Hill

# CONTENTS

Contributors .....	ix
Preface .....	xxiii

## PART I

### Clinical Evaluation of the Patient

1. Initial Approach to the Patient: History and Physical Examination.....	3
<i>Marshall A. Lichtman and Linda J. Burns</i>	
2. Examination of Blood and Marrow Cells .....	11
<i>Vishnu V.B. Reddy and Diana Morlote</i>	
3. Consultative Hematology .....	31
<i>Linda J. Burns, Marshall A. Lichtman, Kenneth Kaushansky, Josef T. Prchal, Marcel Levi, and David C. Linch</i>	

## PART II

### The Organization of the Lymphohematopoietic Tissues

4. Structure of the Marrow and the Hematopoietic Microenvironment.....	47
<i>Utpal P. Davé and Mark J. Koury</i>	
5. The Organization and Structure of Lymphoid Tissues .....	79
<i>Steven Scoville and Michael A. Caligiuri</i>	

## PART III

### Epochal Hematology

6. Hematology of the Fetus and Newborn.....	93
<i>James Palis and George B. Segel</i>	
7. Hematology During Pregnancy .....	111
<i>Martha P. Mims</i>	
8. Hematology in Older Persons.....	121
<i>William B. Eshler, Emma M. Groarke, and Neal S. Young</i>	

## PART IV

### Molecular and Cellular Hematology

9. Genetic Principles and Molecular Biology .....	137
<i>Lynn B. Jorde</i>	
10. Genomics and Epigenomics .....	149
<i>Brad R. Cairns and Elaine R. Mardis</i>	
11. Cytogenetic and Genetic Abnormalities .....	169
<i>Angela M. Lager, Lucy A. Godley, and Michelle M. Le Beau</i>	
12. Application of Big Data and Deep Learning in Hematology .....	189
<i>Joel Saltz</i>	
13. Metabolism of Hematologic Neoplastic Cells .....	207
<i>Sarah J. Skuli, May Dong, Martin P. Carroll, and Chi V. Dang</i>	
14. Cell Death .....	221
<i>Elizabeth K.K. Glennon, Kamalakannan Vijayan, and Alexis Kaushansky</i>	
15. Cell-Cycle Regulation and Hematologic Disorders .....	229
<i>Liang Zhou and Steven Grant</i>	

16. Signal Transduction Pathways.....	263
<i>Kenneth Kaushansky</i>	
17. Hematopoietic Stem Cells, Progenitors, and Cytokines .....	273
<i>Kenneth Kaushansky</i>	
18. The Inflammatory Response.....	295
<i>Marcel Levi</i>	
19. Innate Immunity.....	309
<i>Bruce Beutler and Eva Marie Y. Moresco</i>	
20. The Biology of Innate Lymphoid Cells and Natural Killer Cells .....	325
<i>Giorgio Trinchieri, Richard W. Childs, and Lewis L. Lanier</i>	
21. Dendritic Cells and Adaptive Immunity .....	335
<i>Madhav V. Dhodapkar and Jacques Banchereau</i>	

## PART V

### Therapeutic Principles

22. Immune Checkpoint Inhibitors .....	343
<i>Sergio A. Quezada and Karl S. Peggs</i>	
23. Immune Cell Therapy: Chimeric Antigen Receptor T-Cell Therapy .....	349
<i>Paul M. Maciocia, Nicola C. Maciocia, and Martin A. Pule</i>	
24. Immune Cell Therapy: Dendritic Cell and Natural Killer Cell Therapy .....	361
<i>Matthew Weinstock and David Avigan</i>	
25. Vaccine Therapy .....	371
<i>Gheath Alatrash and Jeffrey J. Molldrem</i>	
26. Gene Therapy for Hematologic Diseases.....	377
<i>Stanton L. Gerson</i>	
27. Regenerative Medicine: Induced Pluripotent Stem Cells and Blood Cell Engineering .....	387
<i>Ali G. Turhan, Annelise Bennaceur-Griscelli, and Connie J. Eaves</i>	
28. Pharmacology and Toxicity of Antineoplastic Drugs .....	395
<i>Bruce A. Chabner, Amir T. Fathi, Noopur S. Raje, Gabriela S. Hobbs, Chi-Joan How, Patrick Connor Johnson, Christopher S. Nabel, Matthew M. Lei, Houry Leblebjian, and Paul G. Richardson</i>	
29. Hematopoietic Stem Cell Transplantation.....	430
<i>Andrew R. Rezvani and Robert S. Negrin</i>	
30. Therapeutic Apheresis: Indications, Efficacy, and Complications .....	469
<i>Robert Weinstein</i>	
31. Treatment of Infections in the Immunocompromised Host ..	479
<i>Monica Fung and Jennifer Babik</i>	
32. Antithrombotic Therapy .....	491
<i>Sam Schulman and Marcel Levi</i>	

## PART VI

### The Erythrocyte

33. Structure and Composition of the Erythrocyte .....	513
<i>Narla Mohandas</i>	
34. Erythropoiesis and Red Cell Turnover .....	529
<i>Josef T. Prchal and Perumal Thiagarajan</i>	

<b>35. Clinical Manifestations and Classification of Erythrocyte Disorders</b>	553	<b>PART VII</b>	
Josef T. Prchal		<b>Neutrophils, Eosinophils, Basophils, and Mast Cells</b>	
<b>36. Aplastic Anemia: Acquired and Inherited</b>	563	<b>61. Structure and Composition of Neutrophils, Eosinophils, and Basophils</b>	997
George B. Segel and Marshall A. Lichtman		Taco Kuijpers	
<b>37. Pure Red Cell Aplasia</b>	591	<b>62. Classification and Clinical Manifestations of Neutrophil Disorders</b>	1013
Neal S. Young		Marshall A. Lichtman	
<b>38. Anemia of Chronic Disease</b>	601	<b>63. Neutropenia and Neutrophilia</b>	1021
Tomas Ganz		David C. Dale and Karl Welte	
<b>39. Erythropoietic Effects of Endocrine Disorders</b>	609	<b>64. Disorders of Neutrophil Function</b>	1037
Xyliana T. Gregg		Niels Borregaard and Taco Kuijpers	
<b>40. The Hereditary Dyserythropoietic Anemias</b>	615	<b>65. Eosinophils and Their Disorders</b>	1081
Achille Iolascon, Roberta Russo, and Rami Khuriyat		William Shomali and Jason Gotlib	
<b>41. Paroxysmal Nocturnal Hemoglobinuria</b>	625	<b>66. Basophils and Mast Cells and Their Disorders</b>	1093
Charles J. Parker		Stephen J. Galli, Dean D. Metcalfe, and Daniel A. Arber	
<b>42. Folate, Cobalamin, and Megaloblastic Anemias</b>	639		
Ralph Green and Ananya Datta Mitra			
<b>43. Iron Metabolism</b>	673	<b>PART VIII</b>	
Tomas Ganz		<b>Monocytes and Macrophages</b>	
<b>44. Iron Deficiency and Overload</b>	685	<b>67. Structure, Receptors, and Functions of Monocytes and Macrophages</b>	1113
Tomas Ganz		Steven D. Douglas and Anne G. Douglas	
<b>45. Anemia Resulting from Other Nutritional Deficiencies</b>	709	<b>68. Production, Distribution, and Activation of Monocytes and Macrophages</b>	1143
Ralph Green and Ananya Datta Mitra		Steven D. Douglas and Anne G. Douglas	
<b>46. Anemia Associated with Marrow Infiltration</b>	717	<b>69. Classification and Clinical Manifestations of Disorders of Monocytes and Macrophages</b>	1157
Vishnu V.B. Reddy and Diana Morlote		Marshall A. Lichtman	
<b>47. Erythrocyte Membrane Disorders</b>	721	<b>70. Monocytosis and Monocytopenia</b>	1163
Theresa L. Coetzer		Marshall A. Lichtman	
<b>48. Erythrocyte Enzyme Disorders</b>	749	<b>71. Inflammatory and Malignant Histiocytosis</b>	1169
Marije Bartels, Eduard J. van Beers, and Richard van Wijk		Kenneth L. McClain and Carl E. Allen	
<b>49. Thalassemia: A Disorder of Globin Synthesis</b>	785	<b>72. Gaucher Disease and Related Lysosomal Storage Diseases</b>	1189
Sujit Sheth and Swee Lay Thein		Shoshana Revel-Vilk, Jeff Szer, and Ari Zimran	
<b>50. Disorders of Hemoglobin Structure: Sickle Cell Anemia and Related Abnormalities</b>	825		
Vivien A. Sheehan, Victor R. Gordeuk, and Abdullah Kutlar		<b>PART IX</b>	
<b>51. Methemoglobinemia and Other Dyshemoglobinemias</b>	859	<b>Lymphocytes and Plasma Cells</b>	
Josef T. Prchal		<b>73. The Structure of Lymphocytes and Plasma Cells</b>	1201
<b>52. Fragmentation Hemolytic Anemia</b>	871	Natarajan Muthusamy and Michael A. Caligiuri	
Kelly R. Baker and Joel Moake		<b>74. Lymphopoiesis</b>	1215
<b>53. Erythrocyte Disorders as a Result of Toxic Agents</b>	879	Christopher S. Seet and Gay M. Crooks	
Paul C. Herrmann		<b>75. Functions of B Lymphocytes and Plasma Cells in Immunoglobulin Production</b>	1227
<b>54. Hemolytic Anemia Resulting from Infections with Microorganisms</b>	885	Thomas J. Kipps	
Marshall A. Lichtman		<b>76. Functions of T Lymphocytes: T-Cell Receptors for Antigen</b>	1243
<b>55. Hemolytic Anemia Resulting from Immune Injury</b>	893	Fabienne Lucas and John Gribben	
Charles H. Packman		<b>77. Classification and Clinical Manifestations of Lymphocyte and Plasma Cell Disorders</b>	1255
<b>56. Alloimmune Hemolytic Disease of the Fetus and Newborn</b>	917	Yvonne A. Efebera and Michael A. Caligiuri	
Ross M. Fasano, Jeanne E. Hendrickson, and Naomi L.C. Luban		<b>78. Lymphocytosis and Lymphocytopenia</b>	1261
<b>57. Hypersplenism and Hypoplasplenism</b>	933	Anthony G. Mansour and Michael A. Caligiuri	
Srikanth Nagalla and Jaime Caro		<b>79. Immunodeficiency Diseases</b>	1275
<b>58. Primary and Secondary Erythrocytoses/Polycythemias</b>	941	Hans D. Ochs and Luigi D. Notarangelo	
Josef T. Prchal			
<b>59. The Porphyrias</b>	961		
John D. Phillips and Karl E. Anderson			
<b>60. Polyclonal and Hereditary Sideroblastic Anemias</b>	987		
Prem Ponka, Amel Hamdi, and Josef T. Prchal			

<b>80.</b> Hematologic Manifestations of Human Immunodeficiency Virus and the Acquired Immunodeficiency Syndrome..... <i>Manoj P. Menon, Robert D. Harrington, and Virginia C. Broudy</i>	1307	<b>101.</b> Burkitt Lymphoma ..... <i>Andrew G. Evans, Jonathan W. Friedberg, and Carla Casulo</i>	1767																																																																																																		
<b>81.</b> Mononucleosis Syndromes .....	1331	<b>102.</b> Cutaneous T-Cell Lymphoma (Mycosis Fungoides and Sézary Syndrome) .....	1775																																																																																																		
<i>Sankar Swaminathan</i>		<i>Larisa J. Geskin and Megan Trager</i>																																																																																																			
<b>PART X</b>																																																																																																					
<b>Malignant Myeloid Diseases</b>																																																																																																					
<b>82.</b> Classification and Clinical Manifestations of the Clonal Myeloid Disorders .....	1343	<b>104.</b> Plasma Cell Neoplasms: General Considerations..... <i>Giada Bianchi, Elizabeth K. O'Donnell, and Kenneth Anderson</i>	1805																																																																																																		
<i>Marshall A. Lichtman</i>		<b>105.</b> Essential Monoclonal Gammopathy .....	1817																																																																																																		
<b>83.</b> Polycythemia Vera .....	1361	<b>106.</b> Myeloma..... <i>Elizabeth K. O'Donnell, Giada Bianchi, and Kenneth Anderson</i>	1831																																																																																																		
<i>Tsewang Tashi, Jaroslav F. Prchal, and Josef T. Prchal</i>		<b>107.</b> Immunoglobulin Light Chain Amyloidosis .....	1873																																																																																																		
<b>84.</b> Essential Thrombocythemia..... <i>Kenneth Kaushansky</i>	1377	<i>Morie A. Gertz, Taimur Sher, Angela Dispenzieri, and Francis K. Buadi</i>																																																																																																			
<b>85.</b> Primary Myelofibrosis .....	1389	<b>108.</b> Macroglobulinemia..... <i>Jorge J. Castillo and Steven P. Treon</i>	1885																																																																																																		
<i>Josef T. Prchal and Marshall A. Lichtman</i>		<b>109.</b> Heavy-Chain Disease .....	1903																																																																																																		
<b>86.</b> Myelodysplastic Syndromes..... <i>Rafael Bejar and David P. Steensma</i>	1411	<i>Dietlind L. Wahner-Roedler and Robert A. Kyle</i>																																																																																																			
<b>87.</b> Acute Myelogenous Leukemia .....	1445	<b>PART XII</b>																																																																																																			
<i>Jane L. Liesveld and Marshall A. Lichtman</i>		<b>Hemostasis and Thrombosis</b>				<b>88.</b> Chronic Myelogenous Leukemia and Related Disorders .....	1523	<b>110.</b> Megakaryopoiesis and Thrombopoiesis .....	1915	<i>Jane L. Liesveld and Marshall A. Lichtman</i>		<i>Kenneth Kaushansky</i>		<b>PART XI</b>				<b>Malignant Lymphoid Diseases</b>				<b>89.</b> Classification of Malignant Lymphoid Disorders..... <i>David A. Bond and Robert A. Baiocchi</i>	1581	<b>111.</b> Platelet Morphology, Biochemistry, and Function..... <i>Joseph E. Italiano Jr., Sidney W. Whiteheart, Paul F. Bray, Zhenyu Li, Barry S. Coller, and Susan S. Smyth</i>	1931	<b>90.</b> Acute Lymphoblastic Leukemia .....	1593	<b>112.</b> Molecular Biology and Biochemistry of the Coagulation Factors and Pathways of Hemostasis..... <i>Mettine H. A. Bos, Cornelis van't Veer, and Pieter H. Reitsma</i>	2017	<i>Richard A. Larson</i>		<b>113.</b> Control of Coagulation Reactions .....	2051	<b>91.</b> Chronic Lymphocytic Leukemia .....	1617	<i>Marcel Levi</i>		<i>John C. Byrd, Adam S. Kittai, and Farrukh T. Awan</i>		<b>114.</b> Vascular Function in Hemostasis .....	206	<b>92.</b> Hairy Cell Leukemia..... <i>Michael R. Grever and Gerard Lozanski</i>	1637	<i>Katherine A. Hajjar and William A. Muller</i>		<b>93.</b> Large Granular Lymphocytic Leukemia .....	1647	<b>115.</b> Classification, Clinical Manifestations, and Evaluation of Disorders of Hemostasis .....	2085	<i>Jonathan E. Brammer, Anjali Mishra, Aharon G. Freud, and Pierluigi Porcu</i>		<i>Marcel Levi and Kenneth Kaushansky</i>		<b>94.</b> General Considerations of Lymphomas: Incidence Rates, Etiology, Diagnosis, Staging, and Primary Extranodal Disease .....	1655	<b>116.</b> Thrombocytopenia .....	209	<i>David C. Linch</i>		<i>Kenneth Kaushansky</i>		<b>95.</b> Pathology of Lymphomas .....	1671	<b>117.</b> Heparin-Induced Thrombocytopenia .....	2125	<i>Blanca Gonzalez, Luojun Wang, and Elias Campo</i>		<i>Kandace Gollomp, Lubica Rauova, and Mortimer Poncz</i>		<b>96.</b> Hodgkin Lymphoma..... <i>Michael A. Spinner, Eric Mou, and Ranjana H. Advani</i>	1683	<b>118.</b> Hereditary and Reactive Thrombocytosis..... <i>Kenneth Kaushansky</i>	2139	<b>97.</b> Diffuse Large B-Cell Lymphoma and Related Diseases..... <i>Michael Dickinson and John F. Seymour</i>	1713	<b>119.</b> Inherited Platelet Disorders..... <i>Suthesh Sivapalaratnam, A. Koneti Rao, Willem Ouwehand, and Kathleen Fresen</i>	2143	<b>98.</b> Follicular Lymphoma .....	1731	<b>120.</b> Acquired Qualitative Platelet Disorders .....	2173	<i>Clémentine Sarkozy, Philippe Solal-Céliney, and Guillaume Cartron</i>		<i>Marcel Levi</i>		<b>99.</b> Mantle Cell Lymphoma .....	1747	<b>121.</b> The Vascular Purpuras .....	2195	<i>Martin Dreyling</i>		<i>Doru T. Alexandrescu and Marcel Levi</i>		<b>100.</b> Marginal Zone B-Cell Lymphomas .....	1757	<b>122.</b> Hemophilia A and Hemophilia B..... <i>Miguel A. Escobar and Mark T. Reding</i>	2209	<i>Alessandro Broccoli and Pier Luigi Zinzani</i>		<b>123.</b> Inherited Deficiencies of Coagulation Factors II, V, V+VIII, VII, X, XI, and XIII..... <i>Flora Peyvandi and Marzia Menegatti</i>	2229
<b>Hemostasis and Thrombosis</b>																																																																																																					
<b>88.</b> Chronic Myelogenous Leukemia and Related Disorders .....	1523	<b>110.</b> Megakaryopoiesis and Thrombopoiesis .....	1915																																																																																																		
<i>Jane L. Liesveld and Marshall A. Lichtman</i>		<i>Kenneth Kaushansky</i>																																																																																																			
<b>PART XI</b>																																																																																																					
<b>Malignant Lymphoid Diseases</b>																																																																																																					
<b>89.</b> Classification of Malignant Lymphoid Disorders..... <i>David A. Bond and Robert A. Baiocchi</i>	1581	<b>111.</b> Platelet Morphology, Biochemistry, and Function..... <i>Joseph E. Italiano Jr., Sidney W. Whiteheart, Paul F. Bray, Zhenyu Li, Barry S. Coller, and Susan S. Smyth</i>	1931																																																																																																		
<b>90.</b> Acute Lymphoblastic Leukemia .....	1593	<b>112.</b> Molecular Biology and Biochemistry of the Coagulation Factors and Pathways of Hemostasis..... <i>Mettine H. A. Bos, Cornelis van't Veer, and Pieter H. Reitsma</i>	2017																																																																																																		
<i>Richard A. Larson</i>		<b>113.</b> Control of Coagulation Reactions .....	2051																																																																																																		
<b>91.</b> Chronic Lymphocytic Leukemia .....	1617	<i>Marcel Levi</i>																																																																																																			
<i>John C. Byrd, Adam S. Kittai, and Farrukh T. Awan</i>		<b>114.</b> Vascular Function in Hemostasis .....	206																																																																																																		
<b>92.</b> Hairy Cell Leukemia..... <i>Michael R. Grever and Gerard Lozanski</i>	1637	<i>Katherine A. Hajjar and William A. Muller</i>																																																																																																			
<b>93.</b> Large Granular Lymphocytic Leukemia .....	1647	<b>115.</b> Classification, Clinical Manifestations, and Evaluation of Disorders of Hemostasis .....	2085																																																																																																		
<i>Jonathan E. Brammer, Anjali Mishra, Aharon G. Freud, and Pierluigi Porcu</i>		<i>Marcel Levi and Kenneth Kaushansky</i>																																																																																																			
<b>94.</b> General Considerations of Lymphomas: Incidence Rates, Etiology, Diagnosis, Staging, and Primary Extranodal Disease .....	1655	<b>116.</b> Thrombocytopenia .....	209																																																																																																		
<i>David C. Linch</i>		<i>Kenneth Kaushansky</i>																																																																																																			
<b>95.</b> Pathology of Lymphomas .....	1671	<b>117.</b> Heparin-Induced Thrombocytopenia .....	2125																																																																																																		
<i>Blanca Gonzalez, Luojun Wang, and Elias Campo</i>		<i>Kandace Gollomp, Lubica Rauova, and Mortimer Poncz</i>																																																																																																			
<b>96.</b> Hodgkin Lymphoma..... <i>Michael A. Spinner, Eric Mou, and Ranjana H. Advani</i>	1683	<b>118.</b> Hereditary and Reactive Thrombocytosis..... <i>Kenneth Kaushansky</i>	2139																																																																																																		
<b>97.</b> Diffuse Large B-Cell Lymphoma and Related Diseases..... <i>Michael Dickinson and John F. Seymour</i>	1713	<b>119.</b> Inherited Platelet Disorders..... <i>Suthesh Sivapalaratnam, A. Koneti Rao, Willem Ouwehand, and Kathleen Fresen</i>	2143																																																																																																		
<b>98.</b> Follicular Lymphoma .....	1731	<b>120.</b> Acquired Qualitative Platelet Disorders .....	2173																																																																																																		
<i>Clémentine Sarkozy, Philippe Solal-Céliney, and Guillaume Cartron</i>		<i>Marcel Levi</i>																																																																																																			
<b>99.</b> Mantle Cell Lymphoma .....	1747	<b>121.</b> The Vascular Purpuras .....	2195																																																																																																		
<i>Martin Dreyling</i>		<i>Doru T. Alexandrescu and Marcel Levi</i>																																																																																																			
<b>100.</b> Marginal Zone B-Cell Lymphomas .....	1757	<b>122.</b> Hemophilia A and Hemophilia B..... <i>Miguel A. Escobar and Mark T. Reding</i>	2209																																																																																																		
<i>Alessandro Broccoli and Pier Luigi Zinzani</i>		<b>123.</b> Inherited Deficiencies of Coagulation Factors II, V, V+VIII, VII, X, XI, and XIII..... <i>Flora Peyvandi and Marzia Menegatti</i>	2229																																																																																																		

<b>124.</b> Hereditary Fibrinogen Abnormalities .....	2249
<i>Marguerite Neerman-Arbez and Alessandro Casini</i>	
<b>125.</b> von Willebrand Disease .....	2261
<i>Jill M. Johnsen and David Ginsburg</i>	
<b>126.</b> Antibody-Mediated Coagulation Factor Deficiencies.....	2285
<i>Sean R. Stowell and Pete Lollar</i>	
<b>127.</b> Disseminated Intravascular Coagulation .....	2291
<i>Marcel Levi and Uri Seligsohn</i>	
<b>128.</b> Thrombotic Microangiopathies .....	2313
<i>Marie Scully</i>	
<b>129.</b> Hemolytic Uremic Syndrome .....	2329
<i>X. Long Zheng</i>	
<b>130.</b> Hemostatic Alterations in Liver Diseases and Liver Transplantation .....	2341
<i>Frank W.G. Leebeek and Ton Lisman</i>	
<b>131.</b> Hereditary Thrombophilia .....	2349
<i>Saskia Middeldorp and Michiel Coppens</i>	
<b>132.</b> The Antiphospholipid Syndrome .....	2361
<i>Lucia R. Wolgast and Jacob H. Rand</i>	
<b>133.</b> Venous Thrombosis .....	2383
<i>Gary E. Raskob, Russell D. Hull, and Harry R. Buller</i>	
<b>134.</b> Atherothrombosis: Disease Initiation, Progression, and Treatment.....	2399
<i>Lina Badimon, Guillermo Mendieta, Teresa Padro, and Gemma Vilahur</i>	
<b>135.</b> Fibrinolysis and Thrombolysis .....	2415
<i>Katherine A. Hajjar and Jia Ruan</i>	
<b>PART XIII</b>	
<b>Transfusion Medicine</b>	
<b>136.</b> Erythrocyte Antigens and Antibodies .....	2443
<i>Christine Lomas-Francis</i>	
<b>137.</b> Human Leukocyte and Platelet Antigens .....	2467
<i>Brian J. Franz, Geoffrey A. Land, and Ralph R. Vassallo</i>	
<b>138.</b> Blood Procurement and Red Cell Transfusion.....	2483
<i>Claudia S. Cohn, Jeffrey McCullough, and Xiangrong He</i>	
<b>139.</b> Preservation and Clinical Use of Platelets .....	2501
<i>Jacqueline N. Poston and Terry B. Gernsheimer</i>	
<b>140.</b> Using Plasma and Plasma Component Therapy .....	2513
<i>Jerrold H. Levy and Beth Shaz</i>	
<b>Index</b> .....	2523
