Preface to the first edition xii
Preface to the second edition xiv
Preface to the third edition xv
Preface to the fourth edition xvi
The International Phonetic Alphabet xvii

1 Introduction 1
1.1 Phonetics and phonology 1
1.2 The generative enterprise 3
Further reading 6

2 Introduction to articulatory phonetics 7
2.1 Overview 8
2.2 Speech sound classification 14
2.3 Suprasegmental structure 15
2.4 Consonants versus vowels 16
Further reading 17
Exercises 17

3 Consonants 19
3.1 Stops 20
3.2 Affricates 27
3.3 Fricatives 28
3.4 Nasals 31
3.5 Liquids 32

3.6 Glides 35
3.7 An inventory of English consonants 37
Further reading 38
Exercises 38

4 Vowels 40
4.1 Vowel classification 40
4.2 The vowel space and Cardinal Vowels 41
4.3 Further classifications 43
4.4 The vowels of English 44
4.5 Some vowel systems of English 53
Further reading 57
Exercises 57

5 Acoustic phonetics 59
5.1 Fundamentals 59
5.2 Speech sounds 64
5.3 Cross-linguistic values 74
Further reading 75
Exercises 75

6 Above the segment 77
6.1 The syllable 77
6.2 Stress 82
6.3 Tone and intonation 88
Further reading 93
Exercises 94

7 Features 95
7.1 Segmental composition 95
7.2 Phonetic versus phonological features 96
7.3 Charting the features 98
7.4 Conclusion 114
Further reading 115
Exercises 117

8 Phonemic analysis 119
8.1 Sounds that are the same but different 119
8.2 Finding phonemes and allophones 122
8.3 Linking levels: rules 125

8.4 Choosing the underlying form 127
8.5 Summary 134
Further reading 135
Exercises 135

9 Phonological alternations, processes and rules 138
9.1 Alternations versus processes versus rules 138
9.2 Alternation types 139
9.3 Representing phonological generalisations: rules and constraints 143
9.4 Overview of phonological operations 148
9.5 Summary 150
Further reading 150
Exercises 151

10 Phonological structure 153
10.1 The need for richer phonological representation 154
10.2 Segment internal structure: feature geometry, underspecification and unary features 158
10.3 Autosegmental phonology 165
10.4 Suprasegmental structure 172
10.5 Conclusion 180
Further reading 181
Exercises 181

11 Derivational analysis 183
11.1 The aims of analysis 183
11.2 A derivational analysis of English noun plural formation 185
11.3 Extrinsic versus intrinsic rule ordering 189
11.4 Evaluating competing analyses: evidence, economy and plausibility 191
11.5 Conclusion 201
Further reading 202
Exercises 202

12 Constraint-based analysis 205
12.1 Introduction to Optimality Theory 205
12.2 The aims of analysis 209
12.3 Modelling phonological processes in OT 210
12.4 English noun plural formation: an OT account 215

12.5 Competing analyses 219
12.6 Conclusion 222
Further reading 223
Exercises 223

13 Constraining the model 227
13.1 Constraining derivational phonology: abstractness 228
13.2 Constraining the power of the phonological component 231
13.3 Constraining the power of OT 238
13.4 Conclusion 245
Further reading 246
