Beta Thalassemia

Edited by Marwa Zakaria and Tamer Hassan

Contents

Preface	XI
Section 1	
Introduction to Beta Thalassemia	i
Chapter 1	3
Introductory Chapter: β -Thalassemia <i>by Marwa Zakaria and Tamer Hassan</i>	
Section 2	
Updates in Beta Thalassemia	13
Chapter 2	15
Updates in Thalassemia <i>by Tamer Hassan and Marwa Zakaria</i>	
Chapter 3	25
Transcriptional Repressors of Fetal Globin Genes as Novel Therapeutic Targets in Beta-Thalassemia <i>by Marianna De Martino, Raffaele Sessa, Maria Rosaria Storino, Mariarosaria Giuliano, Silvia Trombetti, Rosa Catapano, Alessandra Lo Bianco, Paola Izzo and Michela Grosso</i>	
Chapter 4	39
Nutraceutical Benefits of Green Tea in Beta-Thalassemia with Iron Overload <i>by Pimpisid Koonyosying, Suthat Fucharoen and Somdet Srichairatanakool</i>	
Section 3	
Pathophysiology of Beta Thalassemia	vii
Chapter 5	viii
Model Human β Thalassemic Erythrocytes: Effect of Unpaired Purified α -Hemoglobin Chains on Normal Erythrocytes <i>by Mark D. Scott</i>	
Chapter 6	xi
Oxidative Stress and Iron Overload in β -Thalassemia: An Overview <i>by Nadia Maria Sposi</i>	

Chapter 7	109
Thromboembolism in Beta-Thalassemia Disease <i>by Rungrote Natesirinilkul</i>	
Section 4	
Diagnosis of Beta Thalassemia	121
Chapter 8	123
Laboratory Diagnosis of β -Thalassemia and HbE <i>by Thanusak Tatu</i>
