ACKNOWLEDGEMENT

I wish to express my sincere gratitude and deep appreciation to Assoc. Prof. Dr. Duangta Kanjanapothi, the chairman of the thesis advisory committee of my thesis work, for her valuable guidance on research plan, advice and encouragement and helpful criticism in the writing of this manuscript, which has enabled me to carry on my graduate work successfully. This thesis could not have been succeeded with out her assistance.

I sincere gratefulness to Assoc. Prof. Dr. Ampai Panthong, for a valuable help and guidance for this thesis and I am especially gratitude to Asst. Prof. Dr. Tawat Taesotikul, for this initiating ideas, supervision , teaching in laboratory techniques and statistical analysis of the results and presentation.

I would like to express my sincere thankfulness to Assoc. Prof. Dr. Prasan Dhumma-upakorn for valuable suggestion and member of examinig committee.

I am also grateful to Dr. Thitikarn Wongcome and Dr. Parirat Khonsung, for kindness in lending headlight comments and suggestions on the thesis writing.

I am greatly thanks to all my friend and colleagues for their kindness about lending headlight equipment along this project.

I am also special thanks to Mrs. Doungporn Amornlerdpisan, Mr. Uten Jamjai and Mrs. Ratchanee Somwong for their advice and teaching on laboratory technique at Department of Pharmacology, Faculty of Medicine, Chiang Mai University for financial support for this project.

The financial supported from the Commission on Higher Education-Thailand Research Fund is gratefully acknowledged.

Finally, I am greatly indebted to my family for their cheerful encouragement, understanding and support.

Jeerawat Sudsamai
