicinal plants and their potential applications** 15
R. Aswani, P. Jishma and E.K. Radhakrishnan
2.1 Introduction 15
2.2 Types of endophytic microorganisms 16
2.3 Adaptation of bacteria to endophytic lifestyle 18
2.4 Diversity of bacterial endophytes in medicinal plants 19
2.5 Biosynthetic potential of bacterial endophytes for plant growth and protection 19
2.6 Biosynthetic sharing between bacterial endophytes and the host plant 22
2.7 Impact of bacterial endophytes on secondary metabolites production in plants 23
2.8 Exploitation of bacterial endophytes for sustainable agriculture development 24
2.9 Visualization of endophytic bacterial colonization within the host plant 26
2.10 Delivery methods for introducing endophytic bacteria to agriculture 27
2.11 Product designing and field application of endophytic bacteria-based agro-products 27
2.12 Industrial sustainability and marketing of agro-products 30

2.13 Conclusion 30
Acknowledgments 30
References 30
Further reading 36

3 **Endophytic bacteria: Role in sustainable agriculture** 37
Mahendra Prasad, R. Srinivasan, Manoj Chaudhary, Sonu Kumar Mahawer and Lokesh Kumar Jat
3.1 Introduction 37
3.2 Distribution and diversity of endophytic bacteria 39
3.3 Role of endophytic bacteria in sustainable agriculture 43
3.4 Concluding remarks 50
References 51
Further reading 60

4 **Endophytic bacteria in plant disease management** 61
Monika Singh, Meenakshi Srivastava, Ajay Kumar, A.K. Singh and K.D. Pandey
4.1 Introduction 61
4.2 Endophytic bacteria in disease management 63
4.3 Bacterial plant pathogens 64
4.4 Fungal plant pathogens 67
4.5 Chemicals and synthesized products produced by endophytic bacteria to control the phytopathogens 70
4.6 Bacterial endophyte in plant defense management 76
4.7 Conclusion 80
Acknowledgments 81
References 81

5 **Endophytic microbes in abiotic stress management** 91
Simranjeet Singh, Vijay Kumar, Daljeet Singh Dhanjal, Gurpreet Kaur Sidhu, Shivika Datta, Sanjay Kumar and Joginder Singh
5.1 Introduction 91
5.2 Impact of abiotic stresses on plants 93
5.3 Endophytic microbes combating abiotic stress 93
5.4 Entrance and establishment of endophytes within plant tissues 97
5.5 Sources of endophytic colonization 97
5.6 Signaling during abiotic stresses 98
5.7 Conclusions 111
References 112
Further reading 123

6 **Endophytic bacteria in xenobiotic degradation** 125
Shivika Datta, Simranjeet Singh, Vijay Kumar, Daljeet Singh Dhanjal, Gurpreet Kaur Sidhu, Durdana Sadaf Amin, Sanjay Kumar, Jaswinder Singh and Joginder Singh
6.1 Introduction 125
6.2 Xenobiotic compounds and their classification 126
6.3 Types of xenobiotics 127
6.4 Hazards of xenobiotics 130
6.5 Conclusions 143
References 144
Further reading 156

7 **Endophytic microbe approaches in bioremediation of organic pollutants** 157
Akanksha Gupta, Sandeep Kumar Singh, Vipin Kumar Singh, Manoj Kumar Singh, Arpan Modi, V. Yeka Zhimo, Anand Vikram Singh and Ajay Kumar
7.1 Introduction 157
7.2 Bioremediation: A sustainable approach 158
7.3 Endophytes microbes 162
7.4 Phytoremediation of organic pollutants 163
7.5 Plant-endophyte relationship 165
7.6 Conclusion and future prospective 168
References 168

8 **Endophytic bacteria as a source of bioactive compounds** 175
Monika, Rajesh Kumar Singh, Ankita Shrivastava, Arpana Yadav and Akhileshwar Kumar Srivastava
8.1 Introduction 175
8.2 Methods of analysis 176
8.3 Potential bioactive products of endophytic bacteria 177
8.4 Future prospectives 185
References 186
Further reading 188

9 **Endophytic actinomycetes in bioactive compounds production and plant defense system** 189
Mohd Aamir, Krishna Kumar Rai, Andleeb Zehra, Manish Kumar Dubey, Swarnmala Samal, Mukesh Yadav and Ram Sanmukh Upadhyay
9.1 Introduction 189
9.2 Isolation, abundance, and phylogenetic diversity 190
9.3 Function of novel bioactive compounds in plant-actinobacteria interactions 198

9.4 Biotechnological potential for therapeutic use and in pharmaceutical industries 202
9.5 Concluding remark and future prospective 214
References 214
Further reading 229

10 Endophytic microbes in nanotechnology: Current development, and potential biotechnology applications 231
Kusam Lata Rana, Divjot Kour, Neelam Yadav and Ajar Nath Yadav
10.1 Introduction 231
10.2 Endophytic microbes as bio-factories of NPs 232
10.3 Applications of NP in phytopathology 238
10.4 Pharmacological applications 245
10.5 Future therapeutic applications 250
10.6 Conclusion and future directions 251
Acknowledgments 252
References 252
Further reading 262

11 Fascinating fungal endophytes associated with medicinal plants: Recent advances and beneficial applications 263
H.C. Yashavantha Rao, Subban Kamalraj and Chelliah Jayabaskaran
11.1 Introduction 263
11.2 Medicinal plants and its natural products 263
11.3 Endophytic fungi and their host interactions 264
11.4 Endophytic fungi as a potential source of natural products 266
11.5 Role of fungal endophytes in sustainable agriculture 267
11.6 Role of endophytic fungi in natural product discovery 268
11.7 Conclusion and future prospective 279
Acknowledgments 280
References 280
Further reading 288

12 Fungal endophytes: Classification, diversity, ecological role, and their relevance in sustainable agriculture 291
Mohd Aamir, Krishna Kumar Rai, Andleeb Zehra, Sunil Kumar, Mukesh Yadav, Vaishali Shukla and Ram Sanmukh Upadhyay
12.1 Introduction 291
12.2 Diversity of endophytic fungi in plants 294
12.3 Classification of fungal endophytic communities 296
12.4 Ecological role of endophytic fungi 297
12.5 Relevance of endophytic fungi in sustainable agriculture: Mechanism of plant growth promotion 298
12.6 Assessment of endophytic diversity for sustainable agriculture: Technical aspects 310

12.7 Conclusion 310
Acknowledgments 311
Author contributions 311
Conflict of interest statement 311
References 311
Further reading 321

13 Endophytic fungi mediated biofabrication of nanoparticles and their potential applications 325
Shobhika Parmar and Vijay Kumar Sharma
13.1 Introduction 325
13.2 Endophytic fungi mediated biosynthesis of nanoparticles and applications 327
13.3 Effect of reaction regulating parameters 333
13.4 Mechanism of biosynthesis 334
13.5 Conclusions 336
References 336

14 Endophytic animations to blossom Sub-Saharan agriculture 343
Manoj Kaushal
14.1 Introduction 343
14.2 Major endophytes and their role 344
14.3 Endophytes and plant health 346
14.4 Endophytes and colonization 347
14.5 Endophytes in SSA 348
14.6 Conclusions and future outlooks 350
References 350

15 Biotization of endophytes in micropropagation: A helpful enemy 357
Poonam Kanani, Arpan Modi and Ajay Kumar
15.1 Introduction to micropropagation 357
15.2 Endophytes 359
15.3 Biotization 362
15.4 Case studies with microorganisms 368
15.5 Conclusion and future prospects 372
References 373
Further reading 379
