Contents

Part I Basic Medical Microbiology, 1

- 1 Microbial Taxonomy, 1**
 - Classification, 2
 - Nomenclature, 3
 - Identification, 4
- 2 Bacterial Genetics, Metabolism, and Structure, 6**
 - Bacterial Genetics, 6
 - Bacterial Metabolism, 17
 - Structure and Function of the Bacterial Cell, 21
- 3 Host-Microorganism Interactions, 26**
 - The Encounter Between Host and Microorganism, 27
 - Microorganism Colonization of Host Surfaces, 29
 - Microorganism Entry, Invasion, and Dissemination, 32
 - Outcome and Prevention of Infectious Diseases, 41

Part II General Principles in Clinical Microbiology, 44

Section 1 Safety and Specimen Management, 44

- 4 Laboratory Safety, 44**
 - Sterilization, Disinfection, and Decontamination, 45
 - Chemical Safety, 48
 - Fire Safety, 49
 - Electrical Safety, 50
 - Handling of Compressed Gases, 50
 - Biosafety, 50
 - Exposure Control Plan, 50
 - Employee Education and Orientation, 50
 - Disposal of Hazardous Waste, 51
 - Standard Precautions, 51
 - Laboratory Design and Engineering Controls, 52
 - Biological Safety Levels, 52
 - Mailing Biohazardous Materials, 56
- 5 Specimen Management, 58**
 - General Concepts for Specimen Collection and Handling, 58
 - Specimen Preservation, 59
 - Specimen Work-Up, 74
 - Expediting Results Reporting: Computerization, 76

Section 2 Approaches to Diagnosis of Infectious Diseases, 77

- 6 Role of Microscopy, 77**
 - Bright-Field (Light) Microscopy, 78
 - Phase-Contrast Microscopy, 85
 - Fluorescent Microscopy, 86
 - Dark-Field Microscopy, 89
 - Digital Automated Microscopy, 90
 - Digital Holographic Microscopy, 90
- 7 Overview of Conventional Cultivation and Systems for Identification, 91**
 - Organism Identification, 91
 - Principles of Bacterial Cultivation, 91
 - Bacterial Cultivation, 101
 - Principles of Identification, 105
 - Principles of Phenotypic Identification Schemes, 111
 - Commercial Identification Systems and Automation, 116
- 8 Nucleic Acid–Based Analytic Methods for Microbial Identification and Characterization, 119**
 - Overview of Nucleic Acid–Based Methods, 120
 - Postamplification End-Point Analysis, 139
- 9 Overview of Immunochemical Methods Used for Organism Detection, 149**
 - Features of the Immune Response, 149
 - Features of the Humoral Immune Response Useful in Diagnostic Testing, 151
 - Interpretation of Serologic Tests, 152
 - Production of Antibodies for Use in Laboratory Testing, 152
 - Immunoglobulin M Clinical Significance, 154
 - Separating Immunoglobulin M From Immunoglobulin G for Serologic Testing, 154
 - Principles of Immunochemical Methods Used for Organism Detection, 154
 - Summary, 163

Section 3 Evaluation of Antimicrobial Activity, 165

- 10 Principles of Antimicrobial Action and Resistance, 165**
 Antimicrobial Action, 165
 Mechanisms of Antibiotic Resistance, 174
- 11 Laboratory Methods and Strategies for Antimicrobial Susceptibility Testing, 182**
 Goal and Limitations, 182
 Testing Methods, 183
 Laboratory Strategies for Antimicrobial Susceptibility Testing, 200
 Accuracy, 203
 Communication, 206

Part III Bacteriology, 208

Section 1 Principles of Identification, 208

- 12 Overview of Bacterial Identification Methods and Strategies, 208**
 Rationale for Approaching Organism Identification, 208
 Future Trends of Organism Identification, 209

Section 2 Catalase-Positive, Gram-Positive Cocci, 251

- 13 Staphylococcus, Micrococcus, and Similar Organisms, 251**
 General Characteristics, 252
 Epidemiology, 252
 Pathogenesis and Spectrum of Disease, 253
 Laboratory Diagnosis, 255
 Antimicrobial Susceptibility Testing and Therapy, 262
 Prevention, 267

Section 3 Catalase-Negative, Gram-Positive Cocci, 269

- 14 Streptococcus, Enterococcus, and Similar Organisms, 269**
 General Characteristics, 270
 Epidemiology, 270
 Pathogenesis and Spectrum of Disease, 274
 Laboratory Diagnosis, 276
 Antimicrobial Susceptibility Testing and Therapy, 284
 Prevention, 285

Section 4 Non-Branching, Catalase-Positive, Gram-Positive Bacilli, 287

- 15 Bacillus and Similar Organisms, 287**
 General Characteristics, 287
 Laboratory Diagnosis, 291

Antimicrobial Susceptibility Testing and Therapy, 296
 Prevention, 297

- 16 Listeria, Corynebacterium, and Similar Organisms, 298**
 General Characteristics, 298
 Epidemiology, 298
 Pathogenesis and Spectrum of Disease, 300
 Laboratory Diagnosis, 302
 Antimicrobial Susceptibility Testing and Therapy, 309
 Prevention, 309
 Treatment, 309

Section 5 Non-Branching, Catalase-Negative, Gram-Positive Bacilli, 314

- 17 Erysipelothrix, Lactobacillus, and Similar Organisms, 314**
 General Characteristics, 314
 Epidemiology, 314
 Pathogenesis and Spectrum of Disease, 314
 Laboratory Diagnosis, 316
 Prevention, 320

Section 6 Branching or Partially Acid-Fast, Gram-Positive Bacilli, 322

- 18 Nocardia, Streptomyces, Rhodococcus, and Similar Organisms, 322**
 General Characteristics, 323
 Epidemiology and Pathogenesis, 326
 Laboratory Diagnosis, 327
 Antimicrobial Susceptibility Testing and Therapy, 333
 Prevention, 333

Section 7 Gram-Negative Bacilli and Coccobacilli (MacConkey-Positive, Oxidase-Negative), 335

- 19 Enterobacterales, 335**
 General Characteristics, 336
 Epidemiology, 336
 Pathogenesis and Spectrum of Diseases, 336
 Specific Organisms, 339
 Laboratory Diagnosis, 345
 Prevention, 361
- 20 Acinetobacter, Stenotrophomonas, and Other Organisms, 362**
 General Characteristics, 362
 Epidemiology, 362
 Pathogenesis and Spectrum of Disease, 363
 Laboratory Diagnosis, 364
 Cultivation, 364

Antimicrobial Resistance and Antimicrobial
Susceptibility Testing, 367
Antimicrobial Therapy, 368
Prevention, 368

Section 8 *Gram-Negative Bacilli and Coccobacilli* (*MacConkey-Positive, Oxidase-Positive*), 370

- 21 *Pseudomonas, Burkholderia, and Similar Organisms, 370***
General Characteristics, 371
Epidemiology, 371
Pathogenesis and Spectrum of Disease, 372
Laboratory Diagnosis, 373
Antimicrobial Susceptibility Testing and
Therapy, 381
Prevention, 381
- 22 *Achromobacter, Rhizobium, Ochrobactrum, and Similar Organisms, 383***
General Characteristics, 384
Epidemiology, 384
Pathogenesis and Spectrum of Disease, 384
Laboratory Diagnosis, 385
Antimicrobial Susceptibility Testing and
Therapy, 389
Prevention, 389
- 23 *Chryseobacterium, Shingobacterium, and Similar Organisms, 392***
General Characteristics, 392
Epidemiology, 392
Pathogenesis and Spectrum of Disease, 393
Laboratory Diagnosis, 394
Antimicrobial Susceptibility Testing and Therapy, 395
Prevention, 395
- 24 *Alcaligenes, Comamonas, and Similar Organisms, 398***
General Characteristics, 398
Epidemiology, 398
Pathogenesis and Spectrum of Disease, 398
Laboratory Diagnosis, 400
Antimicrobial Susceptibility Testing and Therapy, 402
Prevention, 403
- 25 *Vibrio, Aeromonas, Plesiomonas shigelloides, and Chromobacterium violaceum, 404***
General Characteristics, 405
Epidemiology, 406
Pathogenesis and Spectrum of Disease, 406
Laboratory Diagnosis, 407
Antimicrobial Susceptibility Testing and
Therapy, 411
Prevention, 411

Section 9 *Gram-Negative Bacilli and Coccobacilli* (*MacConkey-Negative, Oxidase-Positive*), 414

- 26 *Sphingomonas and Similar Organisms, 414***
General Considerations, 414
Epidemiology, Spectrum of Disease, and
Antimicrobial Therapy, 414
Laboratory Diagnosis, 414
Prevention, 417
- 27 *Moraxella and Neisseria spp., 419***
General Characteristics, 419
Epidemiology, Spectrum of Disease, and
Antimicrobial Therapy, 419
Laboratory Diagnosis, 420
Antimicrobial Susceptibility, 423
Prevention, 423
- 28 *Eikenella corrodens and Similar Organisms, 425***
General Characteristics, 425
Epidemiology, Spectrum of Disease, and
Antimicrobial Therapy, 425
Laboratory Diagnosis, 426
Serodiagnosis, 428
Prevention, 428
- 29 *Pasteurella and Similar Organisms, 430***
General Characteristics and Taxonomy, 430
Epidemiology, Spectrum of Disease, and
Antimicrobial Therapy, 430
Laboratory Diagnosis, 432
Serodiagnosis, 432
Serodiagnosis, 434
Prevention, 434
- 30 *Actinobacillus, Kingella, Cardiobacterium, Capnocytophaga, and Similar Organisms, 435***
General Characteristics, 436
Epidemiology, Pathogenesis, and Spectrum of
Disease and Antimicrobial Therapy, 436
Laboratory Diagnosis, 437
Nucleic Acid Detection, 439
Serodiagnosis, 439
Prevention, 442

Section 10 *Gram-Negative Bacilli and Coccobacilli* (*MacConkey-Negative, Oxidase-Variable*), 443

- 31 *Haemophilus, 443***
General Characteristics, 443
Epidemiology, 443
Pathogenesis and Spectrum of Disease, 445
Laboratory Diagnosis, 445
Antimicrobial Susceptibility Testing and Therapy,
450
Prevention, 450

Section 11 Gram-Negative Bacilli That Are Optimally Recovered on Special Media, 452

- 32 *Bartonella*, 452**
Bartonella, 452
 Direct Detection Methods, 454
- 33 *Campylobacter*, *Arcobacter*, and *Helicobacter*, 457**
Campylobacter and *Arcobacter*, 457
Helicobacter spp., 464
- 34 *Legionella*, 468**
 General Characteristics, 468
 Pathogenesis and Spectrum of Disease, 469
 Laboratory Diagnosis, 471
 Antimicrobial Susceptibility Testing and Therapy, 474
 Prevention, 474
- 35 *Brucella*, 476**
 General Characteristics, 476
 Epidemiology and Pathogenesis, 476
 Spectrum of Disease, 477
 Laboratory Diagnosis, 477
 Antimicrobial Susceptibility Testing and Therapy, 481
 Prevention, 481
- 36 *Bordetella pertussis*, *Bordetella parapertussis*, and Related Species, 482**
 General Characteristics, 482
 Spectrum of Disease, 483
 Laboratory Diagnosis, 484
 Antimicrobial Susceptibility Testing and Therapy, 485
 Prevention, 486
- 37 *Francisella*, 487**
 General Characteristics, 487
 Epidemiology and Pathogenesis, 487
 Spectrum of Disease, 488
 Laboratory Diagnosis, 489
 Antimicrobial Susceptibility Testing and Therapy, 491
 Prevention, 491
- 38 *Streptobacillus* spp. and *Spirillum minus*, 492**
Streptobacillus spp., 492
Spirillum minus, 494

Section 12 Gram-Negative Cocci, 495

- 39 *Neisseria* and *Moraxella catarrhalis*, 495**
 General Characteristics, 495
 Epidemiology, 495
 Pathogenesis and Spectrum of Disease, 496
 Laboratory Diagnosis, 498
 Antimicrobial Susceptibility Testing and Therapy, 503
 Prevention, 503

Section 13 Anaerobic Bacteriology, 505

- 40 Overview and General Laboratory Considerations, 505**
 General Characteristics, 505
 Specimen Collection and Transport, 505
 Macroscopic Examination of Specimens, 506
 Direct Detection Methods, 506
 Specimen Processing, 509
 Anaerobic Media, 510
 Approach to Identification, 512
 Antimicrobial Susceptibility Testing and Therapy, 513
- 41 Overview of Anaerobic Organisms, 515**
 Epidemiology, 516
 Pathogenesis and Spectrum of Disease, 516
 Nucleic Acid Detection and MALDI-TOF MS (Gram-Positive), 524
 Nucleic Acid Detection and MALDI-TOF MS (Gram-Negative), 525
 Nucleic Acid Detection and MALDI-TOF MS, 528
 Prevention, 528

Section 14 Mycobacteria and Other Bacteria With Unusual Growth Requirements, 530

- 42 Mycobacteria, 530**
Mycobacterium tuberculosis Complex, 531
 Nontuberculous Mycobacteria, 534
 Laboratory Diagnosis of Mycobacterial Infections, 541
 Antimicrobial Susceptibility Testing and Therapy, 555
 Prevention, 559
- 43 Obligate Intracellular and Nonculturable Bacterial Agents, 562**
Chlamydia, 563
Rickettsia, *Orientia*, *Anaplasma*, and *Ehrlichia*, 570
Coxiella, 573
Tropheryma whippelii, 573
Klebsiella granulomatis, 574
- 44 Cell Wall-Deficient Bacteria: *Mycoplasma* and *Ureaplasma*, 576**
 General Characteristics, 576
 Epidemiology and Pathogenesis, 577
 Spectrum of Disease, 580
 Laboratory Diagnosis, 580
 Cultivation, 581
 Susceptibility Testing and Therapy, 584
 Prevention, 584
- 45 The Spirochetes, 586**
Treponema, 587
Borrelia, 593
Brachyspira, 597
Leptospira, 598
 Prevention, 600

Part IV Parasitology, 601

46 Overview of the Methods and Strategies in Parasitology, 601

Epidemiology, 601
Pathogenesis and Spectrum of Disease, 609
Laboratory Diagnosis, 609
Approach to Identification, 617
Prevention, 639
Ectoparasites, 640

47 Intestinal Protozoa, 642

Amoebae, 642
Flagellates, 662
Ciliates, 669
Sporozoa (Apicomplexa), 670
Microsporidia, 678

48 Blood and Tissue Protozoa, 683

Plasmodium spp., 683
Babesia spp., 696
Trypanosoma spp., 697
Leishmania spp., 702

49 Protozoa From Other Body Sites, 706

Free-Living Amoebae, 706
Naegleria fowleri, 706
Acanthamoeba spp., 710
Acanthamoeba Keratitis, 712
Balamuthia mandrillaris, 712
Trichomonas vaginalis, 713
Toxoplasma gondii, 715

50 Intestinal Nematodes, 720

Ascaris lumbricoides, 720
Enterobius vermicularis, 723
Strongyloides stercoralis, 725
Trichostrongylus spp., 727
Trichuris trichiura, 728
Capillaria philippinensis, 729
Hookworms, 729
Ancylostoma duodenale, 730
Necator americanus, 730
Ancylostoma ceylonicum, *Ancylostoma braziliense*,
and *Ancylostoma caninum*, 731
Results and Reporting, 732

51 Tissue Nematodes, 733

Trichinella spp., 733
Toxocara canis (Visceral Larva Migrants) and *Toxocara cati* (Ocular Larva Migrants), 734
Baylisascaris procyonis (Neural Larva Migrants), 737
Ancylostoma braziliense and *Ancylostoma caninum* (Cutaneous Larva Migrants), 738
Dracunculus medinensis, 738
Parastrongylus cantonensis (Cerebral Angiostrongyliasis), 740

Parastrongylus costaricensis (Abdominal Angiostrongyliasis), 741
Gnathostoma spinigerum, 741
Capillaria hepatica, 741
Dirofilaria immitis and Other Species, 742

52 Blood and Tissue Filarial Nematodes, 744

Wuchereria bancrofti, 744
Brugia malayi and *Brugia timori*, 748
Loa loa, 748
Onchocerca volvulus, 749
Mansonella spp. (*M. ozzardi*, *M. streptocerca*, *M. perstans*), 750
Dirofilaria spp. (*D. immitis*, *D. repens*, *D. tenuis*), 751

53 Intestinal Cestodes, 753

Diphyllobothrium latum, 753
Dipylidium caninum, 755
Hymenolepis nana, 757
Hymenolepis diminuta, 759
Taenia solium, 759
Taenia saginata, 762
Taenia asiatica, 762
Taenia crassiceps, 763

54 Tissue Cestodes, 765

Taenia solium, 765
Echinococcus granulosus Complex, 767
Echinococcus multilocularis, 769
Echinococcus oligarthrus and *Echinococcus vogeli*, 770
Taenia multiceps and Other Species, 771
Taenia serialis, 771
Spirometra mansonoides, 772

55 Intestinal Trematodes, 774

Echinostoma spp., 774
Fasciolopsis buski General Characteristics, 775
Gastrodiscoides hominis, 776
Heterophyes: *Metagonimus yokogawai*, *Centrocestus* spp., *Haplorchis* spp., *Stellantchamus* spp., and *Pygidiopsis* spp. General Characteristics, 776

56 Liver and Lung Trematodes, 780

The Liver Flukes, 780
The Lung Flukes, 783

57 Blood Trematodes, 786

General Characteristics, 786
Epidemiology, 787
Pathology and Spectrum of Disease, 787
Laboratory Diagnosis, 789
Therapy, 790
Prevention, 790

Part V Mycology, 791

58 Overview of Fungal Identification Methods and Strategies, 791

Epidemiology, 791
 General Features of the Fungi, 792
 Taxonomy of the Fungi, 792
 Clinical Classification of the Fungi, 794
 Pathogenesis and Spectrum of Disease, 795
 Laboratory Diagnosis, 795
 General Considerations for the Identification of Yeasts, 803
 General Considerations for the Identification of Molds, 806
 General Morphologic Features of the Molds, 808
 Clinical Relevance for Fungal Identification, 811
 Laboratory Safety, 812
 Prevention, 812

59 Hyaline Molds, Mucorales, Basidiobolales, Entomophthorales, Dermatophytes, and Opportunistic and Systemic Mycoses, 814

The Mucorales, 815
 The Entomophthorales and Basidiobolales, 819
 The Dermatophytes, 819
 The Opportunistic Mycoses, 827
 Systemic Mycoses, 833

60 Dematiaceous (Melanized) Molds, 845

General Characteristics, 846
 Epidemiology and Pathogenesis Superficial Infections, 846
 Pathogenesis and Spectrum of Disease, 849
 Laboratory Diagnosis, 850

61 Atypical and Parafungal Agents, 858

PNEUMOCYSTIS, 858
 General Characteristics, 858
 Epidemiology, 858
 Pathogenesis and Spectrum of Disease, 859
 Laboratory Diagnosis, 859
 Rare Atypical and Parafungal Agents, 860

62 The Yeasts and Yeastlike Organisms, 863

General Characteristics, 863
 Epidemiology, 865
 Pathogenesis and Spectrum of Disease, 867
 Laboratory Diagnosis, 870
 Commercial Yeast Identification Systems, 875

63 Antifungal Susceptibility Testing, Therapy, and Prevention, 880

Antifungal Susceptibility Testing, 880
 Antifungal Therapy and Prevention, 881

Part VI Virology, 884

64 Overview of the Methods and Strategies in Virology, 884

General Characteristics, 885
 Epidemiology, 888
 Pathogenesis and Spectrum of Disease, 888
 Prevention and Therapy, 888
 Viruses That Cause Human Diseases, 889
 Laboratory Diagnosis, 889

65 Viruses in Human Disease, 918

Viruses in Human Disease, 918
Adenoviridae, 918
Arenaviridae, 921
Astroviridae, 922
Caliciviridae, 922
Coronaviridae, 922
Filoviridae, 924
Flaviviridae, 925
Hantaviridae, 927
Hepadnaviridae, 928
Hepeviridae, 929
Herpesviridae, 929
 Herpesviruses, 930
 Varicella-Zoster Virus, 931
 Epstein-Barr Virus, 932
 Cytomegalovirus, 932
Orthomyxoviridae, 933
 Papillomaviruses, 934
Paramyxoviridae, 935
 Measles Virus, 935
Parvoviridae, 936
Picornaviridae, 936
 Enteroviruses, Parechoviruses, and Polioviruses, 936
 Rhinovirus, 937
 Hepatitis A Virus, 938
Pneumoviridae, 939
Polyomaviridae, 939
Poxviridae, 940
Reoviridae, 940
Retroviridae, 941
Rhabdoviridae, 943
Togaviridae, 943
 Prions in Human Disease, 943

66 Antiviral Therapy, Susceptibility Testing, and Prevention, 946

Antiviral Therapy, 946
 Antiviral Resistance, 946
 Methods of Antiviral Susceptibility Testing, 948
 Prevention of Other Viral Infections, 951

Part VII Diagnosis by Organ System, 953

- 67 Bloodstream Infections, 953**
 - General Considerations, 954
 - Detection of Bacteremia, 960
 - Special Considerations for Other Relevant Organisms Isolated From Blood, 966
- 68 Infections of the Lower Respiratory Tract, 970**
 - General Considerations, 970
 - Diseases of the Lower Respiratory Tract, 973
 - Laboratory Diagnosis of Lower Respiratory Tract Infections, 978
- 69 Upper Respiratory Tract Infections and Other Infections of the Oral Cavity and Neck, 985**
 - General Considerations, 985
 - Diseases of the Upper Respiratory Tract, Oral Cavity, and Neck, 985
 - Diagnosis of Upper Respiratory Tract Infections, 989
 - Diagnosis of Infections in the Oral Cavity and Neck, 991
- 70 Meningitis and Other Infections of the Central Nervous System, 993**
 - General Considerations, 993
 - Shunt Infections, 999
 - Laboratory Diagnosis of Central Nervous System Infections, 999
- 71 Infections of the Eyes, Ears, and Sinuses, 1005**
 - Eyes, 1005
 - Ears, 1012
 - Sinuses, 1014
- 72 Infections of the Urinary Tract, 1017**
 - General Considerations, 1017
 - Infections of the Urinary Tract, 1018
 - Laboratory Diagnosis of Urinary Tract Infections, 1022
- 73 Genital Tract Infections, 1029**
 - General Considerations, 1029
 - Genital Tract Infections, 1030
 - Laboratory Diagnosis of Genital Tract Infections, 1037
- 74 Gastrointestinal Tract Infections, 1045**
 - Anatomy, 1045
 - Resident Gastrointestinal Microbiome, 1046
 - Gastroenteritis, 1047
 - Other Infections of the Gastrointestinal Tract, 1055
 - Laboratory Diagnosis of Gastrointestinal Tract Infections, 1058

75 Skin, Soft Tissue, and Wound Infections, 1064

- General Considerations, 1064
- Skin and Soft Tissue Infections, 1065
- Laboratory Diagnostic Procedures, 1072

76 Normally Sterile Body Fluids, Bone and Bone Marrow, and Solid Tissues, 1075

- Specimens From Sterile Body Sites, 1075
- Laboratory Diagnostic Procedures, 1081

Part VIII Clinical Laboratory Management, 1085

77 Quality in the Clinical Microbiology Laboratory, 1085

- Quality Program, 1086
- Specimen Collection and Transport, 1086
- Standard Operating Procedure Manual, 1087
- Personnel, 1087
- Reference Laboratories, 1087
- Patient Reports, 1087
- Proficiency Testing, 1088
- Performance Checks, 1088
- Antimicrobial Susceptibility Tests, 1089
- Maintenance of Quality Control Records, 1089
- Maintenance of Reference Quality Control Stocks, 1090
- Quality Assurance Program, 1090
- Types of Quality Assurance Audits, 1090
- Conducting a Quality Assurance Audit, 1091
- Continuous Daily Monitoring, 1091

78 Infection Control, 1094

- Incidence of Health Care–Associated Infections, 1095
- Types of Health Care–Associated Infections, 1095
- Emergence of Antibiotic-Resistant Microorganisms, 1096
- Hospital Infection Control Programs, 1097
- Role of the Microbiology Laboratory, 1097
- Characterizing Strains Involved in an Outbreak, 1097
- Preventing Health Care–Associated Infections, 1098
- Surveillance Methods, 1099

79 Sentinel Laboratory Response to Bioterrorism, 1103

- General Considerations, 1103
- Government Laws and Regulations, 1103
- Laboratory Response Network, 1105

Glossary, 1108

Index, 1126
