<b>1</b>	<b>Introduction to Infrastructure . . . . .</b>	1
1.1	Infrastructure . . . . .	1
1.1.1	Problems of Infrastructure . . . . .	2
1.1.2	Definition of Infrastructure . . . . .	2
1.2	Examples of Infrastructure . . . . .	4
1.2.1	Agriculture . . . . .	4
1.2.2	Buildings . . . . .	7
1.2.3	Communication and Telecommunications . . . . .	9
1.2.4	Education . . . . .	10
1.2.5	Energy and Power . . . . .	11
1.2.6	Health . . . . .	13
1.2.7	Housing . . . . .	14
1.2.8	Industry . . . . .	14
1.2.9	Recreation . . . . .	17
1.2.10	Tourism . . . . .	18
1.2.11	Transportation . . . . .	19
1.2.12	Waste Management . . . . .	24
1.2.13	Water . . . . .	26
1.2.14	Wastewater . . . . .	27
1.3	Services . . . . .	28
1.4	Why Do We Need Infrastructure? . . . . .	29
1.4.1	Economic Infrastructure . . . . .	29
1.4.2	Social Infrastructure . . . . .	30
1.4.3	Critical Infrastructure . . . . .	30
	References . . . . .	32
<b>2</b>	<b>Infrastructure and Economic Growth . . . . .</b>	33
2.1	Introduction . . . . .	34
2.1.1	Why Do We Need Infrastructure? . . . . .	34
2.1.2	Economic Roles of Government . . . . .	35

2.2	Economics Applicable to Infrastructure . . . . .	37
2.2.1	Selective Overview of Economics . . . . .	37
2.2.2	Factor Endowments of the Country . . . . .	38
2.2.3	The GDP as a Measure of National Income . . . . .	39
2.3	Investing in a Business . . . . .	40
2.3.1	Introduction . . . . .	40
2.3.2	Determinants of Cost . . . . .	41
2.3.3	Determinants of Benefits . . . . .	42
2.3.4	Mathematical Formulation . . . . .	43
2.3.5	Growth: Miracles and Disasters . . . . .	43
2.3.6	Infrastructure v/s Growth . . . . .	44
2.4	The Process of Production . . . . .	44
2.4.1	Classifications . . . . .	44
2.4.2	Primary, Secondary and Tertiary Production . . . . .	45
2.4.3	Direct and Indirect Production . . . . .	45
2.5	Impact of Infrastructure on Economic Development . . . . .	47
2.5.1	Nature of Impacts . . . . .	47
2.5.2	Achieving the Potential of Infrastructure Impacts . . . . .	49
2.6	Infrastructure's Effects on Economic Development . . . . .	50
2.7	Infrastructure and Macroeconomic Stabilization . . . . .	50
2.8	Implications for Infrastructure Planning and Policy . . . . .	56
2.9	Conclusion . . . . .	56
	Appendix 2.1: "Constant Return to Scale" . . . . .	58
	References . . . . .	59
